

## HMIC Value for Money Profile 2013

### Merseyside Police

compared with all forces in England & Wales

*The forces in the most similar group can be identified  
in the charts in this section by using the key below*

- a** Merseyside
- b** Cleveland
- c** Greater Manchester
- d** West Midlands
- e** Northumbria
- f** West Yorkshire
- g** South Yorkshire

# Contents

## 3 Introduction

## 8 Section One – Costs, workforce and demand/performance

### Income and expenditure

|   |                            |
|---|----------------------------|
| 9 Overview                                | 14 Financing               |
| 10 Spend by function                      | 15 Earned income           |
| 11 Workforce costs - Officers             | 16 Funding trends          |
| 12 Workforce costs - Police staff & PCSOs | 17 Total costs by function |
| 13 Non-staff costs                        |                            |

### Net revenue expenditure by function:

|                                  |                              |
|----------------------------------|------------------------------|
| 18 Summary                       | 29 Intelligence              |
| 19 Local policing                | 29 Investigations            |
| 21 Dealing with the public       | 33 Investigative support     |
| 23 Criminal justice arrangements | 35 Support functions         |
| 25 Road policing                 | 38 National policing         |
| 27 Operational support           | 40 PCC/Local policing bodies |

### Workforce

|                           |                                       |
|---------------------------|---------------------------------------|
| 42 Summary                | 47 Workforce numbers by function      |
| 43 Officers               | 48 Leavers                            |
| 44 Police staff           | 49 Joiners                            |
| 45 Officers/PCSOs by rank | 50 Sickens and recup./restricted duty |
| 46 Mix of officers/staff  | 51 Officers' length of service        |

### Demand/performance

|                                    |                               |
|------------------------------------|-------------------------------|
| 52 Crime trends                    | 55 999 calls                  |
| 53 Crime per visible officers      | 56 Emergency & priority calls |
| 54 Sanction detections and charges | 57 Victim satisfaction        |

## 58 Section Two – Offences and outcomes

|                                |                                  |
|--------------------------------|----------------------------------|
| 60 Crimes (excluding fraud)    | 81 Other crimes against society  |
| 63 Victim-based offences       | 84 Change in sanction detections |
| 66 Violence against the person | 85 Sanction detections by type   |
| 69 Sexual offences             | 86 Charges                       |
| 72 Robbery                     | 87 Cautions                      |
| 75 Theft offences              | 88 No crime                      |
| 78 Criminal damage and arson   |                                  |

### Annexes

|                             |                                       |
|-----------------------------|---------------------------------------|
| 89 Annex 1 - Crime codes    | 93 Annex 3 - Coding of POA categories |
| 92 Annex 2 - POA categories |                                       |

## Introduction

Data from your police force can never reveal all there is to know. The insight comes from putting your force's data side by side with other similar data, so that the differences can be revealed. The purpose of HMIC's Value for Money (VfM) profiles is to allow you to compare a force's performance, and the costs of achieving it, with other forces.

Each profile has two parts: a summary (published separately), and this more detailed profile. Both are available on our website. They are designed to be investigative tools to draw attention to large, and possibly unexplained differences in costs or performance. These should be followed up to confirm whether resources are being used efficiently and effectively.

A tool should be easy to use and well designed for the task. The task of the profiles is to clearly identify unusual or unexpected differences in order to carry out further investigation. To do this well, we must provide the reader with the details. The profiles include around 85 pages of detailed information, limited to the main crime types and expenditure headings. Clearly, too many details can confuse people, so we only provide them where they add value.

### How do I use the profiles?

The profiles are designed to prompt questions, rather than to provide judgements on forces. They are not league tables. They are produced each autumn to help inform budget decisions for the following year. A recent survey of users of the profiles by HMIC showed that around 90 percent of respondents (20 forces responded) were using them for this purpose.

Most of the data is presented as bar charts, so you can see the range of forces and where your force sits. Your force is highlighted in black with similar forces in dark blue. Similar forces are considered to be forces most comparable to yours, sharing similar demographics. Your 'most similar group' of forces (MSG) makes for a more meaningful comparison than with others. (More details about the MSGs can be found below.) Finally, a horizontal line runs across each bar chart, and represents the average across forces.

The profiles are presented as 'logic trees' with the data broken down progressively from left to right. By following the branches of the logic tree, you can identify the reason(s) for differences between your force and others. For example, is a force spending more on police officers because there are more of them (officers per population), because they are more expensive (cost per officer), or because they are spending more on overtime?

The tables you will find on most pages include the most important data presented in the charts, as well as some additional comparisons. Reading from left to right they show:

- a short description of the function (or crime type);
- the volumes (e.g. staff numbers/costs or numbers of crimes);
- the ratio for comparison (such as your force's cost per head of population); and
- the average costs per head of population.

To the right of the main table, we show how much more, or less, it is costing your force as a result of the difference from the average. The appearance of chevrons ('<<') against these highlight if the indicator puts the force in the highest or lowest ten per cent and the effect of the difference is greater than £1 per head of population. For crimes or outcomes, the different values give the number of additional or fewer crimes/outcomes your force has compared to the average rate.

An example is shown on the following page.

## Guidance page - How to read the profiles

How much do officers in the force cost compared with others? How much overtime do they receive?

**2013/14, £ per head of population**  
 Police officer costs are split into...  
 percentage of the overall salary...  
 Budgeted FTE numbers for the y...  
 Office published FTE figures (A...  
 The two figures are not directly c...

1. The profiles use 'logic trees' to take each area and break it down (from left to right) into component parts. For each breakdown, you can see how the force compares to other forces in its most similar group, as well as all forces in England and Wales.

2. The force has some of the highest officer costs per head of population nationally...

4. This chart shows a breakdown of the previous chart, revealing overtime has little bearing on officer costs.

6. The force has more officers per pop than national average, equating to a difference in cost of £17.2m (see table).

7. The cost of individual officers in the force is relatively low.

3. ...equating to a difference of £15.5m to national (all) average.

5. The force spends little (as a proportion) on overtime.

| Officer costs         | £/head       | Averages     |              | Diff* £m    |            |
|-----------------------|--------------|--------------|--------------|-------------|------------|
|                       |              | All          | MSG          | All         | MSG        |
| All pay exc. overtime | 127.7        | 99.0         | 121.0        | 16.0        | 3.7        |
| Overtime              | 2.2          | 3.0          | 3.4          | -0.4        | -0.7       |
| <b>Total</b>          | <b>129.8</b> | <b>102.0</b> | <b>124.4</b> | <b>15.5</b> | <b>3.0</b> |

| Officer overtime as a % salary | % sal       | Averages    |             | Diff* £m    |                |
|--------------------------------|-------------|-------------|-------------|-------------|----------------|
|                                |             | All         | MSG         | All         | MSG            |
| <b>Total</b>                   | <b>1.7%</b> | <b>3.0%</b> | <b>2.9%</b> | <b>-0.9</b> | <b>-0.8</b> << |

| Number of officers and cost per officer |      | Averages |      | Diff* £m |        |
|---|------|----------|------|----------|--------|
|   |      | All      | MSG  | All      | MSG    |
| FTE per 1,000 population                | 2.54 | 1.93     | 2.40 | 17.2     | 3.8 << |
| Cost per FTE (£000s)                    | 50.3 | 51.3     | 50.4 | -1.4     | -0.1   |

**N.B** Outliers are highlighted with blue chevrons, and represent the values that are in the highest and lowest 10% of values across all force and, where appropriate, have a value of more than £1 per head.

\* Net cost of the difference in spend to the average per head of all/MSG forces.

### **What checks have been applied to the data?**

The data presented in the profiles are subject to a systematic checking process:

- The Chartered Institute of Public Finance and Accountancy (CIPFA) apply arithmetic and reconciliation checks to the financial data provided to them from forces.
- Each force is asked to check their statistical outliers (where their costs are significantly different from the national average and/or from their return for the previous year).
- Each force receives a draft profile to check the figures before publication. This year HMIC and CIPFA ran two workshops, attended by about 50 staff, to discuss the findings in the draft profiles, identify anomalies and suggest improvements.

Each year forces identify some anomalies or inconsistencies, which HMIC attempts to resolve. Some require forces to make changes to their data, but not all are able to do so in time. A handful of inconsistencies are harder to resolve prior to publication, because they require broader changes and agreement. These were discussed at the workshops, where a number of issues were identified to resolve for next year. They include, for example, variation in the treatment of transport costs. These costs represent around three percent of expenditure, although it is likely to be higher in some, more rural forces. Forces with large scale, transport intensive collaborations are also affected. We also comment on the broader accounting issues involved in collaborations below.

### **What has changed since last year?**

We aim to keep the profiles up to date and make improvements - many suggested by our users. The main changes this year are:

Greater consistency by comparing the costs of policing and excluding national policing costs from the early summary pages. We have also aligned the profiles with HMIC's Policing in Austerity: Rising to the Challenge report (July 2013) which defined police functions as front line (visible and non-visible), operational support or business support. Lastly, we have tightened the definitions for income this year.

Updated information - The use of the Home Office's new MSGs and the Office of National Statistics' new crime classifications. More details of the latter are given on page 58.

Better signposting – To aid navigation around the profiles, the titles of each page are expressed in the format: 'Main heading – Sub-heading 1 – Sub-heading 2'. We also include some questions which the page may help to answer.

Removal of some data sets – We have removed an analysis of workforce numbers by function compared with MSG averages. This decision followed a request by forces within collaborations who felt this could be misleading. Where workforce numbers are considered by function, they are compared with the force's values from last year. We have also removed last year's 'ribbon charts' which were intended as a one-off.

Expansion of some data sets – We have included an analysis of cautions by crime type, as this subject has attracted some concerns publicly about the possible inappropriate use of cautions for more serious crimes. We have also compared the changes between this year's budget with last year's across the main objective cost headings and set these changes against the MSG average. Analysis of roads policing has been expanded.

Addition of Police and Crime Commissioner / Local Policing Bodies page which provides a brief analysis of expenditure.

As the use of community resolutions / restorative justice has not been adopted by all forces, we have not included this data. Our intention is to follow the Home Office and make this information available next year.

## **Frequently asked questions**

### **What is the purpose of the most similar group comparison?**

The MSG was designed to offer a fairer comparison of levels of crime between forces, rather than unit costs such as local labour market costs. MSG comparisons do not entirely take account of the fact that some areas have higher costs than others. However, they are still useful as a cost comparison because forces in a high crime MSG (such as large urban forces) are likely to have more resources such as more officers, staff and PCSOs.

While most forces share very similar demographics with the rest of their group, there are a few that are less closely aligned. In particular, these are: the Metropolitan Police Service, Dyfed-Powys Police, Surrey Police and the City of London Police. Apart from the City of London (which has its own group), the remaining forces are still included with a most similar group, but their appearance as an outlier means they need to be treated with more caution.

