

HMIC Value for Money Profile 2016

Dyfed-Powys Police

compared with all forces in England & Wales

*The forces in the most similar group can be identified
in the charts in this section by using the key below*

- a** Dyfed-Powys
- b** Lincolnshire
- c** Cumbria
- d** Norfolk

Contents

3 Introduction

7 Section One – Costs, workforce and demand/performance

Income and expenditure

- | | |
|---|----------------------------|
| 8 Overview | 13 Financing |
| 9 Spend by function | 14 Earned income |
| 10 Workforce costs - Officers | 15 Funding trends |
| 11 Workforce costs - Police staff & PCSOs | 16 Total costs by function |
| 12 Non-staff costs | |

Net revenue expenditure by function:

- | | |
|----------------------------------|---------------------------------------|
| 17 Summary | 30 Investigations - public protection |
| 18 Local policing | 32 Investigations |
| 20 Dealing with the public | 34 Investigative support |
| 22 Criminal justice arrangements | 36 Support functions |
| 24 Road policing | 39 PCC/Local policing bodies |
| 26 Operational support | 40 Criminal Justice costs |
| 28 Intelligence | |

Workforce

- | | |
|---|--|
| 41 Summary | 45 Leavers |
| 42 Officers/PCSOs by rank | 46 Joiners |
| 43 Officers/staff by back office function | 47 Sickness and recuperative/restricted duty |
| 44 Workforce numbers by function | 48 Officers' length of service |

Demand/performance

- | | |
|---------------------------------------|------------------------|
| 49 Crime trends | 53 Emergency incidents |
| 50 Crime per visible officers | 54 Priority incidents |
| 51 Crime outcome per visible officers | 55 All incidents |
| 52 999 calls | |

56 Section Two – Offences and outcomes

- | | |
|---------------------------------|---|
| 60 Crimes (excluding fraud) | 76 Crime against children |
| 62 Victim-based offences | 78 Outcome percentage |
| 64 Violence against the person | 80 Charged/Summoned |
| 66 Sexual offences | 81 Out-of-court (formal) |
| 68 Robbery | 82 Out-of-court (informal) |
| 70 Theft offences | 83 Suspect Identified - No Action Taken |
| 72 Criminal damage and arson | 84 Investigation complete – no suspect identified |
| 74 Other crimes against society | 85 Not yet assigned an outcome |

95 Outliers

Introduction

Data about a single force can never reveal all there is to know. Insight comes from putting a force's data side by side with others so that the differences are revealed. No two forces face the same problems, so it makes sense to compare the performance of forces which share similar demographics and are therefore, more likely to have similar problems. For example, there is more value in comparing Greater Manchester Police's crime performance with that of the West Midlands Police and other similar, large urban forces. In fact the Home Office has 'clustered' forces into most similar groups or MSGs, as we refer to them in this document, to produce a standard set of comparison forces to set against your force. We highlight these forces in the bar charts and, where relevant, we also show the most similar group of forces average (or MSG average), represented by a line across the bars in the charts. Forces in the same group as your force are listed on the front cover of this document.

We also show the expenditure for each force (usually expressed as £ per head of population) and compare it with other MSG forces. There are limitations, which you should be aware of. First and foremost, the way the police service is funded is largely based on past expenditure patterns and the ability of forces to raise different levels of income from their council tax base.

Secondly, the financial comparisons used in this document do not adjust for the costs of operating in a particular part of the country. An "area cost adjustment" figure is available from the Home Office, but when we applied it to the data, it made a small difference to some forces close to London, such as Surrey and Thames Valley, and for obvious reasons, a larger difference to the Metropolitan Police. For most forces there was little change, so we decided to present costs without the adjustment. A few forces may want to make some adjustments; but in general most forces are not sufficiently affected.

In any case, users of this information should be looking at larger differences in costs compared with the MSG average, than that represented by the area cost adjustment. Furthermore, it is often the case that the main factors which explain higher costs lie elsewhere. More often than not, the main factor is volume – higher PCSO expenditure is most likely due to having more of them, rather than the average cost of each PCSO. In some areas, such as training, the major factor is the mix of the workforce – a higher percentage of police officers can be expensive. (It may also be more appropriate in some cases.)

The aim of the profiles is to help Police and Crime Commissioners, Police and Crime Panels and force managers identify significant differences, raise legitimate questions, ask for explanations and possibly further investigation. The information draws attention to questions which should be addressed.

Here are some illustrative examples:

- why is it that this force is more able to identify rape suspects and charge them, than others?
- why is it that similar crimes attract different outcomes (such as charges or informal warnings) in different forces?
- is there a relationship between high sickness rates for police officers and the fact that this force has fewer local police officers?
- if more of our incidents are classified as emergencies than other similar forces, is that because we have too few call handlers (classified as dealing with the public) or because more training is required?
- if our information, communications and technology costs are higher, is this helping our force to be more efficient or is it just expensive?
- have major reductions in police staff resulted in more costly police officers doing 'back office type jobs'?

HMIC's Value for Money (VfM) profiles allow you to compare your force's performance, and the costs of achieving it, with that of other forces. The VfM profiles provide an important tool not only to help discover areas of high relative cost or identify differences in performance, but also to identify other forces which are achieving more with less. Although last year's autumn statement changed the financial climate for police forces; it remains challenging. This and a redistribution of the police grant among forces due to changes in the funding formula mean that the profiles continue to be a vital tool.

The VfM profiles are:

- designed for use by force management, police and crime commissioners (PCCs) and local policing bodies as well as HMIC;
- wide ranging, covering a large amount of information in a single, easy to use document;
- presented in a uniform format to allow you to focus attention on the main differences which require explanation and action to improve;
- timely – being published close to the announcement of the Chancellor of the Exchequer's autumn statement, when major financial decisions are being taken;
- not league tables or targets – they are designed to raise questions, not make judgments.

Each profile has two parts: a summary (published separately), and this more detailed profile; both are available on our website. They are designed to be investigative tools to draw attention to large, and possibly unexplained, differences in costs or performance. These should be followed up to confirm whether resources are being used efficiently and effectively.

What changes have been made?

The main changes this year are:

1. There have not been any major changes to the Police Objective Analysis (POA) definitions and categories. However, public protection units have been separated from investigations and are now presented separately as a distinct category (pages 30 and 31).
2. The profiles now provide data on how incidents have been categorised (emergency, priority, scheduled or resolved without deployment) and how this has differed from 2012/13 to 2015/2016.
3. For the second year, the profiles include data covering outcomes associated with recorded crime. The profiles present the data on principle outcomes for each crime category along with the difference from the expected volumes of those outcomes based on the England and Wales average.

How do I use the profiles?

Most of the data are presented as bar charts so you can see how your force compares with others. Your force is highlighted in black with forces in your 'most similar group' (MSG) shown in teal. MSG forces share similar demographics (more details about MSG forces can be found on page 6). Finally, a horizontal line runs across each bar chart representing the average value across all forces in England and Wales (excluding the Metropolitan Police Service and City of London Police) unless stated otherwise.

The profiles are presented as 'logic trees' with the data broken down progressively from left to right. By following the branches of the logic tree, you can identify the reason(s) for differences between your force and others. To illustrate, in the example given on page 5 a force could be spending more on police officers because there are more of them (officers per head of population), or because they are more expensive (cost per officer), or because it is spending more on overtime.

Most pages also include tables which lay out the main data presented in the charts as well as some additional comparisons. Typically, from left to right they show:

- a short description the relevant volumes (e.g. staff numbers/total costs/numbers of crimes)
- a ratio for comparison (e.g. staff per head of population)
- the average costs per volumes
- the 'difference' which
 - o for costs shows how much more, or less, it is costing your force than the average;
 - o for crimes/outcomes shows how many more, or fewer, crimes/outcomes your force is recording as a result of the difference from the average; and
 - o for workforce shows how much larger, or smaller, your force's workforce is as a result of the difference from the average.

- chevrons (<<) against the data highlight whether your force is an outlier for this item (whether the force is in the top or bottom 10 percent and the effect of the difference is greater than £1 per head of population).

An example is shown on the following page

Note on Crime Data Integrity

In 2014 HMIC completed an inspection into the way police forces in England and Wales record crime data. This report identified serious concerns about the crime recording process and HMIC is now undertaking a programme of inspecting crime data recording across police forces in England and Wales. In response to the findings of both the 2014 report and the inspection programme, many forces have or are in the process of reviewing their crime recording processes. This may have an impact on recorded crime trends although the impact is likely to vary by force.