The MSG groups have been updated this year following the 2011 Census. The new groupings have resulted in some forces' MSG changing considerably. This will impact on how the costs and performance relative to the MSG average compare to last year.

### **Which population figures are used?**

The profiles use mid-2011 population estimates (the latest available) to align with Home Office publications, especially crime rates.

### **Which workforce figures are used?**

The profiles include staff numbers drawn from two data sets: the Home Office annual data return (ADR 502), which is a snapshot from 31 March 2013 of full time equivalent staff in post, and the Police Objective Analysis (POA) which counts the average, budgeted, full time equivalent staff. Given the differences between the two, you would not expect the two figures to align completely.

In general the profiles use POA budgeted staff numbers to make detailed financial comparisons between forces. However, POA is a relatively recent invention and, prior to 2011/12, it was not checked by HMIC. Consequently, it cannot provide a series long enough to show changing trends over time. In contrast, ADR has been checked over several years, so is used to present overall staff trends to police officers, PCSOs and police staff as well as more detailed data on workforce which is not available from POA.

### **Which crime figures are used?**

The VfM profiles include national crime statistics which were published by the Office for National Statistics on 18 July 2013, and contain data for the 12 months to March 2013. Sanction detection and no crime data used in the profiles come from the Home Office and also cover the period of the 12 months to March 2013. The alignment of crime and detection outcomes occurs annually, so using more up to date crime data would break that relationship and would not show much difference between force rankings in any case.

### **What types of average are used?**

Unless stated otherwise, the simple average of all and MSG forces are used. Except for their own profiles, the City of London Police and the Metropolitan Police Service are omitted from the averages and the charts because they are outliers in most categories.

**How has collaboration been taken into account?**

For the majority of forces that are not involved in significant or large scale collaborations, the use of net expenditure should provide an adequate comparison. However, as the use of collaboration increases in scale, the current accounting arrangements will increasingly become detached from the realities. In particular, the lack of more detailed guidance for premises costs and the variation in how some forces have dealt with transport costs reduces comparability. A national CIPFA policy on the reporting of collaboration costs will hopefully be available for next year's profiles.

**Final remarks**

Many forces have been very engaged throughout the production of the VfM profiles, and we are grateful to those that provided us with detailed feedback and comments.

HMIC is always keen to hear from users how the profiles can be improved. If you have any suggestions, or any analysis which you think might be useful to include, please contact me: [Lawrenceroymorris33@hmic.gsi.gov.uk](mailto:Lawrenceroymorris33@hmic.gsi.gov.uk) or 0203 513 0517.

## Section One – Costs, workforce and demand/performance

This section looks at how a force deploys its workforce and the associated costs for each of the 12 headline categories within the Police Objective Analysis (POA). POA subcategory information on costs is also presented.

POA 2013/14 estimates are used for all cost and workforce data unless stated otherwise. These data are taken as a snapshot as at 22 October. Any updates to the data made after this time will not be reflected in the profile. Home Office Annual Data Requirement (ADR) data is used where relevant POA data is not available. Examples include officers by rank, sickness rates, restricted/recuperative duty rates, officers' length of service and leavers/joiners.

With the exception of special constables, workforce data comprises full-time equivalent (FTE) figures. In POA estimates these are calculated as the number of staff budgeted for each staff type. Police workforce figures published by the Home Office are based on those in-post as of 31 March and 30 September of each year. The two sets of figures are not, therefore, directly comparable.

### Key to the data and calculations

Net revenue expenditure: The profiles use a different calculation for net revenue expenditure to the Chartered Institute of Public Finance and Accountancy (CIPFA); it is calculated as total expenditure minus earned income to show the total cost of policing to the taxpayer.

Earned income: Where earned income is referred to, this covers partnership income, sales fees charges and rents, special police services, reimbursed income and interest.

Averages: All averages in this section (unless otherwise stated) are simple, unweighted England and Wales averages, including the force in question. As the Metropolitan Police and City of London Police data distorts the chart scales, they have been excluded from all charts and averages except for those in their own profiles.

Difference to most similar group (MSG) / All force: Differences are calculated on standardised data, as opposed to absolute values. Calculation is as follows: (Force cost per head - MSG cost per head) multiplied by population = absolute cost of difference

Police officer as spend % of gross expenditure: We have chosen to show the proportion of spend on officers (including overtime) by function. Calculation is as follows: (Police officer spend + Police officer overtime) / Gross Revenue Expenditure (GRE) = police officer spend as % of GRE.

National policing: To more accurately compare forces, national policing is not included in totals of spend and workforce (unless stated otherwise).

Operational front line, frontline support and business support: In HMIC's *Policing in Austerity: Rising to the Challenge* (July 2013), ADR data was used to split the police workforce into these three groups. Here, we map these categories using POA data for consistency with the rest of the profile. Since counter-terrorism/special branch is a national policing function, we do not include this as a front line role (for the reason given above). Due to this, and the previously described differences between the ADR and POA workforce data, the totals and proportions may not match those published elsewhere. The list of POA categories and their classifications are given in Annex 3.

**Please note that, throughout the profiles, rounding may cause apparent discrepancies between totals and the sums of the parts.**

### How to use this section

Users may wish to focus on those charts where the force is an outlier, i.e. where they are significantly different from the average. Outliers are highlighted with blue chevrons and indicate that the force falls within the highest or lowest 10% and, where applicable, the financial value is greater than £1 per head. They should consider exploring the reasons for any differences by looking at the force as a whole, using relevant local knowledge. Staffing levels should also be considered in the context of workforce modernisation, collaboration efforts and the outsourcing of services.

Please note that, in some cases, not all plots are given; room is given to those areas with the highest costs. Further, throughout the profiles the chart scales vary and as a result the differences shown may not be as significant as they first appear.

## Income and expenditure - Overview

How much does the force spend in each area of business compared with others? How much does it earn in income?

### 2013/14, cost per head of population

The profiles calculate net revenue expenditure (NRE) as total expenditure minus earned income to show the total cost of policing to the taxpayer. Note that this is different from NRE as reported in the raw POA data.

To compare forces, national policing functions (such as counter-terrorism/special branch) are excluded from the data analysis and charts.

| Population                 | 1381k        |              | Averages     |              | Diff* £m    |                      |

\* Net cost of the difference in spend to the average per head of all/MSG forces.

\*\* Note that national policing has been included in the table for reference so that the totals reconcile to the financing totals on page 14.

Source: POA estimates 2013/14

## Income and expenditure - Spend by function

What proportion of spend is on the front line or in business support compared with others? What proportion is spent in visible functions?

### 2013/14, cost per head of population

Police workforce roles are split into three categories: operational front line, frontline support and business support. The front line is further broken down into visible and non-visible roles (see Annex 3 for a breakdown by POA category). These plots show the NRE in each category. To compare forces, national policing functions are excluded.

Collaboration and outsourcing affect workforce numbers so costs, rather than FTE figures, are presented.

Note that in *Policing in Austerity: Rising to the Challenge* (July 2013), HMIC define frontline support as *operational support*. Since this is the name of a POA category, *frontline support* is used here to avoid confusion.

|                        | NRE £m | Force  | Averages |        | MSG Diff**<br>£m |
|------------------------|--------|--------|----------|--------|------------------|
|                        |        |        | All      | MSG    |                  |
| Visible                | 124.9  | 39.5%  | 40.4%    | 43.4%  | -12.2            |

## Income and expenditure - Non-staff costs

Apart from on the workforce, where else is the force spending money compared with others?

### 2013/14, non-staff costs as a percentage of workforce costs

Workforce costs include officer, staff and PCSO salary and overtime costs only. Temporary and agency costs are classified as non-staff. To compare forces, national policing functions are excluded.

Non-staff costs are broken down into specific types of running costs. They are shown as a percentage of workforce costs as they are largely dependent on the size of the workforce. Note that collaboration and outsourcing will affect the figures for some forces.

| Force workforce costs                | £271m       | % w'force costs |              | Averages     |             | Diff*** £m  |     |

Merseyside

## Income and expenditure - Financing

How much money does the local policing body receive in funding compared with others and from where? What is the level of council tax in the force and how does that compare with others?

### 2013/14, funding per head of population

Central funding is broken down into formula-based funding\*, and government grants, which are not formula based. Local funding is comprised of council tax, use of reserves and council tax support grants.

Note: forces in Wales did not receive an increase in government grant for agreeing to freeze or reduce council tax but did receive a four year grant from the Welsh Assembly Government for an additional 500 PCSOs across Wales.

To show a typical council tax payment in the force, Band D tax rates (from CIPFA estimates) have been included. The yield shows the amount, from every £1 of council tax collected, that goes to the local policing body.

Population 1,381k

## Income and expenditure - Funding trends

How has the local policing body's income changed over time compared with others?

### 2009/10 - 2011/12 actuals and estimates for 2012/13 - 2013/14

Please note that estimates of reserves are unreliable and that these figures are not adjusted for inflation. The change over time is, therefore, a nominal and not a real change.

The Band D council tax rates are from CIPFA estimates.

Note: change for 09/10 to 13/14 for reserves has not been given due to values crossing zero, with the potential for false negatives.

## Income and expenditure - NRE by function - Police and Crime Commissioner/Local policing bodies

What is the expenditure of the local policing body on its own office?

Broadly, cost of Police and Crime Commissioner (PCC) includes salary and associated costs (including expenses and training) of the PCC, deputy PCC and any appointed deputies and special advisors. For the Metropolitan Police Service, this relates to the Deputy Mayor for Policing and Crime and similar staff and associated costs.

Office of the PCC (or the Mayor's Office of Policing and Crime (MOPAC) for the Metropolitan Police Service) includes salary and associated costs of the Chief Executive, Chief Finance Officer and any other staff employed to directly support the PCC/Deputy Mayor as well as office-running costs.

Other costs include local policing body costs not incorporated above e.g. external audit and council tax leaflets.

Note that HMIC do not inspect expenditure incurred by local policing bodies/PCCs.

## Income and expenditure - Criminal justice costs

How much does the force spend per charge compared with others? What is the size of its workforce that deals with criminal justice?

These charts show the NRE cost of criminal justice (as opposed to criminal justice arrangements) per 100 charges.  
FTE within the criminal justice function is then shown per 100 charges.

Note that charges data is from 2012/13 whereas FTE and cost figures are from 2013/14 estimates.

| <b>Charges</b>        | <b>16,640</b> |                        |                 |            |                 |    |

## Workforce - Summary

How big is the force's workforce compared with others? What is the number of officers, staff, PCSOs and special constables per 1,000 population?

### 2013/14 Estimates

Figures in the charts give the total number (including those within national policing) of FTEs (or head count for special constables) per 1,000 population.

All data, except for special constables and contractors, is from POA. Special constables data comes from ADR and is a head count (since not all forces provided this in their POA return), and contractors data comes from ADR and is FTE. Both special constables and contractors is 2012/13 data.

Population 1,381k

|                         | FTE          | FTE<br>per 1,000 | All<br>Avg  | Diff* FTE    | % of total<br>workforce |             |

## Workforce - Officers

How are officers in the force apportioned across operational front line, frontline support and operational support?

### 2013/14 estimates

HMIC split police workforce roles into three categories using the ADR601 functions: operational front line (including visible and non-visible), frontline support\* and business support.

We have mapped the ADR601 categories to the POA data for use here. For consistency to elsewhere in the profile, we have removed counter terrorism/special branch (a national policing function) from the front line. Due to this, and the fact that ADR601 data deals with officers in post as of 31 March whereas POA data is of budgeted posts for the whole financial year, proportions will not necessarily match to other published figures. Annex 3 shows a list of POA functions and their classification.

\* In *Policing in Austerity: Rising to the Challenge* (July 2013), HMIC define this role as operational support. Since this is the name of a POA category, frontline support is used here to avoid confusion.

| Police officers        | FTE          | Force       | Averages    |             |
|------------------------|--------------|-------------|-------------|-------------|
|                        |              |             | All         | MSG         |
| Visible                | 2,186        | 56.4%       | 61.1%       | 60.6%       |
| Non-visible            | 1,310        | 33.8%       | 32.5%       | 32.5%       |
| Operational front line | 3,496        | 90.2%       | 93.6%       | 93.1%       |
| Frontline support      | 298          | 7.7%        | 4.0%        | 4.6%        |
| Business support       | 84           | 2.2%        | 2.4%        | 2.3%        |
| Other**                | 106          |             |             |             |
| <b>Total</b>           | <b>3,983</b> | <b>100%</b> | <b>100%</b> | <b>100%</b> |

\*\* Officers are classified as *Other* if their role does not fit into any of the three categories. They are not included in the percentage figures. See Annex for details.

## Workforce - Police staff

How are police staff in the force apportioned across front line, frontline support and operational support?

### 2013/14 estimates

HMIC split police workforce roles into three categories using the ADR601 functions: operational front line (including visible and non-visible), frontline support\* and business support.

We have mapped the ADR601 categories to the POA data for use here. For consistency to elsewhere in the profile, we have removed counter terrorism/special branch (a national policing function) from the front line. Due to this, and the fact that ADR601 data deals with officers in post as of 31 March whereas POA data is of budgeted posts for the whole financial year, proportions will not necessarily match to other published figures. Annex 3 shows a list of POA functions and their classification.

**Note that PCSOs are not included here as they, almost exclusively, work in visible frontline roles.**

\* In Policing in Austerity: Rising to the Challenge (July 2013), HMIC define this role as operational support. Since this is the name of a POA category, frontline support is used here to avoid confusion

| Police staff           | FTE          | Force       | Averages    |             |
|------------------------|--------------|-------------|-------------|-------------|
|                        |              |             | All         | MSG         |
| Visible                | 81           | 4%          | 5%          | 5%          |
| Non-visible            | 760          | 38%         | 42%         | 41%         |
| Operational front line | 841          | 42%         | 47%         | 46%         |
| Frontline support      | 514          | 26%         | 23%         | 24%         |
| Business support       | 632          | 32%         | 30%         | 30%         |
| Other**                | 54           |             |             |             |
| <b>Total</b>           | <b>2,041</b> | <b>100%</b> | <b>100%</b> | <b>100%</b> |

\*\* Staff are classified as *Other* if their role does not fit into any of the three categories. They are not included in the percentage figures. See Annex 3 for details.

## Workforce - Officers/PCSOs by rank

How are officers in the force split amongst the ranks compared with other forces?  
 What is the supervisory ratio of sergeants to constables (and PCSOs) compared with others?

### March 2013

Charts show the proportion of the total officer/PCSO workforce at each rank. The chart for superintendents includes chief superintendents, and the chart for inspectors includes chief inspectors. Association of Chief Police Officers (ACPO) are officers above the rank of chief superintendents.

Two further charts show numbers of constables (and PCSOs) per sergeant giving an indication of the average supervision requirement for each sergeant.

Note that this is ADR data for all officers and so totals will not match the POA data given elsewhere.

### Supervision ratio

| Officers and PCSOs    | FTE          | %             | All Avg       |
|-----------------------|--------------|---------------|---------------|
| ACPO ranks            | 4            | 0.1%          | 0.2%          |
| Chief superintendents | 14           | 0.3%          | 0.3%          |
| Superintendents       | 26           | 0.6%          | 0.6%          |
| Chief inspectors      | 46           | 1.1%          | 1.2%          |
| Inspectors            | 193          | 4.5%          | 4.5%          |
| Sergeants             | 589          | 13.7%         | 14.2%         |
| Constables            | 3,037        | 70.8%         | 68.2%         |
| PCSOs                 | 378          | 8.8%          | 10.7%         |
| <b>Force total</b>    | <b>4,287</b> | <b>100.0%</b> | <b>100.0%</b> |

| Supervision ratio                 | Force | All Avg |
|-----------------------------------|-------|---------|
| Constables per sergeant           | 5.2   | 4.8     |
| Constables and PCSOs per sergeant | 5.8   | 5.6     |

## Workforce - Mix of officers/staff

In functions where officers and staff can fulfil similar roles, what proportion of these functions are made up of police staff compared with other forces? How has that changed over the past year?

### 2013/14 and 2012/13 estimates

Data shows the proportion of workforce who are staff across the functions outlined below. To show the comparison between two years, data for 2012/13 and 2013/14 is given.

The categories below have been chosen since they highlight areas where civilianisation is occurring.

Care should be taken when examining functions with a small workforce. Exclamation marks are used to indicate categories which have fewer than 20 FTE officers and staff in total.

Note that collaboration/outsourcing will affect staff numbers for certain functions in some forces.

## Workforce - Leavers

What proportion of the workforce left the force last year and how does that compare with other forces?

### March 2013

These charts show the number and percentage of the workforce (FTEs) that left the force between 31 March 2012 and 2013 using 31 March 2012 as the baseline.

Officers are broken down into those who transferred or left the service. We have costed the salary impact of the workforce leaving the service to give some context. However, PCSOs leaving forces may return as police officers.

Note that this is ADR data and so workforce totals will not match the POA data given elsewhere.

|                    | Strength*    | Leavers    | % w'force   | All Avg     | Salary**<br>£m |
|--------------------|--------------|------------|-------------|-------------|----------------|
| Police officers    | 4,083        |            |             |             |                |
| Leaving force      |              | 243        | 5.9%        | 5.0%        |                |

## Workforce - Joiners

What proportion of the workforce joined the force last year and how does that compare with others?

### March 2013

These charts show the number and percentage of the workforce (FTEs) that joined the force between 31 March 2012 and 2013 using 31 March 2012 as the baseline.

Note that this is ADR data and so totals will not match the POA data given elsewhere.

|                 | Strength*    | Joiners    | % w'force   | All Avg     |
|-----------------|--------------|------------|-------------|-------------|
| Police officers | 4,083        | 81         | 2.0%        | 2.6%        |

## Workforce - Sickness and recuperative/restricted duty

What proportion of the force's workforce are absent and what proportion of officers are on restricted/recuperative duty? How do these rates compare with other forces?

### March 2013

These charts show sickness broken down into short and medium term (28 days and less) and long term (more than 28 days).

Officers on restricted duties (i.e. officers who, because of a disability or other factors, are unable to undertake the full range of operational duties) and recuperative duties (officers returning to work in a phased way after injury or illness) are included separately.

Note that the gaps towards the left of some charts indicate that data is not available or has not been included; absence above 12% of the workforce and zero absence have been excluded as it is likely to be due to data inaccuracies.

Note also that this is ADR data and so workforce totals will not match the POA data given elsewhere.

|                       | Strength* | FTE | % of total | All Avg |
|-----------------------|-----------|-----|------------|---------|
| <b>Officers</b>       | 3,909     |     |            |         |
| Long-term sickness    |           | 77  | 2.0%       | 1.5%    |
| Short/medium sickness |           | 47  | 1.2%       | 1.6%    |
| <b>PCSOs</b>          | 378       |     |            |         |
| Long-term sickness    |           | 6   | 1.5%       | 1.5%    |
| Short/medium sickness |           | 6   | 1.5%       | 2.2%    |
| <b>Staff</b>          | 1,946     |     |            |         |
| Long-term sickness    |           | 41  | 2.1%       | 1.3%    |
| Short/medium sickness |           | 18  | 0.9%       | 1.6%    |

### Long-term sickness during 2012/13 Q4

|                   | Strength* | Head count | % of total | All Avg |
|-------------------|-----------|------------|------------|---------|
| <b>Officers</b>   | 3,909     |            |            |         |
| Recuperative duty |           | 24         | 0.6%       | 2.6%    |
| Restricted duty   |           | 326        | 8.3%       | 4.1%    |

\* as at 31 March 2013

Note that ADR 554 figures (restricted and recuperative duty) are headcount not FTE

### Long-term sickness

### Short and medium term sickness

Source: ADR 502 (strength and short/medium term sickness); 551 (long term); and 554 (recuperative/restricted duty) - as at 31 March 2013.

## Workforce - Officers' length of service

What is the age profile of officers in the force compared with others? How many officers are projected to retire over the next few years and what are the estimated savings from them doing so?

### March 2013

The projected number of retirees is shown for officers with 25-30 years' service.\* The estimated saving of them retiring is also provided, calculated from the average cost of a police officer. This does not take into account replacements. Data is given as headcount.

#### All officers

|                  |     |       |     |     |     |     |              |       |
|------------------|-----|-------|-----|-----|-----|-----|--------------|-------|
| <b>Headcount</b> | 537 | 1,130 | 601 | 505 | 613 | 570 | <b>Total</b> | 3,956 |
|------------------|-----|-------|-----|-----|-----|-----|--------------|-------|

#### Officers with 25 years' service or more - Projected retirement

|                      |       |       |       |       |       |       |              |        |
|----------------------|-------|-------|-------|-------|-------|-------|--------------|--------|
| <b>Headcount</b>     | 52    | 73    | 90    | 79    | 159   | 117   | <b>Total</b> | 570    |
| <b>Salary cost**</b> | £2.5m | £3.5m | £4.4m | £3.8m | £7.7m | £5.7m |              | £27.7m |

\* Please note that typically officers cannot retire until they have completed 30 years service.

\*\* Headcount multiplied by average salary cost per FTE excluding overtime

Source (officer head count): ADR582 (31 March 2013); Source (salary): POA estimates 2013/14.

## Demand - Crime trends

How is the number of crimes and charges per officer changing over time in the force and how does this compare with others?

### 2006/07 to 2012/13

Total crimes (excluding fraud) is included but not broken down into the different crime-types to ensure there is sufficient data to show.

Note that PCSOs are not included and officer/staff numbers are given in FTEs. This data is from ADR and so will not match the POA data given elsewhere.