Note on Collaboration

For the majority of forces that are not involved in significant or large-scale collaborations, the use of net expenditure provides an adequate comparison. However, as the use of collaboration increases in scale, the way data are collected and presented has adapted. In 2014/15, additional headings were added to the POA, separating out staff and third party costs and income related to collaboration. CIPFA guidance explains how forces should record their collaborations depending on the type of model they operate – As we present costs net of earned income, costs in collaborating forces should be broadly comparable with other forces. The main exception is costs per FTE staff, which can be distorted if the collaboration is reported using the 'lead force' model (where all staff are shown as based in the force providing the service, rather than split across the forces taking part in the collaboration).

Feedback

Many forces worked with us throughout the development of the VfM profiles, and we are grateful to those that provided us with feedback and comments. HMIC is always keen to hear from users how the profiles can be improved. If you have any suggestions, or any analysis which you think might be useful to include, please contact HMICProfiles@hmic.gsi.gov.uk.

Guidance page - How to read the profiles

How much do officers in the force cost compared with others? How much overtime do they receive?

1. The profiles use 'logic trees' break each policing function down (from left to right) into component parts. For each breakdown, you can see how the force (labelled 'a') compares to other forces in its most similar group of forces (labelled 'b - f'), as well as all forces in England and Wales.

2. The force (a) has some of the highest officer costs per head of population nationally...

4. This chart shows a breakdown of the previous branch of the logic tree, revealing overtime has little bearing on officer costs.

3. ...equating to a difference of £15.5m when compared to the national (all) average.

6. The force has more officers per 1,000 population than the national average, equating to a difference in cost of £17.2m (see

7. The cost of individual officers in the force is relatively low.

5. The force spends little (as a proportion) on overtime.

Officer costs	£/head	Averages		Diff* £m	
		All	MSG	All	MSG
All pay exc. overtime	127.7	99.0	121.0	16.0	3.7
Overtime	2.2	3.0	3.4	-0.4	-0.7
Total	129.8	102.0	124.4	15.5	3.0

Officer overtime as a % of total salary costs	% sal	Averages		Diff* £m	
		All	MSG	All	MSG
Total	1.7%	3.0%	2.9%	-0.9	-0.8

Number of officers and cost per officer		Averages		Diff* £m	
		All	MSG	All	MSG
FTE per 1,000 population	2.54	1.93	2.40	17.2	3.8
Cost per FTE (£000s)	50.3	51.3	50.4	-1.4	-0.1

* Net cost of the difference in spend to the average per head of all/MSG forces.

N.B Outliers are highlighted with blue chevrons, and represent the values that are in the highest and lowest 10% of values across all force and, where appropriate, have a value of more than £1 per head.

Frequently asked questions

What is the purpose of the most similar group (MSG) comparison?

The MSG was designed to offer a fairer comparison of levels of crime between forces as they group forces with similar demographics. While MSG comparisons do not take account of the fact that some areas have higher costs than others; they are used here to compare costs since forces in a high crime MSG (such as large urban forces) are likely to have greater resources such as more officers, staff and PCSOs. While most forces share similar demographics with the rest of their group, there are a few that are less closely aligned (the Metropolitan Police Service, Dyfed-Powys Police, Surrey Police and City of London Police). Apart from City of London Police, the remaining forces are still included with a most similar group, but their appearance as an outlier means they should be treated with caution. MSGs were last updated for the 2013 VfM profiles using data from the 2011 Census; this grouping remains the most recent update.

What checks have been applied to the data?

The data presented in the profiles are subject to a systematic checking process:

- The Chartered Institute of Public Finance and Accountancy (CIPFA) applies arithmetic and reconciliation checks to the financial data from forces.
- Each force is asked to check its statistical outliers (where its costs are significantly different from average and/or from its return for the previous year).
- Each force receives a draft profile to check the figures before publication.

Each year forces identify anomalies or inconsistencies which HMIC attempts to resolve. Forces are able to resubmit data to correct any errors.

Which workforce figures are used?

The profiles include staff numbers drawn from two data sets: the Home Office annual data return (ADR), which is a snapshot at 31 March each year of full-time equivalent staff in post and the Police Objective Analysis (POA) which counts the average, budgeted, full-time equivalent staff for the financial year. Given the differences between the two, these figures in some cases will not align completely. In general, the profiles use POA budgeted staff numbers to make detailed financial comparisons between forces. However, POA is a relatively recent invention and, prior to 2011/12, it was not validated by HMIC. Consequently, it cannot provide a series long enough to show changing trends over time. In contrast, ADR has been validated over several years so is used to present trends on police officers, PCSO and police staff numbers. It is also used where equivalent data are not available from POA.

Which population figures are used?

The profiles use mid-2015 population estimates, which are the latest available from the ONS. Please note that the ONS police recorded crime data publication, 12 months to 31 March 2016 (published in July 2016) used mid-2014 population estimates so numbers will not match exactly.

Which crime figures are used?

The VfM profiles include the crime statistics published by the ONS in for the data for the 12 months to March 2016. The Home Office introduced a new framework to measure outcomes associated with crimes in 2013. Data covering outcomes associated with crimes recorded in the 12 months to 31 March 2016 for all forces are published by the Home Office and updated on 20 October 2016.

How are averages calculated?

Unless stated otherwise, the simple average of all forces and MSG forces are used. Except for their own profiles, City of London Police and the Metropolitan Police Service are omitted from the averages and the charts because they are outliers in most categories.

What rule is used to highlight outliers?

The difference is highlighted if the indicator puts the force in the top or bottom 10 percent and the effect of the difference is greater than £1 per head of population.

Where can I find further contextual information to help me understand the data?

Further contextual information can be provided by HMIC, for example the definitions used by CIPFA in constructing the POA dataset.

Section One – Costs, workforce and demand/performance

This section looks at how a force deploys its workforce and the associated costs for each of the 13 headline categories within the Police Objective Analysis (POA). POA subcategory information on costs is also presented. POA estimates are used for all cost and workforce data unless stated otherwise. These data are taken as a snapshot as at 8 November 2016. Any updates to the data made after this time will not be reflected in the profile. Home Office Annual Data Requirement (ADR) data is used where relevant POA data is not available. Examples include officers by rank, sickness rates, restricted/recuperative duty rates, officers' length of service and leavers/joiners.

With the exception of special constables, workforce data comprises full-time equivalent (FTE) figures. In POA estimates these are calculated as the number of staff budgeted for each staff type. Police workforce figures published by the Home Office are based on those in-post as of 31 March each year. The two sets of figures are not, therefore, directly comparable.

Key to the data and calculations

- Net revenue expenditure: The profiles use a different calculation for net revenue expenditure to the Chartered Institute of Public Finance and Accountancy (CIPFA); it is calculated as total expenditure minus earned income to show the total cost of policing to the taxpayer.
- Earned income: Where earned income is referred to, this covers partnership income, sales fees charges and rents, special police services, reimbursed income and interest.
- Averages: All averages in this section (unless otherwise stated) are simple, unweighted England and Wales averages, including the force in question. As the Metropolitan Police and City of London Police data distort the chart scales, they have been excluded from all charts and averages except for those in their own profiles.
- Difference to most similar group (MSG) / All force: Differences are calculated using the difference in cost per head. An example calculation is as follows: (Force cost per head - MSG cost per head) multiplied by population = absolute cost of difference.
- Police officer spend as % of gross expenditure: The profiles show the proportion of spend on officers (including overtime) by function. Calculation is as follows: (Police officer spend + Police officer overtime) / Gross Revenue Expenditure (GRE) = police officer spend as % of GRE.

- National policing: To more accurately compare forces, national policing functions (such as counter terrorism/special branch) is not included in totals of spend and workforce (unless stated otherwise).
- Operational frontline, frontline support and business support: POA data is mapped onto these categories. Since counter-terrorism/special branch is a national policing function, we do not include this as a frontline role (for the reason given above). Due to this, and the previously described differences between the ADR and POA workforce data, the totals and proportions may not match those published elsewhere. The list of POA categories and their classifications are given in Annex 3.

Please note that, throughout the profiles, rounding may cause apparent discrepancies between totals and the sums of the parts.

How to use this section

Users may wish to focus on those charts where the force is an outlier, i.e. where the force is significantly different from the average. Outliers are highlighted with blue chevrons and indicate that the force falls within the highest or lowest 10% and, where applicable, the financial value is greater than £1 per head. Alternatively users may wish to examine where the force of interest is positioned relative to other forces they think are similarly performing or where they expect that force to be.

Users should consider exploring the reasons for any differences by looking at the force as a whole, using relevant local knowledge. Staffing levels should also be considered in the context of workforce modernisation, collaboration efforts and the outsourcing of services. Please note that in some cases, charts are not given for all breakdowns; priority is given to those areas with the highest costs or levels.

Throughout the profiles the chart scales vary and as a result the differences shown may not be as significant as they first appear.

Income and expenditure - Overview

How much does the force spend in each area of business compared with others? How much does it earn in income?