To enable the trends data series to be plotted together, each series has been indexed to 100%, i.e values are expressed as a percentage of the 2006/07 value.

|                      | 2006/07 | 2007/08 | 2008/09 | 2009/10 | 2010/11 | 2011/12 | 2012/13 |

## Demand - Recorded crimes per visible officers

How does the number of crimes per visible police officer in the force compare with others?

### March 2013 workforce, 2012/13 crime

While police officers are not just dealing with crime, the numbers of crimes per visible police officer gives some indication of how the crime workload for this force's visible officers compares with other forces.

Note that PCSOs are not included. Visible roles are defined in Annex 3.

|                         |       |
|-------------------------|-------|
| Visible police officers | 2,186 |
|-------------------------|-------|

| Recorded crime               | Force         | per vis. officer | Averages    |             | MSG Diff*   |
|------------------------------|---------------|------------------|-------------|-------------|-------------|
|                              |               |                  | All         | MSG         |             |
| Victim-based                 | 72,997        | 33.4             | 42.6        | 39.0        | -5.7        |

## Demand - Sanction detections and charges

How does the force respond to crimes compared with others? What are the number of charges per visible police officer?

### 2013/14 workforce estimates; 12/13 detections and charges

The latest (2012/13) detection data has been used.

See page 59 for definitions of sanction detections.

|                         |        |
|-------------------------|--------|
| Visible police officers | 2,186  |
| All crime               | 88,625 |

|                     | Force  | Per vis officer | Averages |      | MSG Diff* |
|---------------------|--------|-----------------|----------|------|-----------|
|                     |        |                 | All      | MSG  |           |
| Sanction detections | 27,713 | 12.7            | 13.7     | 12.7 | -0.1      |
| Charges             | 16,640 | 7.6             | 8.4      | 8.2  | -0.6      |

\* Net difference in the number of sanction detections/charges per visible officer compared to if force had the MSG average.

## Demand - 999 calls

What is the level of demands on the force from 999 calls compared with others? How much does dealing with these calls cost compared with others and what is the level of workforce required to deal with them?

### 2012/13

Costs and workforce levels are calculated across central communications units (CCU) and also within CCU and front desk combined to account for differences in force structure.

Note that, for consistency with elsewhere in this section, the horizontal lines in the bar charts represent the average of all forces, not the MSG average.

|                |        |
|----------------|--------|
| Population     | 1,381k |
| Calls received | 245k   |

|                      |              |                |
|----------------------|--------------|----------------|
| FTE workforce        | 375          |                |
| Gross cost           | £14.7m       |                |
|                      |              |                |
|                      | <b>Force</b> | <b>MSG Avg</b> |
| FTE/1000 pop         | 0.27         | 0.17           |
| Calls per FTE        | 653          | 621            |
| Calls per 1000 pop   | 177          | 169            |
|                      |              |                |
| <b>Cost per call</b> | <b>£60</b>   | <b>£44</b>     |

|                      |              |                |              |
|----------------------|--------------|----------------|--------------|
| FTE workforce        | 436          |                |              |
| Gross cost           | £16.8m       |                |              |
|                      |              |                |              |
|                      | <b>Force</b> | <b>MSG Avg</b> | <b>Diff*</b> |
| FTE/1000 pop         | 0.32         | 0.26           |              |
| Calls per FTE        | 562          | 497            | -57          |
| Calls per 1000 pop   | 177          | 169            | 12,192       |
|                      |              |                |              |
| <b>Cost per call</b> | <b>£69</b>   | <b>£64</b>     |              |

\* Net difference in number of FTEs/999 calls compared to if force had the average of MSG forces

Merseyside

## Demand - Emergency and priority incidents

What is the level of emergency and priority calls in the force compared with others?

### 2012/13

Call grading and target arrival times vary by force. Most forces have a target of within 15/20 minutes in urban/rural areas for emergency calls and within 60 minutes for priority ones. However, force differences may make comparisons between some forces misleading.

The calls are separated into anti-social behaviour (ASB) incidents, crimes and other incidents. Exact definitions are *ASB incidents*, *notifiable, classified command and control crimes* and *other command and control incidents*.

Population 1,381k

|   | Force          | Incidents<br>per 1000 pop | Averages     |              | Differences*  |               |
|---|----------------|---------------------------|--------------|--------------|---------------|---------------|
|   |                |                           | All          | MSG          | All           | MSG           |
| ASB incidents                                 | 35,153         | 25.5                      | 21.7         | 26.0         | 5,256         | -767          |
| Crimes  | 50,000         | 36.2                      | 24.0         | 28.7         | 16,814        | 10,407        |
| Other incidents                               | 160,069        | 115.9                     | 87.3         | 114.6        | 39,516        | 1,879         |

## Performance - Victim satisfaction

How satisfied are victims of crime with the service they receive from the police?

### 2012/13

Data shows the views of surveyed victims who have had contact with the police in connection with burglary, vehicle crime and violent crime. The figures represent the percentage of these victims who are satisfied (fairly, very or completely) with the overall service provided by the police (whole experience) .

The confidence intervals about the survey results are also given. Note that forces' results cannot definitely be said to be different from each other if the confidence intervals overlap.

|                     | Force | All Avg |
|---------------------|-------|---------|
| Satisfaction        | 88.8% | 85.6%   |
| Confidence interval | 0.1%  | 1.5%    |

Source: Victims of Crime Survey 2012/13

## Section two - Offences and outcomes

### Introduction

This section focuses on criminal offences recorded by each force and resulting outcomes. The Office for National Statistics (ONS) has developed a new approach to presenting crime statistics to help ensure a clearer, more consistent picture on recorded crime for the public. The new crime “tree” (the crime types organised into a logic tree format, see below) has been devised and used here to present recorded crime, sanction detections and the change in recorded crime over time. The intention is to differentiate between crimes that are victim-based, and those that are driven by police activity.

#### The ONS crime tree

**To note:**

- Data is shown as offences per 1,000 population (using mid-2011 estimate).
- Definitions of offences in each category can be found in Annex 1.
- Fraud is excluded from all crime to make comparisons between forces more meaningful. It is a deceptive crime, often targeted at organisations rather than individuals, is inherently difficult to measure and, in particular, to assess where it has originated.
- Changes over time for crimes and sanction detections are measured against a baseline of 2009/10.
- MSG (simple, unweighted) averages are generally used in this section. The exception is noted in the following bullet.
- Expected sanction detections, charges and cautions are calculated by modelling how many the force would have if they aligned to the national average. Here, weighted average is used so that the national average is closer to 100%

Outliers are not included for the crime data. A force may, broadly, be considered an outlier if it is in the highest or lowest 10% of values and there is considerable variation between forces.

**Sanction detections**

A sanction detection means that a recorded crime has been resolved by means of a sanction detection. The types of sanction detections are:

- **Caution** - police have identified a suspect and issued them with a caution which is officially recorded against their name.
- **Fixed penalty notice** for disorder - a fine issued by the police for anti-social behaviour, as well as shoplifting, criminal damage and possession of cannabis which are recorded on the police national database.
- **Charge summons** - the suspect has been charged and/or brought to court.
- **Taken into consideration (TIC)** - offences which are considered in conjunction with other offending, often more serious offences. TICs can include crimes that have not previously been recorded, providing the victim confirms that the offence occurred.
- **Cannabis warning** - specific warning recorded for cannabis use.

The Home Office is introducing a new way of classifying the results of police investigations. In due course new classifications called 'outcomes' will be associated with all recorded crimes, and from that information a much more detailed picture of how the police are dealing with investigations will emerge. It will, for example, include the full range of possible disposals including community resolutions. Note that this year, forces implementing community resolutions / restorative justice will have reduced sanction detection rates since the data are not currently published. Data for these will be available in next year's profile.

Please note that the sanction detection rate can be above 100% where sanction detections and crimes are recorded in different time periods. This can be particularly noticeable where crimes are proactively found or have very small numbers. For display purposes all sanction detection graphs have been capped at 100%.

**Note that, in this section, horizontal lines in the plots show the MSG average and not the average of all forces.**

## Offences and outcomes - Crimes (excluding fraud) - Recorded crime

What is the recorded crime rate for crimes (excluding fraud) in the force and how does this compare with others?

Recorded crime rate (per 1000) refers to the number of recorded offences per 1000 population for 2012/13.

| <b>Population</b>            |                          | 1,381k          |                |                    |           |
|------------------------------|--------------------------|-----------------|----------------|--------------------|-----------|
|                              | <b>Recorded offences</b> | <b>per 1000</b> | <b>MSG Avg</b> | <b>Difference*</b> |           |
| Victim-based crime           | 72,997                   | 52.9            | 56.5           | -4,950             | -7%       |
| Other crimes against society | 15,628                   | 11.3            | 7.3            | 5,543              | 35%       |
| <b>Crimes (excl fraud)</b>   | <b>88,625</b>            | <b>64.2</b>     | <b>63.8</b>    | <b>592</b>         | <b>1%</b> |

\* Net difference in the number of offences compared to if the force had the MSG average per 1,000 population. A negative difference means the force has a lower recorded crime rate than the MSG average.

Source: ONS Crime Statistics 2012/13

## Offences and outcomes - Crimes (excluding fraud) - Sanction detection rates

What is the sanction detection rate for all crime (excluding fraud) in the force and how does this compare with others?

Sanction detection rate (%) refers to the number of sanction detections (SDs) in 2012/13 divided by the number of recorded offences for 2012/13. For important information on understanding sanction detections see page 59.

SDs do not cover all types of outcomes used by some forces, most notably restorative justice, taken into considerations (TICs) from crimes not previously recorded and community resolutions. Differences in forces' policies will impact on SD rates.

The actual % expected figures shows the actual sanction detections divided by the number of sanction detections the force would achieve if it was performing in line with the average of all forces for each crime type. Hence if above/below 100%, you are achieving more/fewer detections than the average.