Cost per head of population

The profiles calculate net revenue expenditure (NRE) as total expenditure minus earned income to show the total cost of policing to the taxpayer. Note that this is different from NRE as reported in the raw POA data.

To improve comparability between forces, national policing functions (such as counter-terrorism/special branch) are excluded from the data analysis and charts.

Population		516k				
	£m	£/head	Averages		Diff* £m	
			All	MSG	All	MSG
Police officers	56.5	109.6	95.1	96.3	7.5	6.9
Police staff	20.8	40.3	38.9	34.1	0.7	3.2
PCSOs	4.9	9.5	6.4	7.5	1.6	1.0
Workforce	82.2	159.3	140.4	137.9	9.7	11.1
Non-staff costs	21.2	41.1	45.2	54.1	-2.1	-6.7
Earned income	-7.5	-14.6	-8.4	-8.4	-3.2	-3.2
NRE exc nat.pol.	95.9	185.9	177.2	183.6	4.5	1.2
National policing**	0.5	1.0	4.3	2.3	-1.7	-0.7
NRE inc nat. pol.	96.4	186.9	181.5	185.9	2.7	0.5

* Net cost of the difference in spend to the average per head of all/MSG forces.

** Note that national policing has been included in the table only for reference so that the totals reconcile to the financing totals later in this section.

Source: POA estimates 2016/17

Income and expenditure - Spend by function

What proportion of spend is on the front line or in business support compared with others? What proportion is spent in visible functions?

Cost per head of population

Police workforce roles are split into three categories: operational front line, frontline support and business support. The front line is further broken down into visible and non-visible roles (see Annex 3 for a breakdown by POA category). These plots show the NRE in each category. To improve comparability between forces, national policing functions are excluded.

Collaboration and outsourcing affect workforce numbers so costs, rather than FTE figures, are presented.

Note that in *PEEL: Police efficiency 2015 (October 2015)* HMIC define frontline support as *operational support*. Since this is the name of a POA category, *frontline support* is used here to avoid confusion.

NRE per pop (excluding national functions)

	NRE £m	Force breakdown	Averages		MSG Diff** £m
			All	MSG	
Visible	43.0	46.5%	38.2%	39.3%	6.7
Non-visible	25.5	27.6%	32.4%	30.0%	-2.2
Operational front line	68.6	74.1%	70.6%	69.3%	4.4
Frontline support	8.8	9.5%	8.7%	9.2%	0.3
Business support	15.1	16.4%	20.7%	21.4%	-4.7
Other*	3.4				
Total (NRE)	95.9	100.0%	100.0%	100.0%	

* Functions classified as *Other* do not fit into any of the three categories. They include costs associated with the PCC and central costs such as capital financing and pension costs.

** Net cost of the difference in proportion spent in each category compared to the average of MSG forces.

Dyfed-Powys

Income and expenditure - Non-staff costs

Apart from on the workforce, where else is the force spending money compared with others?

Non-staff costs as a percentage of workforce costs

Workforce costs include officer, staff and PCSO salary and overtime costs only. Temporary and agency costs are classified as non-staff. To improve comparability between forces, national policing functions are excluded.

Non-staff costs are broken down into specific types of running costs. They are shown as a percentage of workforce costs as many are largely dependent on the size of the workforce.

Note that collaboration, outsourcing and partnership arrangements will affect the data for some forces.

Force workforce costs		£82m					
	£m	% of w'force costs	Averages		Diff* £m		
			All	MSG	All	MSG	
Supplies and services**	9.9	12.1%	11.5%	11.9%	0.5	0.2	
Force collaboration payments	1.8	2.2%	5.2%	10.6%	-2.5	-6.9	
Premises related expenses	2.6	3.2%	5.0%	4.8%	-1.5	-1.3	<<

Dyfed-Powys

Income and expenditure - Financing

How much money does the local policing body receive in funding compared with others and from where? What is the level of council tax in the force and how does that compare with others?

Funding per head of population

Central funding is broken down into formula-based funding*, and government grants, which are not formula based. Local funding is comprised of council tax, use of reserves and council tax support grants.

To show a typical council tax payment in the force, Band D tax rates (from CIPFA estimates) have been included. The yield shows the amount, from every £1 of council tax collected, that goes to the local policing body.

Population		Averages			
	516k				
	£m	£/head	All	MSG	Diff** £m
Formula funding*	56.2	109.0	107.4	99.4	5.0
Legacy council tax grants	0.0	0.0	6.7	7.4	-3.8
Specific grants	0.0	0.0	7.3	5.3	-2.7
Central funding	56.2	109.0	121.3	112.1	-1.6
Council tax	37.1	72.0	58.5	68.6	1.7

Dyfed-Powys

Income and expenditure - Earned income

How much money does the force earn compared with others and from where does it receive it?

Income per head of population

Earned income is removed from Gross Revenue Expenditure (GRE) in order to calculate NRE and does not include government grants.

To improve comparability between forces national policing functions have been excluded.

Some forces have high earned income related to special functions such as policing ports and airports or policing large events (sports, festivals etc.).

Income and expenditure - Funding trends

How has the local policing body's income changed over time compared with others?

Please note that estimates of reserves are unreliable and that these figures are not adjusted for inflation. The change over time is, therefore, a nominal and not a real change.
The Band D council tax rates are from CIPFA estimates.

Note that change over time for reserves has not been given due to values crossing zero, with the potential for false negatives.

Note that values for previous years have been adjusted using mid-2015 population figures.

Income and expenditure - NRE by function - Police and Crime Commissioner (PCC)/Local policing bodies

What is the expenditure of the local policing body on its own office and non-policing commissioned services?

Broadly, 'Cost of PCC/Deputy Mayor for Policing and Crime' includes salary and associated costs (including expenses and training) of the PCC, deputy PCC and any appointed deputies and special advisers. For the Metropolitan Police Service this relates to the Deputy Mayor for Policing and Crime and similar staff and costs. PCC salaries are set by the Senior Salaries Review Body.

'Office of PCC/local policing body & other costs' includes salary and associated costs of the Chief Executive, Chief Finance Officer and any other staff employed to support the PCC/ Deputy Mayor as well as office-running costs. It also includes other local policing body costs such as external audit and council tax leaflets.

PCC Commissioned services includes

- services previously commissioned under the community safety fund grant;
- victim and witness services including restorative justice (RJ); and
- services directly commissioned by the PCC.

The split between Community Safety and Victims/Witnesses/RJ/Other costs is based on percentage of gross PCC Commissioned Services spent on Community Safety.

Population 516k

	£m	£/head	Averages		Diff* £m	
			All	MSG	All	MSG
Community Safety	0.00	0.00	1.36	0.95	-0.70	-0.49
Victims & witnesses, restorative justice & other	1.04	2.02	1.64	2.33	0.20	-0.16
PCC/local policing body commissioned services	1.04	2.02	3.00	3.27	-0.50	-0.64
Cost of PCC/Deputy Mayor for Policing and Crime	0.14	0.27	0.15	0.20	0.06	0.04
Office of PCC/local policing body & other costs	0.79	1.53	1.03	1.16	0.26	0.19
PCC/Local policing body cost	1.97	3.82	4.18	4.63	-0.18	-0.42

* Net cost of the difference in spend compared to the average per head of all/MSG PCCs/local policing bodies.

Data on the office of the PCC should be read with caution as staff numbers will vary according to the local context. Some staff within the OPCC may be providing a dual service to the force, e.g., finance, communications or analysis teams.

Note that HMIC do not inspect expenditure incurred by local policing bodies/PCCs.

Dyfed-Powys

Workforce - Summary

How large is the force's workforce relative to its population compared with others? How many officers, staff, PCSOs and special constables do they employ per 1,000 population?

Figures in the charts give the total number (including those within national policing) of FTEs (or head count for special constables) per 1,000 population.

All data is from POA except for contractors - which comes from ADR and is 2015/16 FTE. Special constables data, taken from POA, is average head count across the year.

Note that collaboration/outsourcing will affect staff/non-staff costs for certain forces.

Population	516k
------------	------

	FTE	FTE/ 1,000 pop	All Avg	Diff* FTE	% of total workforce	
					Force	Avg
Police officers	1,175	2.28	1.83	232	60%	57%

Dyfed-Powys

Workforce - Officers/PCSOs by rank

How are officers in the force split amongst the ranks compared with other forces? What is the supervisory ratio of sergeants to constables (and PCSOs) compared with others?

Charts show the proportion of the total officer/PCSO workforce at each rank. The chart for superintendents includes chief superintendents, and the chart for inspectors includes chief inspectors. National Police Chiefs Council (NPCC) are officers above the rank of chief superintendents.

Two further charts show numbers of constables (and PCSOs) per sergeant giving an indication of the average supervision requirement for each sergeant.