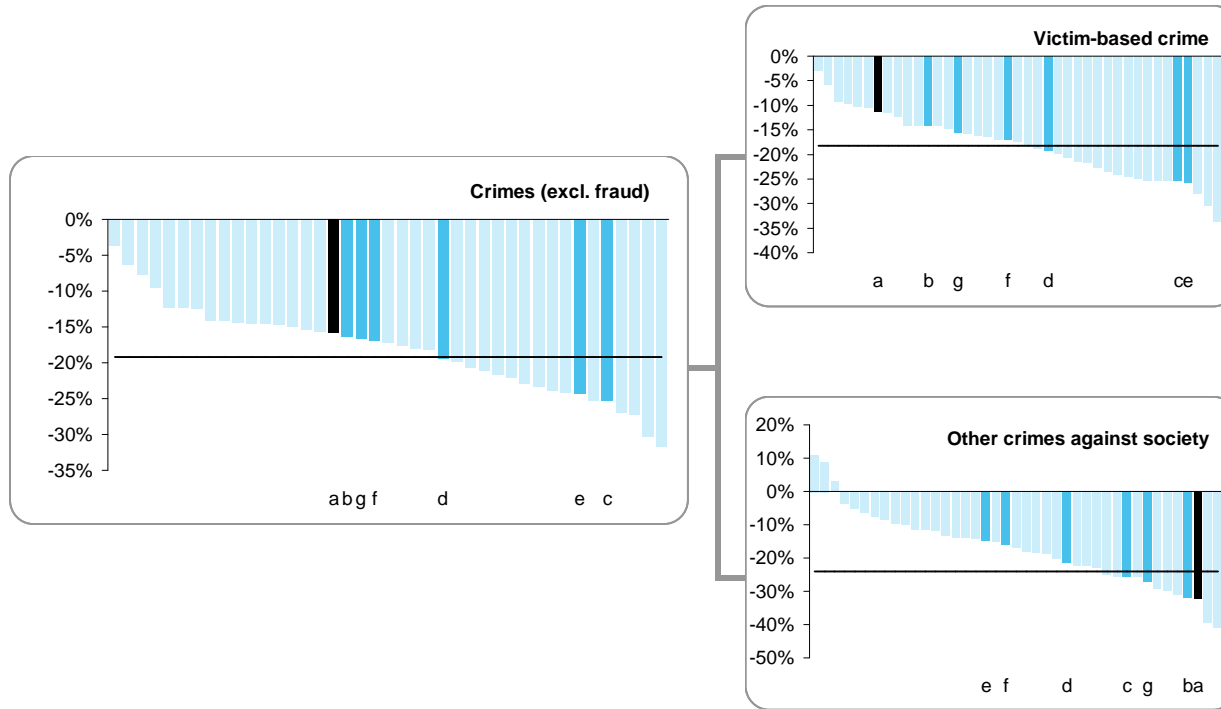

|                              | Offences      | SDs           | %          | MSG Avg    | Diff*         |
|------------------------------|---------------|---------------|------------|------------|---------------|
| Victim-based crime           | 72,997        | 14,039        | 19%        | 23%        | -2,619        |
| Other crimes against society | 15,628        | 13,674        | 87%        | 83%        | 20            |
| <b>Crimes (excl fraud)</b>   | <b>88,625</b> | <b>27,713</b> | <b>31%</b> | <b>30%</b> | <b>-2,598</b> |
| Actual % expected            |               |               | 95%        |            |               |

\* Net difference in the number of outcomes (sanction detections) compared to if the force had the MSG rate. A positive difference indicates a higher number of sanction detections for this force than expected based on the detections reported by MSG forces.

## Offences and outcomes - Victim-based crime - Recorded crime

What is the recorded crime rate for victim-based crime in the force and how does this compare with others?

Recorded crime rate (per 1000) refers to the number of recorded offences per 1000 population for 2012/13.

| Population                  | 1,381k        |             |             |               |            |  |
|-----------------------------|---------------|-------------|-------------|---------------|------------|--|
|                             | Offences      | per 1000    | MSG Avg     | Difference*   |            |  |
| Violence against the person | 11,031        | 8.0         | 9.3         | -1,777        | -16%       |  |
| Sexual offences             | 1,287         | 0.9         | 0.9         | 36            | 3%         |  |
| Robbery                     | 1,171         | 0.8         | 1.0         | -160          | -14%       |  |
| Theft offences              | 42,910        | 31.1        | 33.9        | -3,893        | -9%        |  |
| Criminal damage and arson   | 16,598        | 12.0        | 11.4        | 844           | 5%         |  |
| <b>Victim-based crime</b>   | <b>72,997</b> | <b>52.9</b> | <b>56.5</b> | <b>-4,950</b> | <b>-7%</b> |  |

\* Net difference in the number of offences compared to if the force had the MSG average per 1,000 population. A negative difference means the force has a lower recorded crime rate than the MSG average.

Source: ONS Crime Statistics 2012/13

## Offences and outcomes - Victim-based crime - Sanction detection rates

What is the sanction detection rate for victim-based crime in the force and how does this compare with others?

Sanction detection rate (%) refers to the number of sanction detections (SDs) in 2012/13 divided by the number of recorded offences for 2012/13. For important information on understanding sanction detections see page 59.

SDs do not cover all types of outcomes used by some forces, most notably restorative justice, taken into considerations (TICs) from crimes not previously recorded and community resolutions. Differences in forces' policies will impact on SD rates.

|                             | Offences      | SDs           | %          | MSG Avg    | Diff*         |
|-----------------------------|---------------|---------------|------------|------------|---------------|
| Violence against the person | 11,031        | 4,462         | 40%        | 44%        | -365          |
| Sexual offences             | 1,287         | 286           | 22%        | 29%        | -94           |
| Robbery                     | 1,171         | 247           | 21%        | 28%        | -92           |
| Theft offences              | 42,910        | 7,484         | 17%        | 21%        | -1,457        |
| Criminal damage and arson   | 16,598        | 1,560         | 9%         | 13%        | -612          |
| <b>Victim-based crime</b>   | <b>72,997</b> | <b>14,039</b> | <b>19%</b> | <b>23%</b> | <b>-2,619</b> |

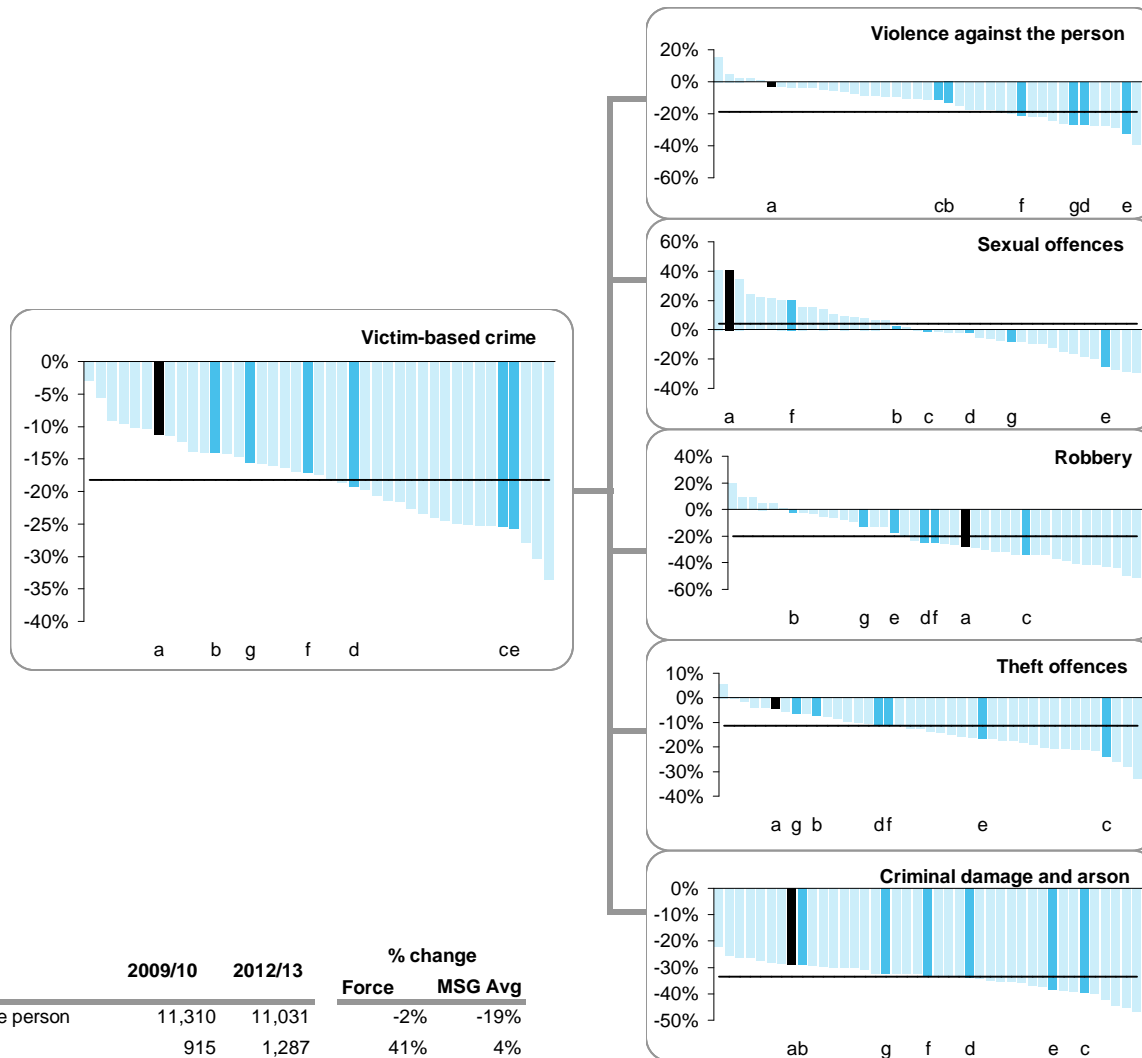

\* Net difference in the number of outcomes (sanction detections) compared to if the force had the MSG rate. A positive difference indicates a higher number of sanction detections for this force than expected based on the detections reported by MSG forces.

Source: Home Office Detections Statistics 2012/13 (SDs), ONS Crime Statistics 2012/13 (Crime)

## Offences and outcomes - Victim-based crime - 2009/10 to 2012/13

How does the recorded crime rate for victim-based crime compare with four years ago and how does this compare with others?

Source: ONS Crime Statistics 2012/13

Merseyside

## Offences and outcomes - Violence against the person - Recorded crime

What is the recorded crime rate for violence against the person in the force and how does this compare with others?

Recorded crime rate (per 1000) refers to the number of recorded offences per 1000 population for 2012/13.

Note that, since homicide numbers are so small, care should be taken when making comparisons between forces. For this reason, a plot has not been included for homicide.

| Population                         |               | 1,381k     |            |               |             |
|------------------------------------|---------------|------------|------------|---------------|-------------|
|                                    | Offences      | per 1000   | MSG Avg    | Difference*   |             |
| Homicide                           | 17            | 0.01       | 0.01       | 1             | 9%          |
| Violence with injury               | 6,380         | 4.6        | 5.5        | -1,236        | -19%        |
| Violence without injury            | 4,634         | 3.4        | 3.7        | -542          | -12%        |
| <b>Violence against the person</b> | <b>11,031</b> | <b>8.0</b> | <b>9.3</b> | <b>-1,777</b> | <b>-16%</b> |

\* Net difference in the number of offences compared to if the force had the MSG average per 1,000 population. A negative difference means the force has a lower recorded crime rate than the MSG average.

Source: ONS Crime Statistics 2012/13

Merseyside

## Offences and outcomes - Violence against the person - Sanction detection rates

What is the sanction detection rate for violence against the person in the force and how does this compare with others?

Sanction detection rate (%) refers to the number of sanction detections (SDs) in 2012/13 divided by the number of recorded offences for 2012/13. For important information on understanding sanction detections see page 59.

SDs do not cover all types of outcomes used by some forces, most notably restorative justice, taken into considerations (TICs) from crimes not previously recorded and community resolutions. Differences in forces' policies will impact on SD rates.

Note that, since homicide numbers are so small, care should be taken when making comparisons between forces. For this reason, a plot has not been shown for homicide.

|                                    | Offences      | SDs          | %          | MSG Avg    | Diff*       |
|------------------------------------|---------------|--------------|------------|------------|-------------|
| Homicide                           | 17            | 12           | 71%        | 84%        | -2          |
| Violence with injury               | 6,380         | 2,311        | 36%        | 42%        | -355        |
| Violence without injury            | 4,634         | 2,139        | 46%        | 46%        | -8          |
| <b>Violence against the person</b> | <b>11,031</b> | <b>4,462</b> | <b>40%</b> | <b>44%</b> | <b>-365</b> |

\* Net difference in the number of outcomes (sanction detections) compared to if the force had the MSG rate. A positive difference indicates a higher number of sanction detections for this force than expected based on the detections reported by MSG forces.

## Offences and outcomes - Violence against the person - 2009/10 to 2012/13

How does the recorded crime rate for violence against the person compare with four years ago and how does this compare with others?

These graphs show the recorded crime rates for violence against the person offences compared to four years ago.

Note that since homicide numbers are small, care should be taken when making comparisons between forces or over time. For this reason a comparison of homicide rates between two time periods has not been shown in graph form as the small numbers involved would result in large variations in rates and could be visually misleading.

|                                    | 2009/10       | 2012/13       | % change   |             |

## Offences and outcomes - Sexual offences - Recorded crime

What is the recorded crime rate for sexual offences in the force and how does this compare with others?

Recorded crime rate (per 1000) refers to the number of recorded offences per 1000 population for 2012/13.

Please note: due to the complex nature of these crimes, particularly rape, care should be taken when comparing crime rates across forces as there are many factors which can affect the level of recorded crime. For example, victims being encouraged to report crimes or cultural differences.

| Population             | 1,381k       |             |             |             |           |  |
|------------------------|--------------|-------------|-------------|-------------|-----------|--|
|                        | Offences     | per 1000    | MSG Avg     | Difference* |           |  |
| Rape                   | 378          | 0.27        | 0.29        | -23         | -6%       |  |
| Other sexual offences  | 909          | 0.66        | 0.62        | 59          | 7%        |  |
| <b>Sexual offences</b> | <b>1,287</b> | <b>0.93</b> | <b>0.91</b> | <b>36</b>   | <b>3%</b> |  |

\* Net difference in the number of offences compared to if the force had the MSG average per 1,000 population. A negative difference means the force has a lower recorded crime rate than the MSG average.

## Offences and outcomes - Sexual offences - Sanction detection rates

What is the sanction detection rate for sexual offences in the force and how does this compare with others?

Sanction detection rate (%) refers to the number of sanction detections (SDs) in 2012/13 divided by the number of recorded offences for 2012/13. For important information on understanding sanction detections see page 59.

SDs do not cover all types of outcomes used by some forces, most notably restorative justice, taken into considerations (TICs) from crimes not previously recorded and community resolutions. Differences in forces' policies will impact on SD rates.

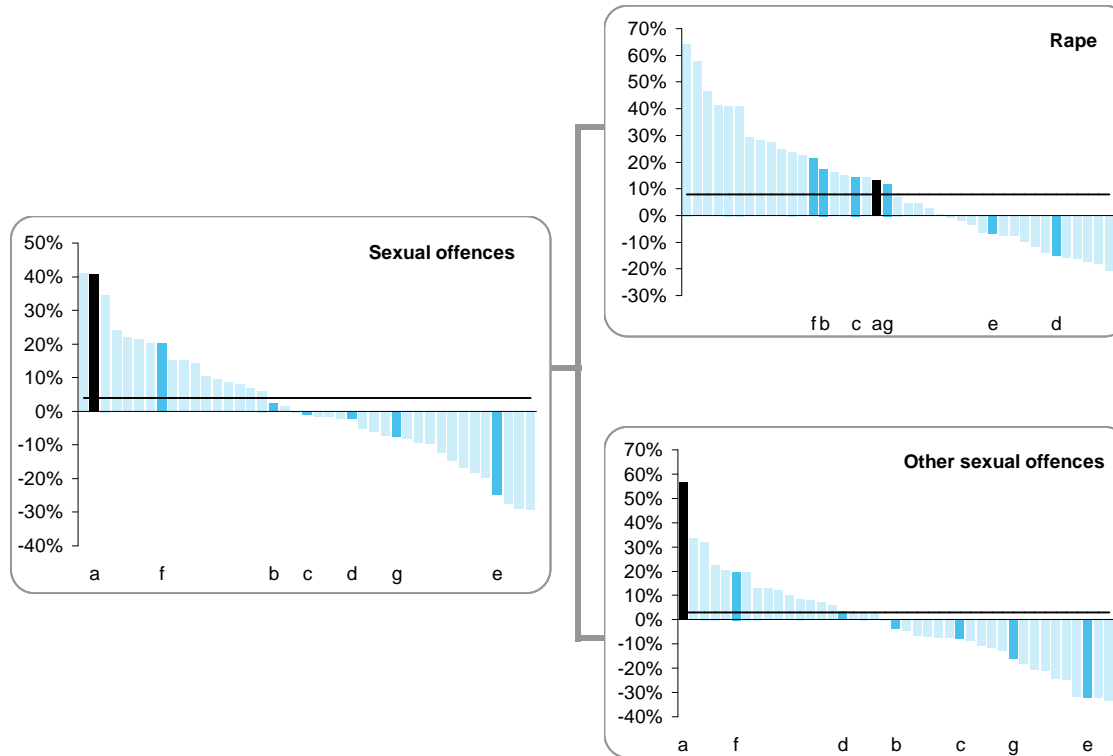

|                        | Offences     | SDs        | %          | MSG Avg    | Diff*      |
|------------------------|--------------|------------|------------|------------|------------|
| Rape                   | 378          | 61         | 16%        | 25%        | -35        |
| Other sexual offences  | 909          | 225        | 25%        | 31%        | -59        |
| <b>Sexual offences</b> | <b>1,287</b> | <b>286</b> | <b>22%</b> | <b>29%</b> | <b>-94</b> |

\* Net difference in the number of outcomes (sanction detections) compared to if the force had the MSG rate. A positive difference indicates a higher number of sanction detections for this force than expected based on the detections reported by MSG forces.

## Offences and outcomes - Criminal damage and arson - Sanction detection rates

What is the sanction detection rate for criminal damage and arson in the force and how does this compare with others?

Sanction detection rate (%) refers to the number of sanction detections (SDs) in 2012/13 divided by the number of recorded offences for 2012/13. For important information on understanding sanction detections see page 59.

SDs do not cover all types of outcomes used by some forces, most notably restorative justice, taken into considerations (TICs) from crimes not previously recorded and community resolutions. Differences in forces' policies will impact on SD rates.

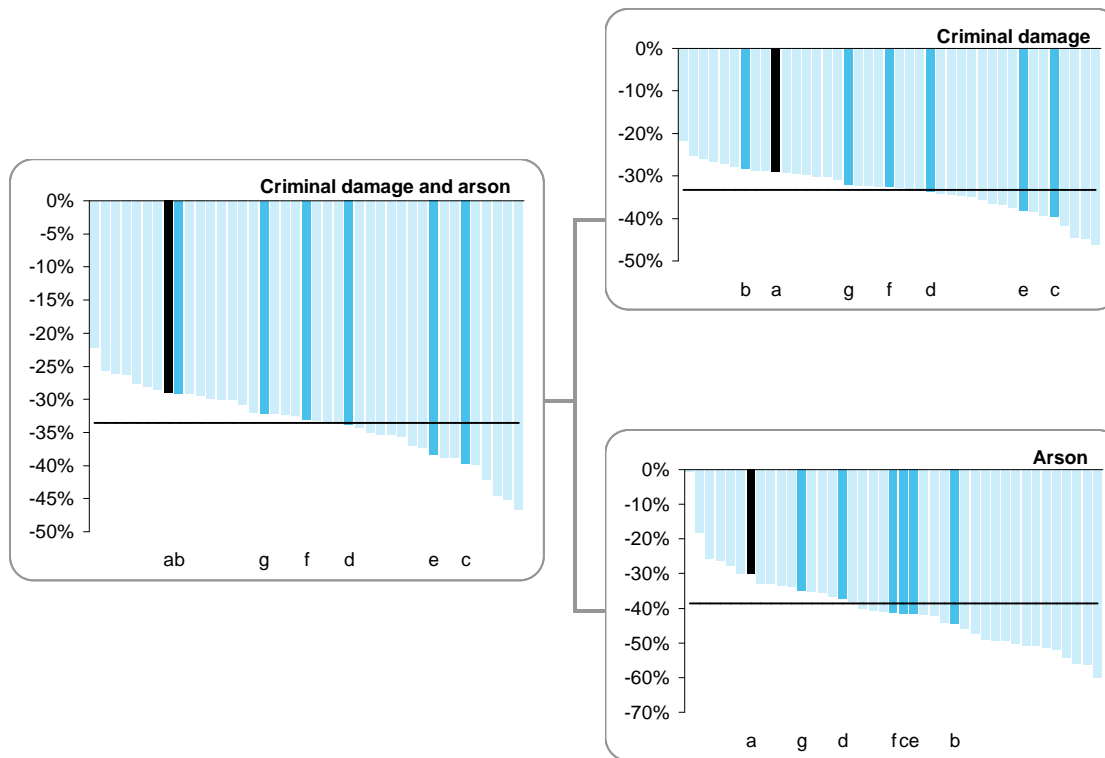

| Population                       | 1,381k        |              |           |            |             |
|----------------------------------|---------------|--------------|-----------|------------|-------------|
|                                  | Offences      | SDs          | %         | MSG Avg    | Diff*       |
| Criminal damage                  | 15,964        | 1,517        | 10%       | 13%        | -596        |
| Arson                            | 634           | 43           | 7%        | 9%         | -16         |
| <b>Criminal damage and arson</b> | <b>16,598</b> | <b>1,560</b> | <b>9%</b> | <b>13%</b> | <b>-612</b> |

\* Net difference in the number of outcomes (sanction detections) compared to if the force had the MSG rate. A positive difference indicates a higher number of sanction detections for this force than expected based on the detections reported by MSG forces.

## Offences and outcomes - Other crimes against society - Recorded crime

What is the recorded crime rate for other crimes against society in the force and how does this compare with others?