Note that this is ADR data for all officers and so totals will not match the POA data given elsewhere.

Officers and PCSOs	FTE	%	All Avg
NPCC ranks	3	0.2%	0.2%
Chief superintendents	3	0.2%	0.3%
Superintendents	9	0.7%	0.7%
Chief inspectors	20	1.6%	1.3%
Inspectors	63	4.9%	4.4%
Sergeants	199	15.5%	14.2%

Dyfed-Powys

Workforce - Officers/staff by back office function

In functions where officers and staff can fulfil similar roles, what proportion of these functions are made up of police staff compared with other forces? How has that changed?

HMIC split police workforce roles into three categories using the ADR601 functions: operational front line (including visible and non-visible), frontline support* and business support.

ADR601 categories are mapped to the POA data for use here. For consistency to elsewhere in the profile, counter terrorism/special branch (a national policing function) has been removed from the front line. Due to this, and the fact that ADR601 data deals with officers in post as of 31 March whereas POA data is of budgeted posts for the whole financial year, proportions will not necessarily match to other published figures. Annex 4 shows a list of POA functions and their classification.

Note that PCSOs are not included here as they, almost exclusively, work in visible frontline roles.

* In PEEL Police efficiency 2015, HMIC define this role as operational support. Since this is the name of a POA category, frontline support is used here to avoid confusion.

	2012/13 Estimates					2016/17 Estimates					Percentage point change in % roles fulfilled by staff	
	Police officers	Police Staff	% Staff	All Avg	Diff* FTE Off	Police officers	Police Staff	% Staff	All Avg	Diff* FTE Off	Force	All avg

Workforce - Leavers

What proportion of the workforce left the force last year and how does that compare with other forces?

These charts show the number and percentage of the workforce (FTEs) that left the force between 31 March 2015 and 2016 (using 31 March 2015 totals figures to calculate percentage of workforce).

Officers are broken down into those who transferred or left the service. We have costed the salary impact of the workforce leaving the service to give context.

Note that PCSOs leaving forces may return as police officers.

Note that ADR data is used and workforce totals will not match the POA data given elsewhere.

Note that data for some forces may not match published data sources due to data resubmissions.

	Strength*	Leavers	% w'force	All Avg	Salary** £m
Police officers	1,176				
Leaving force		64	5.4%	6.4%	3.2
Transfers		0	0.0%	0.5%	0.0
Officers exc transfers		64	5.4%	5.9%	3.2

Dyfed-Powys

Workforce - Sickness and recuperative/restricted duty

What proportion of the force's workforce are absent and what proportion of officers are on restricted/recuperative duty? How do these rates compare with other forces?

These charts show sickness broken down into short and medium term (28 days and less) and long term (more than 28 days).

Officers on restricted duties (i.e. officers who, because of a disability or other factors, are unable to undertake the full range of operational duties) and recuperative duties (officers returning to work in a phased way after injury or illness) are included separately.

Note that gaps towards the left of some charts indicate that data is not available or has not been included; zero absence levels have been excluded as it is likely to be due to data inaccuracies.

Note that ADR data is used and workforce totals will not match the POA data given elsewhere.

	Strength	FTE	% of total	All Avg
Officers	1,149			
Long-term sickness		18	1.6%	2.1%
Short/medium sickness		14	1.2%	2.0%

Dyfed-Powys

Demand - Crime trends

How is the number of crimes and charges per officer changing over time in the force and how does this compare with others?

Total crime (excluding fraud) is included but not broken down into the different crime -types to ensure there is sufficient data to show a robust series.

Note that PCSOs are not included and officer/staff numbers are given in FTEs. This data is from ADR (end -of-year actuals as at 31 March) and so will not match the POA data (estimates) given elsewhere.

Note that recorded crime and charges data on this page is from a live (refreshed) database and therefore will not match the data given elsewhere taken from the March publication snapshot.

The series have been plotted as indices to enable comparison of the change over time in each series.

	2009/10	2010/11	2011/12	2012/13	2013/14	2014/15	2015/16

Demand - Recorded crimes per visible officers

How does the number of crimes per visible police officer in the force compare with others?

While police officers are not just dealing with crime, the numbers of crimes per visible police officer gives some indication of how the measurable crime workload for this force's visible officers compares with other forces.

Note that PCSOs are not included. Visible roles are defined in Annex 4.

Visible police officers	793
-------------------------	-----

Recorded crime	Force	Per vis. officer	Averages		MSG Diff*
			All	MSG	
Victim-based	17,339	21.9	52.7	38.1	-16.2
Other crimes against society	3,761	4.7	6.2	5.9	-1.1
Crimes (exc fraud)	21,100	26.6	58.9	43.9	-17.3

* Net difference in the number of crimes per visible officer compared to if force had the MSG average number of crimes.

Sources: POA estimates 2016/17 ONS Crime Statistics 2015/16.

Dyfed-Powys

Demand - Crime outcomes per visible officer

How does the force respond to crimes compared with others?

What are the number of cases with suspect identified, action taken and charges per visible police officer?

Please refer to 'Offences and outcomes introduction' section for the definition of 'suspect identified' and 'action taken'.

This page includes both victim-based crime and other crimes against society.

Visible police officers	793
Crimes (exc fraud)	21,100

	Force	Per vis. officer	MSG Avg	MSG Diff*
Suspect identified	12,615	15.9	24.3	-8.4

Dyfed-Powys

Demand - 999 calls

What is the level of demands on the force from 999 calls compared with others? How much does dealing with these calls cost compared with others and what is the level of workforce required to deal with them?

Costs and workforce levels are calculated across central communications units (CCU) and also within CCU and front desk combined to account for differences in force structure.

Note that

- for consistency with elsewhere in this section, the horizontal lines in the bar charts represent the average of all forces, not the MSG average.
- staff in CCU and front desk perform a range of functions and may spend differing amounts of their time dealing with emergency calls.
- Collaboration/outsourcing will affect costs for certain forces.

Population	516k
999 Calls received	40,210

FTE workforce	107

Dyfed-Powys

Demand - Emergency incidents

What is the level of emergency calls in the force compared with others? How have these levels changed?

An emergency response occurs when the police call handler assesses that there is a degree of importance or urgency associated with the incident and an emergency response is required.

All police forces record incidents in accordance with the provisions of the National Standard for Incident Recording (NSIR). These figures are not subject to the same level of quality assurance as recorded crime data.

Incident counts should be interpreted only as incidents recorded by the police, and may under estimate the true level of incidents.

Incidents are separated into anti-social behaviour (ASB) incidents, crimes (notifiable, classified command and control) incidents and other command and control incidents.

The charts on the right side of the page show the percentage change in each type of incident over the past 12 months.

Population 516k

	Force	Incidents per 1,000 pop	Averages	
			All	MSG
Crime incidents	3,255	6	9	8
ASB incidents	2,145	4	4	4
Other incidents	20,592	40	32	35
Total emergency incidents	25,992	50	46	47

2,393	1,982	1%	0%	-1%

* Net difference in the number of incidents compared to if the force had the average number per head of all/MSG forces.

Source: ADR 342 2015/16

Dyfed-Powys

Demand - Priority incidents

What is the level of priority calls in the force compared with others? How have these levels changed?

A priority response occurs when the police call handler assesses that there is a degree of importance or urgency associated with the incident but an emergency response is not required.

All police forces record incidents in accordance with the provisions of the National Standard for Incident Recording (NSIR). These figures are not subject to the same level of quality assurance as recorded crime data.

Incident counts should be interpreted only as incidents recorded by the police, and may under estimate the true level of incidents.

Incidents are separated into anti-social behaviour (ASB) incidents, crimes (notifiable, classified command and control) incidents and other command and control incidents.

The charts on the right side of the page show the percentage change in each type of incident over the past 12 months.

Population 516k

	Force	Incidents per 1,000 pop	Averages		Differences*		Change in priority incidents		
			All	MSG	All	MSG	Force	All	MSG
Crime incidents	4,231	8	13	11	-2,484	-1,609	13%	-3%	-5%
ASB incidents	5,721	11	12	11	-218	-70	-11%	-14%	-20%
Other incidents	23,527	46	44	42	836	1,705	10%	-8%	-8%
Total priority incidents	33,479	65	69	65	-1,866	26	6%	-9%	-10%

* Net difference in the number of incidents compared to if the force had the average number per head of all/MSG forces.

Dyfed-Powys

Demand - All incidents

How has the categorisation of incidents changed over time and how does the most recent year compare to the MSG?

All police forces record incidents in accordance with the provisions of the National Standard for Incident Recording (NSIR). These figures are not subject to the same level of quality assurance as recorded crime data.

Incident counts should be interpreted only as incidents recorded by the police, and may under estimate the true level of incidents.

Large changes between years may be due to the force changing their internal recording categories

Scheduled are appointment where a contact does not require an immediate or priority response but still requires police attendance, it will result in a scheduled response.

Resolution without deployment can occur where the needs of the caller can be adequately met through provision of advice, information, helpdesk or telephone investigation function or signposting to another lead agency/service.

Breakdown of all incidents per 1,000 population

	2012/13	2013/14	2014/15	2015/16	2015/16 MSG	Diff %

Section two – offences and outcomes

This section focuses on criminal offences recorded by each force and resulting outcomes from those offences over the 12 month period to March 2016. These pages use the ONS published data on police recorded crime alongside Home Office data on outcome types. Definitions of offences in each crime category can be found in Annex 1. Data covering all outcome types (1-21) in the new outcome framework are available from 2014/15. This publication uses the outcomes definitions on page 58 below to analyse outcomes. Definitions of outcome type (1-18) in each group can be found in Annex 2.

The following pages present the volumes and changes in recorded crime for top-level crime categories as well as the change since 2014/15. They also present the proportion of recorded crimes where a suspect was identified and where action was taken based the new outcome framework. The following categories from the outcome framework were used to identify if a suspect was identified and or action taken (please see page 58).

- Suspect Identified – is defined as an outcome where an offender is identified enabling actions such as a charge, formal or informal sanction or an offence to be taken into consideration by the court. Also included are outcomes where a suspect is identified but evidential difficulties prevent prosecution or prosecution is not in the public interest.
- Action Taken - Defined as an outcome where an offender receives a charge or summons, an out-of-court formal outcome, an out-of-court informal outcome or who asks the offence to be taken into consideration.

Further analysis on pages 80 to 85 provides the volume of key outcomes for more detailed crime categories and presents the difference from the expected volume of that outcome based on the England and Wales average. Users may want to question why there are differences from the expected volumes, why a force might have higher than expected outcomes for some crimes, or lower than expected outcomes in others.

Also to Note

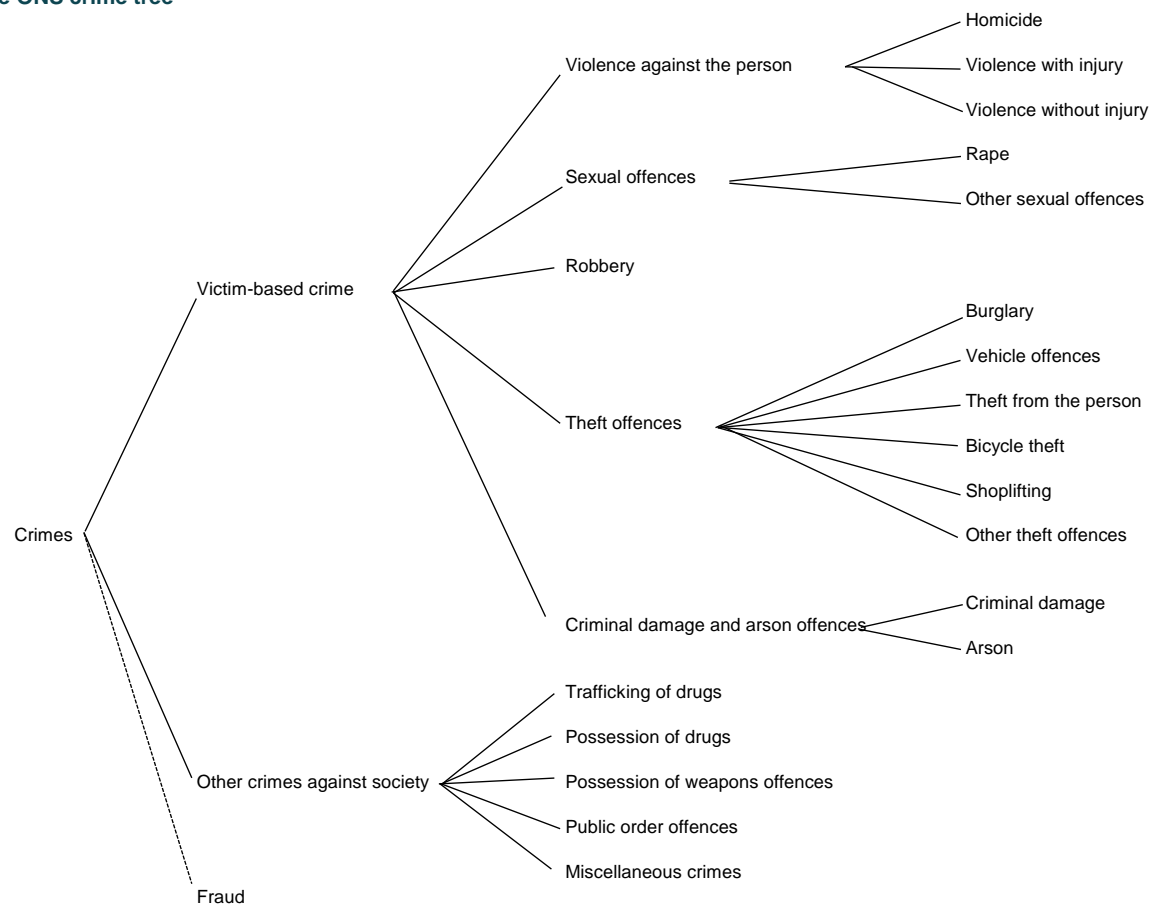

- Outcome 20 "action undertaken by another body/agency" was introduced from April 2015 and outcome 21 "further investigation to support formal action not in the public interest" was introduced from January 2016 (on a voluntary basis). Together, these outcomes account for 0.5% of total offences and have been excluded with these outcomes have been excluded from the pages 60-85 of the profiles. For this reason
- some figures may appear different to those published by the Home Office and HMIC's PEEL reports.
- Pages 60-85 report on the outcomes for offences recorded during the period to 31 March 2016 and will differ from page 49 data on charges, which presents all charges recorded during the period, even if the offence to which it relates was not recorded in the period.
- On pages 80-85 England and Wales percent of outcomes is not provided for broad offence categories (violence against person, sexual offences etc) as the profile of component offence subcategories will differ by forces and comparison would be unreliable.
- Changes over time for crimes are measured against a baseline of 2014/15.
- Crimes against children are included in overall crime data.
- Fraud is excluded from all crime to make comparisons between forces more meaningful. Fraud offences are now recorded by the National Fraud Intelligence Bureau.
- Categories with fewer than 50 cases are not included in analysis such as crime rate or trend as small volumes will not provide robust estimates.
- For recorded crime and outcomes, MSG (simple, unweighted) averages are used. With the exception of pages 80 to 85, horizontal lines in the plots show the MSG.

Section two - Offences and outcomes

Introduction

The offences described in this section are presented as a crime tree as shown below. The tree distinguishes between victim based crimes and other crimes against society where there is no victim but a criminal offence has been committed. Fraud is shown separately with a dotted line because a practical and reliable method for collecting force-level data has not been developed. Nevertheless, this profile provides the latest ONS information.

The ONS crime tree

Note: Definitions of offences in each category can be found in Annex 1.

Crime committed against children

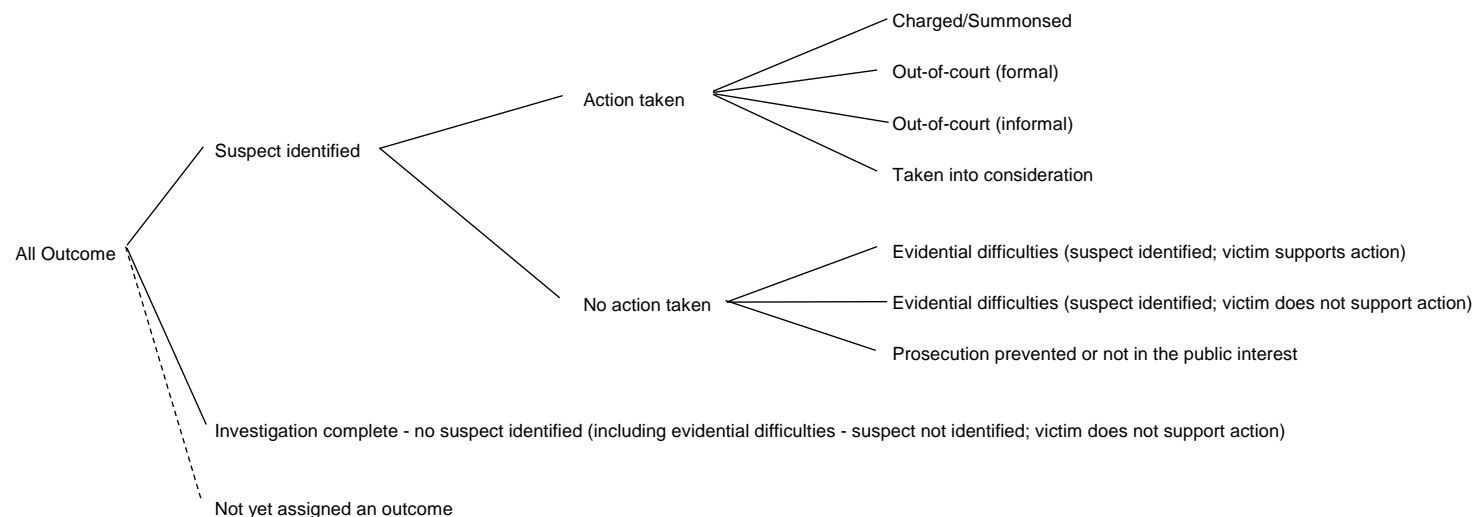

This year, the profiles include a section on crime committed against children and the resulting outcomes. This includes crimes where the victims are specifically stated as children or victims are highly likely to be children (see crime tree below). There are other crime categories that may include child victims, but it is not possible to distinguish between adult and child victims (e.g. theft). These categories are not included in this section. Although not a perfect measure, these crimes give a good indication of the scale of crimes committed specifically against children within the force.