Recorded crime rate (per 1000) refers to the number of recorded offences per 1000 population for 2012/13.

| Population                          | 1,381k        |             |            |              |            |  |
|-------------------------------------|---------------|-------------|------------|--------------|------------|--|
|                                     | Offences      | per 1000    | MSG Avg    | Difference*  |            |  |
| Trafficking of drugs                | 1,205         | 0.9         | 0.8        | 160          | 13%        |  |
| Possession of drugs                 | 9,442         | 6.8         | 3.2        | 4,985        | 53%        |  |
| Drug offences                       | 10,647        | 7.7         | 4.0        | 5,145        | 48%        |  |
| Public order offences               | 3,332         | 2.4         | 2.1        | 394          | 12%        |  |
| Possession of weapons               | 634           | 0.5         | 0.4        | 54           | 8%         |  |
| Misc crimes against society         | 1,015         | 0.7         | 0.8        | -50          | -5%        |  |
| <b>Other crimes against society</b> | <b>15,628</b> | <b>11.3</b> | <b>7.3</b> | <b>5,543</b> | <b>35%</b> |  |

\* Net difference in the number of offences compared to if the force had the MSG average per 1,000 population. A negative difference means the force has a lower recorded crime rate than the MSG average.

## Offences and outcomes - Other crimes against society - Sanction detection rates

What is the sanction detection rate for other crimes against society in the force and how does this compare with others?

Sanction detection rate (%) refers to the number of sanction detections (SDs) in 2012/13 divided by the number of recorded offences for 2012/13. For important information on understanding sanction detections see page 59.

SDs do not cover all types of outcomes used by some forces, most notably restorative justice, taken into considerations (TICs) from crimes not previously recorded and community resolutions. Differences in forces' policies will impact on SD rates.

Please note that the SD rate can be above 100% where sanction detections and crimes are recorded in different time periods. This can be particularly noticeable where crimes are proactively found or have very small numbers. For display purposes all sanction detection graphs have been capped at 100%

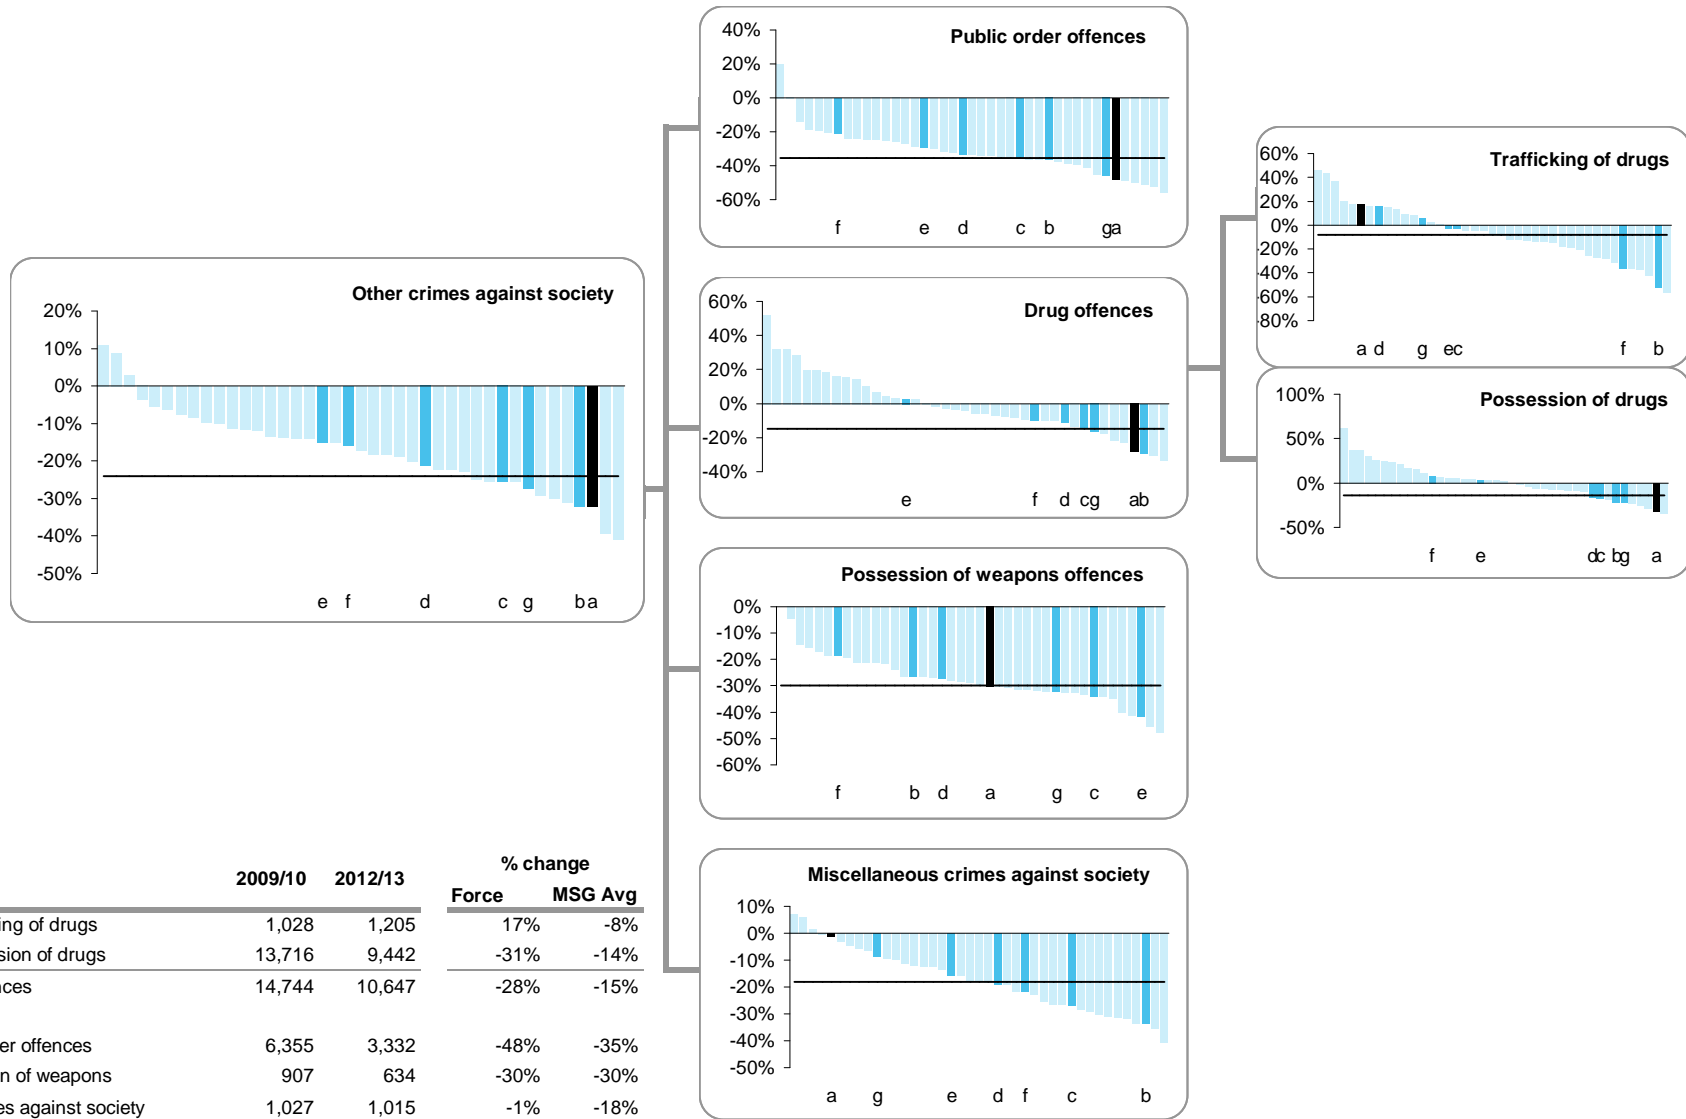

|                                     | Offences      | SDs           | %          | MSG Avg    | Diff*     |
|-------------------------------------|---------------|---------------|------------|------------|-----------|
| Trafficking of drugs                | 1,205         | 951           | 79%        | 85%        | -79       |
| Possession of drugs                 | 9,442         | 9,090         | 96%        | 97%        | -31       |
| Drug Offences                       | 10,647        | 10,041        | 94%        | 94%        | -110      |
| Public order offences               | 3,332         | 2,351         | 71%        | 67%        | 122       |
| Possession of weapons               | 634           | 552           | 87%        | 85%        | 11        |
| Misc crimes against society         | 1,015         | 730           | 72%        | 72%        | -2        |
| <b>Other crimes against society</b> | <b>15,628</b> | <b>13,674</b> | <b>87%</b> | <b>83%</b> | <b>20</b> |

\* Net difference in the number of outcomes (sanction detections) compared to if the force had the MSG rate. A positive difference indicates a higher number of sanction detections for this force than expected based on the detections reported by MSG forces.

| Arson  | 6%         | 7%         | 0.9            | 1.8         |                                     |            |            |                |             |
| Criminal damage and arson                    | 11%        | 9%         | -1.3           | -0.4        |                                     |            |            |                |             |
| <b>Victim-based crime</b>                    | <b>23%</b> | <b>19%</b> | <b>-4.0</b>    | <b>-1.4</b> |                                     |            |            |                |             |

Note: Please be aware that community resolutions / restorative justice may impact on changes in sanction detection rates.

\* Since homicide numbers are small, care should be taken when making comparisons between forces. Further, the SD rate can be greater than 100% where a detection is recorded for a crime which occurred in a previous year.

Merseyside

## Offences and outcomes - Sanction detections by type

How are different sanction detection types used by the force and how does this compare with others?

These charts show the proportion of usage for different types of sanction detections in 2012/13 alongside the average proportions for the MSG.

**Charge summons** refer to when an offender is charged with a crime and can be summoned to court.

**Cautions** refer to when an offender receives a caution which is officially recorded against their name.

**Fixed penalties** refer to financial penalties which are recorded on the police national database.

**Taken into Considerations (TICs)** refer to offences which are considered in conjunction with other offending, often more serious offences. TICs can include crimes that have not previously been recorded, providing the victim confirms that the offence occurred.

**Cannabis warnings** refer to specific warnings recorded for drugs (cannabis use).

**Note that 'Sanction detections' do not cover all detections such as restorative justice, TICs for crimes not previously recorded and community resolutions.**

|                                | %           | MSG Avg     |
|--------------------------------|-------------|-------------|
| Charge summons                 | 60%         | 65%         |
| Cautions                       | 13%         | 17%         |
| Penalty notices                | 15%         | 6%          |
| Cannabis warnings              | 9%          | 5%          |
| Taken into consideration (TIC) | 1%          | 7%          |
| <b>Total</b>                   | <b>100%</b> | <b>100%</b> |

## Offences and outcomes - Charges

What proportion of offences result in charges for all crime types and how does this compare with the other forces?