Note: Definitions of offences in each category can be found in Annex 1.

Outcome terminology

The Home Office introduced a new way of classifying the results of police investigations in April 2013. New classifications called 'outcomes' are associated with all recorded crimes, providing a more detailed picture of how the police deal with investigations. The following outcome groups are used in this section:

Note

Definitions of outcome types in each category can be found in Annex 2.

Outcome 20 "action undertaken by another body/agency" was introduced from April 2015 and outcome 21 "further investigation to support formal action not in the public interest" was introduced from January 2016 (on a voluntary basis). Together, these outcomes account for 0.5% of total offences and have been excluded from the profiles. For this reasons some figures may appear different to those published by the Home Office and HMIC's PEEL reports.

This page has been intentionally left blank.

Offences and outcomes - Crimes - Recorded offences

What is the Recorded offence rate for crimes (excluding fraud) in the force and how does this compare with others?

How does the Recorded offence rate compare with last year and how does the change compare with others?

Offences	per 1,000 pop***	MSG Avg	Difference
1,509	2.93	3.05	-65

Fraud data are experimental statistics published as part of ONS crime statistics and are in the testing phase and not yet fully developed.

The figures presented here for police force areas are based on victims' address information. This is in contrast with traditional crimes which are based on where the offence took place (which in the case of fraud is often hard to define).

Offences where the victim's police force area is unknown relate to cases where it has not been possible to attribute offences to a police force area, for example, due to missing address information, or where the offence occurred outside the UK. There were 24,593

Recorded offence rate

Population 516k

	Offences	per 1,000 pop	MSG Avg	Difference*
2015/16

Offences and outcomes - Violence against the person - Outcome

What are the outcomes for violence against the person and how does this compare with others?

The charts show the proportion of crimes recorded in 2015/16 that have a tracked outcome showing that a suspect has been identified and that an action has been taken. Please see 'Offences and outcomes introduction' (from pages 56) for definitions.

As homicide numbers are so small, care should be taken when making comparisons between forces. For this reason, a plot has not been included for homicide.

	Offences	Suspect Identified			Action Taken		
		Force	%	MSG Avg*	Force	%	MSG Avg*
Homicide	6	5	n/a	n/a	4	n/a	n/a

Offences and outcomes - Sexual offences - Recorded offences

What is the Recorded offence rate for sexual offences in the force and how does this compare with others? How does the rate for sexual offences compare to last year and how does it compare with others?

Note that due to the complex nature of these crimes, particularly rape, care should be taken when comparing crime rates across forces as there are many factors which can affect the level of recorded crime. For example, victims being encouraged to report crimes or cultural differences.

Population		516k

Offences and outcomes - Outcome percentage - Victim-based crime

What proportion of offences result in each outcome for victim-based crime and how does this compare with the other forces?

Please see 'Offences and outcomes introduction' (from pages 56) for definitions.
The percentage takes into account the volume difference between crime types.

Note that

- Out of court (formal) includes caution and penalty notices for disorder.
- Out of court (informal) includes cannabis/khat warning and community resolution.
- Suspect identified - no action includes evidential difficulties (victim supports action and victim does not support action) and prosecution prevented or not in the public interest.

Note: It is imperative to look at the allocation of outcomes in their totality to get the complete picture of how a force is handling their crime demand, including crimes which have not yet been assigned an outcome. Forces with high proportions of crimes categorised as 'not yet assigned an outcome' may appear as outliers in the branches of suspect identified and in no suspect identified. A full breakdown of outcomes is available from page 80.

Offences and outcomes - Outcome percentage - Other crimes against society

What proportion of offences result in each outcome for crimes against society and how does this compare with the other forces?

Please see 'Offences and outcomes introduction' (from pages 56) for definitions. Thirty forces provided tracked outcome data.

The percentage takes into account the volume difference between crime types.

Crimes against society include those with no identifiable victim, such as drug offences. The proportion of cases which have an identified suspect has not been reported as there is little variation between forces.

Note that

- Out of court (formal) includes caution and penalty notices for disorder.
- Out of court (informal) includes cannabis/khat warning and community resolution.

A full breakdown of outcomes is available from page 80.

Offences and outcomes - Charged/Summonsed

What proportion of offences result in charges and how does this compare with the other forces?

These charts and tables show the charge rates for all crime types compared with the MSG.

The actual percentage expected plot shows the force's actual charges divided by the number the force would expect if it were performing in line with all forces for each crime type. For example, if the number of offences is above/below 100%, more/fewer offences are resulting charges/summons for this force than the average.

	Offences	Outcomes	%	% E&W	Expected	Difference
Homicide	6	4	67%	63%	4	0

Offences and outcomes - Investigation complete – no suspect identified

What proportion of offences result in no suspect being identified and how does this compare with the other forces?

These charts and tables show the rates of offences which have no suspect identified for all crime types compared with the MSG.

The actual % expected plot shows the force's offences which no suspect identified divided by the number the force would expect if it were performing in line with all forces for each crime type. For example, if the number of offences is above/below 100%, more/fewer offences are resulting in non suspect being identified for this force than the average.

	Offences	Outcomes	%	% E&W	Expected	Difference
Homicide	6	0	0%	2%	0	-0

HMIC Value for Money Profile 2016 - Annexes 1 - 4

	page
Annex 1 - Crime codes	87
Annex 2 - Outcome types	91
Annex 3 - POA categories	93
Annex 4 - Coding of POA categories	94

Annex 1 - Crime Codes

Offences included in each category

1. Victim-based crime

1.1. Violence against the person

1.1.1. Homicide

1 Murder

4.1 Manslaughter

4.10 Corporate manslaughter

4.2 Infanticide

1.1.2. Violence with injury

2 Attempted murder

4.3 Intentional destruction of a viable unborn child

4.4 Causing death by dangerous driving

4.6 Causing death by careless driving under influence of drink or drugs

4.7 Causing or allowing death of child or vulnerable person

4.8 Causing death by careless or inconsiderate driving

4.9 Causing death or serious injury by driving: unlicensed drivers etc.

5A Wounding or carrying out an act endangering life (outcomes only)

5B Use of substance or object to endanger life (outcomes only)

5C Possession of items to endanger life(outcomes only)

5D Assault with intent to cause serious harm

5E Endangering life

6 Endangering railway passengers (outcomes only)

7 Endangering life at sea (outcomes only)

8F Inflicting grievous bodily harm without intent (outcomes only)

8G Actually bodily harm and other injury(outcomes only)

8H Racially or religiously aggravated inflicting grievous bodily harm without intent (outcomes only)

8J Racially or religiously aggravated actual bodily harm and other injury (outcomes only)

8K Poisoning or female genital mutilation (outcomes only)

8N Assault with injury

8P Racially or religiously aggravated assault with injury

37.1 Causing death by aggravated vehicle taking

1.1.3. Violence without injury

3A Conspiracy to murder

3B Threats to kill

8L Harassment

8M Racially or religiously aggravated harassment

8Q Stalking

11 Cruelty to and neglect of children (outcomes only)

11A Cruelty to children/young persons

12 Abandoning child under two years (outcomes only)

13 Child abduction

14 Procuring illegal abortion

36 Kidnapping

104 Assault without injury on a constable

105A Assault without injury

105B Racially or religiously aggravated assault without injury

106 Modern slavery

1.2. Sexual offences

1.2.1. Rape

19C Rape of a female aged 16 and over

19D Rape of a female child under 16

19E Rape of a female child under 13

19F Rape of a male aged 16 and over

19G Rape of a male child under 16

19H Rape of a male child under 13

(cont.)

1.2.2. Other sexual offences			
17A	Sexual assault on a male aged 13 and over	70	Sexual activity etc with a person with a mental disorder
17B	Sexual assault on a male child under 13	71	Abuse of children through sexual exploitation
20A	Sexual assault on a female aged 13 and over	72	Trafficking for sexual exploitation
20B	Sexual assault on a female child under 13	73	Abuse of position of trust of a sexual nature
21	Sexual activity involving a child under 13	88A	Sexual grooming
22A	Causing sexual activity without consent	88C	Other miscellaneous sexual offences
22B	Sexual activity involving child under 16	88D	Unnatural sexual offences
23	Incest or familial sexual offences	88E	Exposure and voyeurism
1.3. Robbery			
1.3.1 Robbery of business property			
34A	Robbery of business property		
1.3.2 Robbery of personal property			
34B	Robbery of personal property		
1.4. Theft offences			
1.4.1. Burglary			
1.4.1.1. Domestic burglary			
28A	Burglary in a dwelling	28D	Attempted distraction burglary in a dwelling
28B	Attempted burglary in a dwelling	29	Aggravated burglary in a dwelling
28C	Distraction burglary in a dwelling		
1.4.1.2 Non-domestic burglary			
30A	Burglary in a building other than a dwelling	31	Aggravated burglary in a building other than a dwelling
30B	Attempted burglary in a building other than a dwelling		
1.4.2. Vehicle offences			
126	Interfering with a motor vehicle	45	Theft from vehicle
37.2	Aggravated vehicle taking	48	Theft or unauthorised taking of motor vehicle
1.4.3. Theft from the person			
39	Theft from the person		
1.4.4. Bicycle theft			
44	Theft or unauthorised taking of a pedal cycle		
1.4.5. Shoplifting			
46	Shoplifting		
1.4.6. Other theft offences			
35	Blackmail	43	Dishonest use of electricity
40	Theft in a dwelling other than from an automatic machine or meter	47	Theft from automatic machine or meter
41	Theft by an employee	49	Other theft
42	Theft of mail	49A	Making off without payment

(cont.)

1.5. Criminal damage and arson

1.5.1. Criminal damage

- 58A Criminal damage to a dwelling
- 58B Criminal damage to a building other than a dwelling
- 58C Criminal damage to a vehicle
- 58D Other criminal damage
- 58E Racially or religiously aggravated criminal damage to a dwelling (outcomes only)

- 58F Racially or religiously aggravated criminal damage to a building other than a dwelling (outcomes only)
- 58G Racially or religiously aggravated criminal damage to a vehicle (outcomes only)
- 58H Racially or religiously aggravated other criminal damage (outcomes only)
- 58J Racially or religiously aggravated criminal damage

1.5.2. Arson

- 56A Arson endangering life

- 56B Arson not endangering life

2. Other crimes against society

2.1. Drug offences

2.1.1. Trafficking of drugs

- 92A Trafficking in controlled drugs

2.1.2. Possession of drugs

- 92C Other drug offences
- 92D Possession of controlled drugs (excl. Cannabis)

- 92E Possession of controlled drugs (Cannabis)

2.2. Possession of weapons offences

- 10A Possession of firearms with intent
- 10B Possession of firearms offences
- 10C Possession of other weapons

- 10D Possession of article with blade or point
- 81 Other firearms offences
- 90 Other knives offences

2.3. Public order offences

- 9A Public fear, alarm or distress
- 9B Racially or religiously aggravated public fear, alarm or distress
- 62 Treason (outcomes only)
- 62A Violent disorder

- 63 Treason felony (outcomes only)
- 64 Riot (outcomes only)
- 65 Violent disorder (outcomes only)
- 66 Other offences against the State or public order

2.4. Miscellaneous crimes

- 15 Concealing an infant death close to birth
- 24 Exploitation of prostitution
- 26 Bigamy
- 27 Soliciting for the purposes of prostitution
- 33 Going equipped for stealing, etc
- 33A Making, supplying or possessing articles for use in fraud
- 38 Profiting from or concealing knowledge of the proceeds of crime
- 53H Making or supplying articles for use in fraud (outcomes only)
- 53J Possession of articles for use in fraud (outcomes only)
- 54 Handling stolen goods
- 59 Threat or possession with intent to commit criminal damage
- 60 Forgery or use of false drug prescription
- 61 Other forgery
- 61A Possession of false documents
- 67 Perjury
- 68 Libel (outcomes only)
- 69 Offender Management Act offences
- 75 Betting, gaming and lotteries (outcomes only)

- 76 Aiding suicide
- 78 Immigration Acts (outcomes only)
- 79 Perverting the course of justice
- 80 Absconding from lawful custody
- 802 Dangerous driving
- 814 Fraud, forgery etc associated with vehicle or driver records
- 82 Customs and Revenue offences (outcomes only)
- 83 Bail offences
- 84 Trade descriptions etc (outcomes only)
- 85 Health and Safety offences (outcomes only)
- 86 Obscene publications etc
- 87 Protection from eviction (outcomes only)
- 89 Adulteration of food (outcomes only)
- 91 Public health offences (outcomes only)
- 94 Planning laws (outcomes only)
- 95 Disclosure, obstruction, false or misleading statements etc
- 96 Wildlife
- 99 Other notifiable offences

(cont.)

3. Fraud offences

51	Fraud by company director (outcomes only)	53D	Fraud by false representation: other frauds (outcomes only)
52	False accounting (outcomes only)	53E	Fraud by failing to disclose information (outcomes only)
53B	Preserved other fraud and repealed fraud offences (pre Fraud Act 2006) (outcomes only)	53F	Fraud by abuse of position (outcomes only)
53C	Fraud by false representation: cheque, plastic card and online bank accounts (not PSP) (outcomes only)	55	Bankruptcy and insolvency (outcomes only)

* At March 2013 ONS publication crime code 53B was categorised under fraud offences.

Crime committed against children

Offences included in each category

Crime against children

Rape

19D	Rape of a female child under 16
19E	Rape of a female child under 13
19G	Rape of a male child under 16
19H	Rape of a male child under 13

Sexual offences / abuse

17B	Sexual assault on a male child under 13
20B	Sexual assault on a female child under 13
21	Sexual activity involving a child under 13
22B	Sexual activity involving child under 16
71	Abuse of children through sexual exploitation
73	Abuse of position of trust of a sexual nature
88A	Sexual grooming

Cruelty / other

11	Cruelty to and neglect of children (outcomes only)
11A	Cruelty to children/young persons
4.3	Intentional destruction of a viable unborn child
4.7	Causing or allowing death of child or vulnerable person
12	Abandoning child under two years (outcomes only)
13	Child abduction
15	Concealing an infant death close to birth

Other offences against children not included

(It is not possible to distinguish between adult and child victims within these crime types.)

23	Incest or familial sexual offences
86	Obscene publications etc
99	Other notifiable offences

Annex 2 - Outcome Types

Outcome group / type	
1	Charged/Summoned
4	Taken into consideration
	Out-of-court (formal)
2	Caution - youths
3	Caution - adults
6	Penalty Notices for Disorder
	Out-of-court (informal)
7	Cannabis/Khat warning
8	Community resolution
Prosecution prevented or not in the public interest	
5	Offender died
9	Not in public interest (CPS)
10	Not in public interest (Police)
11	Prosecution prevented – suspect under age
12	Prosecution prevented – suspect too ill
13	Prosecution prevented – victim/key witness dead/too ill
17	Prosecution time limit expired
15	Evidential difficulties (suspect identified; victim supports action)
	Evidential difficulties (victim does not support action)
14	Evidential difficulties: suspect not identified; victim does not support further action
16	Evidential difficulties: suspect identified; victim does not support further action
18	Investigation complete - no suspect identified
20	Action undertaken by another body/agency

Outcomes 20 (action undertaken by another body/agency) and 21 (further investigation to support formal action not in the public interest) have been excluded.

Source: Home Office Crime Outcome Statistics for year ending March 2016, as published October 2016

Outcome Types

Outcome 1	Charge / Summons: A person has been charged or summonsed for the crime (irrespective of any subsequent acquittal at Court).
Outcome 2	Caution – youths: A youth offender has been cautioned by the police.
Outcome 3	Caution – adults: An adult offender has been cautioned by the police.
Outcome 4	Taken into Consideration (TIC): The offender admits the crime by way of a formal police interview and asks for it to be taken into consideration by the court. There must be an interview where the suspect has made a clear and reliable admission of the offence and which is corroborated with additional verifiable auditable information connecting the suspect to the crime.
Outcome 5	Offender died: The offender has died before proceeding could be initiated.

(cont.)