The term charges relates to recorded offences processed by means of charge or summons.

These charts and tables show the charge rates for all crime types for 2012/13 compared with the MSG.

The charges % expected plot shows your actual charges divided by the number of charges you would achieve if you were performing in line with all forces for each crime type. Hence if above/below 100%, you are achieving more/fewer charges than the average. Here a weighted average of forces is used.

|  | Offences      | Charges       | %          | MSG        | Diff*         |
|--|---------------|---------------|------------|------------|---------------|
| <b>Victim-based</b>                          |               |               |            |            |               |
| Homicide                                     | 17            | 12            | 71%        | 84%        | -2            |
| Violence with injury                         | 6,380         | 1,929         | 30%        | 31%        | -29           |
| Violence without injury                      | 4,634         | 1,719         | 37%        | 34%        | 157           |
| Rape   | 378           | 60            | 16%        | 25%        | -35           |
| Other sexual offences                        | 909           | 215           | 24%        | 27%        | -27           |
| Robbery of business property                 | 278           | 61            | 22%        | 35%        | -35           |
| Robbery of personal property                 | 893           | 172           | 19%        | 25%        | -53           |
| Burglary in a dwelling                       | 6,489         | 477           | 7%         | 10%        | -192          |
| Burglary in a building other than a dwelling | 5,101         | 276           | 5%         | 7%         | -74           |
| Vehicle offences                             | 8,640         | 541           | 6%         | 7%         | -55           |
| Bicycle theft                                | 1,781         | 60            | 3%         | 5%         | -20           |
| Theft from the person                        | 2,438         | 84            | 3%         | 6%         | -68           |
| Shoplifting                                  | 8,801         | 2,780         | 32%        | 39%        | -663          |
| All other theft offences                     | 9,660         | 597           | 6%         | 7%         | -101          |
| Criminal damage                              | 15,964        | 1,084         | 7%         | 9%         | -318          |
| Arson  | 634           | 38            | 6%         | 7%         | -8            |
| <b>Other crimes against society</b>          |               |               |            |            |               |

Merseyside

## Offences and outcomes - Cautions

How are different sanction detection types used by the force and how does this compare with others?

The term cautions refers to a recorded offence where the offender receives a caution officially recorded against their name.

These charts and tables show the caution rates for all crime types for 2012/13 compared with the MSG average. The difference values show what the force would have achieved if it had matched their MSG average for each crime type.

The cautions % expected plot shows your actual cautions divided by the number of cautions you would achieve if you were performing in line with all forces for each crime type. Hence if above/below 100%, you are achieving more/fewer cautions than the average. Here a weighted average of forces is used.

|  | Offences      | Cautions     | %         | MSG       | Diff*         |
|--|---------------|--------------|-----------|-----------|---------------|

Merseyside

## Offences and outcomes - No crime

What proportion of crimes initially recorded are subsequently 'no crimed' where it is judged by the police that no crime actually took place or was recorded in error and how does this compare for different crime types and to other forces?

These charts show the 'no crime rate' (number of 'no crimes' divided by the number of recorded crimes and the number of 'no crimes' added together) for the last four years. The average no crime rate refers to the 2012/13 average of all forces.

This information gives a more rounded picture of a force's crime recording practises.

A crime could be no crimed where it is considered to have been recorded in error or where, having been recorded, additional verifiable information becomes available that determines that no crime was committed.

|                             | 2009/10 | 2010/11 | 2011/12 | 2012/13 |         |
|-----------------------------|---------|---------|---------|---------|---------|
|                             |         |         |         | Force   | All Avg |
| Violence against the person | 5%      | 4%      | 4%      | 3%      | 3%      |
| Burglary                    | 1%      | 1%      | 1%      | 1%      | 2%      |
| Theft from the person       | 5%      | 3%      | 3%      | 2%      | 5%      |
| Rape                        | 4%      | 15%     | 9%      | 4%      | 9%      |
| Other sexual offences       | 2%      | 4%      | 3%      | 3%      | 5%      |
| Shoplifting                 | 1%      | 2%      | 1%      | 2%      | 2%      |

### Please note:

The proportion of 'no crimes' does not in itself infer high or low compliance with the overall requirements of the Home Office Counting Rules. Levels of 'no criming' are particularly susceptible to local recording practice and the IT systems in use. A police force having a high level of 'no crimes' may be indicative of that force having a local recording process that captures all reports as crimes at the first point of contact and before any further investigation has taken place to consider the full facts. Note that forces have a 72-hour window in which to record a crime once the balance of probability says a crime has been committed.

Merseyside

## Annex 1 - Crime Codes

Offences included in each category

### 1. Victim-based crime

#### 1.1. Violence against the person

##### 1.1.1. Homicide

- |     |              |      |                        |
|-----|--------------|------|------------------------|
| 1   | Murder       | 4.10 | Corporate manslaughter |
| 4.1 | Manslaughter | 4.2  | Infanticide            |

##### 1.1.2. Violence with injury

- |        |  |    |   |
|--------|--|----|---|
| 2      | Attempted murder   |    |   |
| 37.1   | Causing death by aggravated vehicle taking   | 5D | Assault with intent to cause serious harm   |
| 4.3    | Intentional destruction of a viable unborn child                                     | 5E | Endangering life  |
| 4.4    | Causing death by dangerous driving   | 6  | Endangering railway passengers (outcomes only)  |
| 4.4/6  | Causing death by dangerous or careless driving (inc under influence)                 | 7  | Endangering life at sea (outcomes only)   |
| 4.4/6/ | Causing death by dangerous or careless driving (inc. under influence of drink/drugs) | 8A | Less serious wounding   |
| 4.6    | Causing death by careless driving under influence of drink or drugs                  | 8D | Racially or religiously aggravated less serious wounding  |
| 4.7    | Causing or allowing death of child or vulnerable person                              | 8F | Inflicting grievous bodily harm without intent (outcomes only)                                    |
| 4.8    | Causing death by careless or inconsiderate driving                                   | 8G | Actually bodily harm and other injury outcomes only)  |
| 4.9    | Causing death by driving: unlicensed drivers etc.                                    | 8H | Racially or religiously aggravated inflicting grievous bodily harm without intent (outcomes only) |
| 5      | Wounding or other act endangering life   | 8J | Racially or religiously aggravated actual bodily harm and other injury (outcomes only)            |
| 5A     | Wounding or carrying out an act endangering life (outcomes only)                     | 8K | Poisoning or female genital mutilation (outcomes only)  |
| 5B     | Use of substance or object to endanger life (outcomes only)                          | 8N | Assault with injury   |
| 5C     | Possession of items to endanger life (outcomes only)                                 | 8P | Racially or religiously aggravated assault with injury  |

##### 1.1.3. Violence without injury

- |      |   |    |   |
|------|---|----|---|
| 104  | Assault without injury on a constable                     | 3  | Threat or conspiracy to murder                |
| 105A | Assault without injury                                    | 36 | Kidnapping                                    |
| 105B | Racially or religiously aggravated assault without injury | 3A | Conspiracy to murder                          |
| 11   | Cruelty to and neglect of children (outcomes only)        | 3B | Threats to kill                               |

## Annex 2 – POA Categories

POA data are split into 12 categories, which sub-divide into headings as follows:

### 1) Local policing

- a. Neighbourhood policing
- b. Incident (response) management
- c. Local investigation \*
- d. Specialist community liaison
- e. Local command team and support overheads

### 2) Dealing with the public

- a. Local call centres / front desk
- b. Central communications unit
- c. Contact management units
- d. Dealing with the public command team and support overheads

### 3) Criminal justice arrangements

- a. Custody
- b. Police doctors/nurses and surgeons
- c. Interpreters and translators
- d. Other custody costs
- e. Criminal justice
- f. Police national computer
- g. Criminal record bureau
- h. Coroner assistance
- i. Fixed penalty schemes (central ticket office)
- j. Property officer / stores
- k. Criminal justice arrangements command team and support overheads

### 4) Road policing

- a. Traffic units
- b. Traffic wardens / police community support officers - traffic
- c. Vehicle recovery
- d. Casualty reduction partnership
- e. Road policing command team and support overheads

### 9) National policing

- a. Secondments (out of force)
- b. Counter terrorism / special branch
- c. ACPO projects / initiatives
- d. Hosting national services
- e. Other national policing requirements

### 10) Support functions

- a. Human resources
- b. Finance
- c. Legal
- d. Fleet services
- e. Estates / central building costs
- f. Information communication technology
- g. Professional standards
- h. Press and media
- i. Performance review / corporate development
- j. Procurement
- k. Training
- l. Administration support
- m. Force command
- n. Support to associations and trade unions
- o. Social club support and force band
- p. Insurance / risk management
- q. Catering

### 5) Operational support

- a. Central operations command team and support overheads
- b. Air operations
- c. Mounted police
- d. Specialist terrain
- e. Dogs section
- f. Level 1 advanced public order
- g. Airport and ports policing unit
- h. Firearms unit
- i. Civil contingencies and planning

### 6) Intelligence

- a. Intelligence command team and support overheads
- b. Intelligence analysis / threat assessments
- c. Intelligence gathering

### 7) Specialist investigations

- a. Investigations command team and support overheads
- b. Major investigation unit
- c. Economic crime (including regional asset recovery team)
- d. Specialist investigation units
- e. Serious and organised crime unit
- f. Public protection

### 8) Investigative support

- a. Scenes of crime officers
- b. External forensic costs
- c. Fingerprint / internal forensic costs
- d. Photographic image recovery
- e. Other forensic services
- f. Investigative support command team and support overheads

### 11) Crime Commissioner

- a. Cost of Police Crime Commissioner
- b. Office of Police Crime Commissioner
- c. Other costs

### 12) Central costs

- a. Revenue contribution to capital
- b. Capital financing
- c. Pensions and exit costs

\* Local investigation is included here under local policing rather than investigation

**Annex 3 - Coding of POA categories**

**Local policing**

- V Neighbourhood policing
- V Incident (response) management
- V Specialist community liaison
- V Local command team and support overheads

**Dealing with the public**

- F Local call centres / front desk
- F Central communications unit
- F Contact management units
- F Command team and support overheads

**Criminal justice arrangements**

- F Custody
- F Police doctors / nurses and surgeons
- F Interpreters and translators
- F Other custody costs
- S Criminal justice
- S Police national computer
- S Criminal records bureau
- S Coroner assistance
- S Fixed penalty schemes (central ticket office)
- B Property officer / stores
- S Command team and support overheads

**Road policing**

- V Traffic units
- V Traffic wardens / PCSOs - traffic
- F Vehicle recovery
- F Casualty reduction partnership
- F Command team and support overheads

|  |
|--|
| <p>V = Visible operational front line<br/>                 F = Non-visible front line<br/>                 S = Frontline support<br/>                 B = Business support<br/>                 X = Excluded (not coded)</p> |
|--|

**Operational support**