Outcome 6	Penalty Notices for Disorder: A Penalty Notice for Disorder (or other relevant notifiable offence) has been lawfully issued under Section 1 – 11 of the Criminal Justice and Police Act 2001.
Outcome 7	Cannabis/Khat Warning: A warning for cannabis or khat possession has been issued in accordance with College of Policing guidance. Note: Khat warnings were introduced from 24 June 2014 and numbers are likely to be small.
Outcome 8	Community Resolution: A Community Resolution (with or without formal (Restorative Justice) has been applied in accordance with College of Policing guidance.
Outcome 9	Not in public interest (CPS): Prosecution not in the public interest (CPS decision). The Crown Prosecution Service (CPS) by virtue of their powers under the Criminal Justice Act 2003 decides not to prosecute or authorise any other formal action.
Outcome 10	Not in public interest (Police) (from April 2014): Formal action against the offender is not in the public interest (Police decision).
Outcome 11	Prosecution prevented – suspect under age (from April 2014): Prosecution prevented – named suspect identified but is below the age of criminal responsibility.
Outcome 12	Prosecution prevented – suspect too ill (from April 2014): Prosecution prevented – Named suspect identified but is too ill (physical or mental health) to prosecute.
Outcome 13	Prosecution prevented – victim/key witness dead/too ill (from April 2014): Named suspect identified but victim or key witness is dead or too ill to give evidence.
Outcome 14	Evidential difficulties: suspect not identified; victim does not support further action (from April 2014): Evidential difficulties victim based – named suspect not identified. The crime is confirmed but the victim declines or is unable to support further police action to identify the offender.
Outcome 15	Evidential difficulties (suspect identified; victim supports action) (from April 2014): Evidential difficulties named suspect identified – the crime is confirmed and the victim supports police action but evidential difficulties prevent further action. This includes cases where the suspect has been identified, the victim supports action, the suspect has been circulated as wanted but cannot be traced and the crime is finalised pending further action.
Outcome 16	Evidential difficulties: suspect identified; victim does not support further action (from April 2014): Evidential difficulties victim based – named suspect identified. The victim does not support (or has withdrawn support from) police action.
Outcome 17	Prosecution time limit expired (from April 2014): Suspect identified but prosecution time limit has expired (from April 2014).
Outcome 18	Investigation complete –no suspect identified (from April 2014): The crime has been investigated as far as reasonably possible – case closed pending further investigative opportunities becoming available.
Outcome 19	National Fraud Intelligence Bureau filed (NFIB only) (from April 2014): A crime of fraud has been recorded but has not been allocated for investigation because the assessment process at the NFIB has determined there are insufficient lines of enquiry to warrant such dissemination.
Outcome 20	Action undertaken by another body/agency (from April 2015): Further action resulting from the crime report will be undertaken by another body or agency other than the police, subject to the victim (or person acting on their behalf) being made aware of the action being taken. Note: during 2014/15 (and therefore in this publication), these were included within outcome 18.
Outcome 21	Not in the public interest – suspect identified (from January 2016) Further investigation resulting from the crime report that could provide evidence sufficient to support formal action being taken against the suspect is not in the public interest – police decision.

Annex 3 – POA Categories

POA data are split into 12 categories, which sub-divide into headings as follows:

POA estimates are used for all cost and workforce data unless stated otherwise. These data are taken

- a. Neighbourhood policing
 - b. Incident (response) management
 - c. Local investigation *
 - d. Specialist community liaison
 - e. Local policing command team and support overheads
- 2) Dealing with the public
- a. Front desk
 - b. Central communications unit
 - c. Dealing with the public command team and support overheads
- 3) Criminal justice arrangements
- a. Custody (*now include other custody costs*)
 - b. Police doctors/nurses and surgeons
 - c. Interpreters and translators
 - d. Criminal justice
 - e. Police national computer
 - f. Criminal record bureau
 - g. Coroner assistance
 - h. Fixed penalty schemes (central ticket office)
 - i. Property officer / stores
 - j. Criminal justice arrangements command team and support overheads
- 4) Road policing
- a. Traffic units
 - b. Traffic wardens / police community support officers - traffic
 - c. Vehicle recovery
 - d. Casualty reduction partnership
 - e. Road policing command team and support overheads
- 9) National policing
- a. Secondments (out of force)
 - b. Counter terrorism / special branch
 - c. NPCC projects / initiatives
 - d. Hosting national services
 - e. Other national policing requirements
- 10) Support functions
- a. Human resources
 - b. Finance
 - c. Legal
 - d. Fleet services
 - e. Estates / central building costs
 - f. Information communication technology
 - g. Professional standards
 - h. Press and media
 - i. Performance review / corporate development
 - j. Procurement
 - k. Training
 - l. Administration support
 - m. Force command
 - n. Support to associations and trade unions
 - o. Social club support and force band
 - p. Insurance / risk management
 - q. Catering

- 5) Operational support
- a. Operational Support Command Team and Support Overheads
 - b. Air operations
 - c. Mounted police
 - d. Specialist terrain
 - e. Dogs section
 - f. Advanced public order
 - g. Airport and ports policing unit
 - h. Firearms unit
 - i. Civil Contingencies
 - j. Event
- 6) Intelligence
- a. Intelligence command team and support overheads
 - b. Intelligence analysis / threat assessments
 - c. Intelligence gathering
- 7) Investigations
- a. Investigations command team and support overheads
 - b. Major investigation unit
 - c. Economic crime (including regional asset recovery team)
 - d. Specialist investigation units
 - e. Serious and organised crime unit
 - f. Local investigation/ prisoner processing*
 - g. Cyber crime
- 8) Investigative support
- a. Scenes of crime officers
 - b. External forensic costs
 - c. Fingerprint / internal forensic costs
 - d. Photographic image recovery
 - e. Other forensic services
 - f. Investigative support command team and support overheads
- 11) Police & Crime Commissioner
- a. Cost of the democratic process
 - b. Office of Police Crime Commissioner
 - c. Share of any Formal Shared Service Arrangement
 - d. Commissioned services
- 12) Central costs
- a. Revenue contribution to capital
 - b. Capital financing
 - c. Pensions and exit costs
- 13) Public protection (*previously 7f*)
- a. Witness protection
 - b. Child protection
 - c. Adult protection

* Local investigation is included under local policing rather than investigations

Annex 4 - Coding of POA categories

Local policing

- V Neighbourhood policing
- V Incident (response) management
- V Specialist community liaison
- V Local command team and support overheads

Dealing with the public

- F Local call centres / front desk
- F Central communications unit
- F Contact management units
- F Command team and support overheads

Road policing

- V Traffic units
- V Traffic wardens / PCSOs - traffic
- F Vehicle recovery
- F Casualty reduction partnership
- F Command team and support overheads

Operational support

- F Command team and support overheads
- F Air operations
- V Mounted police
- F Specialist terrain
- V Dogs section
- F Advanced public order
- F Airports and ports policing unit
- V Firearms unit
- O Civil contingencies
- V Events

Intelligence

- O Command team and support overheads
- O Intelligence analysis / threat assessments
- F Intelligence gathering

Public protection

- F Witness protection
- F Child protection
- F Adult protection

Investigations

- F Command team and support overheads
- F Major investigations unit
- F Economic crime (including regional asset recovery team)
- F Specialist investigation units
- F Serious and organised crime unit
- F Local investigation/ prisoner processing*
- F Cyber crime

Investigative support

- F Scenes of crime officers
- O External forensic costs
- O Fingerprint / internal forensic costs
- O Photographic image recovery
- O Other forensic services
- O Command team and support overheads

Criminal justice arrangements

- F Custody
- F Police doctors / nurses and surgeons
- F Interpreters and translators
- F Other custody costs
- O Criminal justice
- O Police national computer
- O Criminal records bureau
- O Coroner assistance
- O Fixed penalty schemes (central ticket office)
- B Property officer / stores
- O Command team and support overheads

Support functions

- B Human resources
- B Finance
- B Legal services
- B Fleet services
- B Estates / central building costs
- B Information communication technology
- O Professional standards
- B Press and media
- B Performance review / corporate development
- B Procurement
- B Training
- B Administration support
- O Force command

- X Other national policing requirements

V = Visible operational front line
 F = Non-visible front line
 O = Frontline support
 B = Business support
 X = Excluded (not coded)

* Local investigation is included here under local policing rather than investigations

Outliers

This page provides the areas in which the force is an outlier in costs. The force's figures are compared to the spend of other forces. To be flagged as an outlier, the spend must be one of the highest 10% or lowest 10% of any force and the effect of the difference is greater than £1 per head of population. The difference (Diff) calculations are the net cost of the difference in spend to the average per head of all forces.

	£m	£/head	Avg	Diff £m		£m	£/head	Avg	Diff £m
OVERALL COSTS									
Staffing	FTE (POA)	FTE/1000	Avg	Diff £m	Major investigations unit	0.5	0.9	2.9	-1.0
