

## HMICFRS Value for Money Profile 2017

### West Yorkshire Police

compared with all forces in England & Wales

*The forces in the most similar group can be identified  
in the charts in this section by using the key below*

- a** West Yorkshire
- b** South Yorkshire
- c** Northumbria
- d** Lancashire
- e** South Wales
- f** Greater Manchester
- g** Nottinghamshire
- h** West Midlands

# Contents

## 3 Introduction

## 8 Section One – Costs, workforce and demand/performance

### Income and expenditure

- |   |                                  |
|---|----------------------------------|
| 9 Overview                                | 14 Financing                     |
| 10 Spend by category                      | 15 Earned income                 |
| 11 Workforce costs - Officers             | 16 Funding trends                |
| 12 Workforce costs - Police staff & PCSOs | 17 Total expenditure by function |
| 13 Non-staff costs                        |                                  |

### Net revenue expenditure by function:

- |                                  |                           |
|----------------------------------|---------------------------|
| 18 Summary                       | 31 Public protection      |
| 19 Local policing                | 33 Investigations         |
| 21 Dealing with the public       | 35 Investigative support  |
| 23 Criminal justice arrangements | 37 Support functions      |
| 25 Road policing                 | 40 Criminal Justice costs |
| 27 Operational support           |                           |
| 29 Intelligence                  |                           |

### Workforce

- |   |  |
|---|--|
| 41 Summary                                | 45 Leavers                                   |
| 42 Officers/PCSOs by rank                 | 46 Joiners                                   |
| 43 Officers/staff by back office function | 47 Sickness and recuperative/restricted duty |
| 44 Workforce numbers by function          | 48 Officers' length of service               |

### Demand/performance

- |                                       |                        |
|---------------------------------------|------------------------|
| 49 Crime trends                       | 53 Emergency incidents |
| 50 Crime per visible officers         | 54 Priority incidents  |
| 51 Crime outcome per visible officers | 55 All incidents       |
| 52 999 calls                          |                        |

## 56 Section Two – Offences and outcomes

- |                                 |   |
|---------------------------------|---|
| 60 Crimes (excluding fraud)     | 76 Crime against children                         |
| 62 Victim-based offences        | 78 Outcome percentage                             |
| 64 Violence against the person  | 80 Charged/Summoned                               |
| 66 Sexual offences              | 81 Out-of-court (formal)                          |
| 68 Robbery                      | 82 Out-of-court (informal)                        |
| 70 Theft offences               | 83 Suspect Identified - No Action Taken           |
| 72 Criminal damage and arson    | 84 Investigation complete – no suspect identified |
| 74 Other crimes against society | 85 Not yet assigned an outcome                    |

## 86 Annexes 1-4

## 95 Outliers

## Introduction

These value for money profiles bring together information which HMICFRS uses to inspect each force in England and Wales. This information covers police spending across all types of activity - both national and local - and includes a range of indicators of police performance, including crime rates.

Forces have much in common. They often provide a response to similar types of crimes and incidents. This means they carry out many similar functions. Similarities make it easier to compare forces, and the profiles are specifically designed for this purpose – to highlight where there are important differences in costs or performance.

However, no two forces are exactly alike, so the task is to make the comparisons as fair as possible, given the constraints of using national data. We must also distinguish between costs which are within a force's control and those which are not. For example, national pay rates for police officers or the demographics of the force area are both outside the force's control.

To focus attention on areas which are both comparable and over which managers have some direct control, we consider several factors in the way information is presented. These are described below:

### Most similar groups

While each force area has different types of population, some force areas have populations with similar demographics and are therefore more likely to have similar problems. The Home Office has "clustered" these forces into most similar groups or MSGs. Consequently, the profiles show comparisons between forces in the same MSG where this is relevant. It is important to bear in mind that these MSGs are based on social and urban demographic profiles which are associated with crime levels.

### Collaboration

More forces – particularly neighbouring forces - are collaborating to provide common functions across their areas. The financial arrangements for these collaborations vary and are not dissimilar to those associated with forces with regional responsibilities. Forces involved in collaborations are the hardest to compare and interpretation of this information requires caution.

In general, the net expenditure figures provided as part of the collaboration work between forces is more accurate, as the data collection form asks forces to record their income against relevant expenditure. By contrast, workforce numbers can give a false impression - in particular where the function is being provided entirely by a lead force – since the lead force might show all the staff

involved in the collaboration within their totals, even though they are providing services to other forces.

### National and regional policing functions

Many forces have national responsibilities for which they receive separate Home Office funding, for example on counter-terrorism. In addition, some forces are responsible for regional functions with varied sources of funding. These additional responsibilities can make a substantial difference to the way a force is presented in the profiles. We have attempted to take account of these factors in two ways.

First, in each force the cost and funding of national policing functions are shown separately from local policing expenditure. Second, we attempt to show the net cost to the force of regional functions. This can be harder to achieve because funding can be a mixture of income sources. If all the relevant income is not correctly attributed to the lead force of the regional unit, the net cost to the lead force will be reported as more expensive than is the case. In a large force, this may not stand out as significant but for smaller forces with responsibilities beyond their force area this can make a major difference. HMICFRS and Chartered Institute of Public Finance and Accountancy aim to improve how this information is collected and presented in next year's profiles.

The detailed information included in the profiles means that hundreds of differences are highlighted for each force. Most differences will not raise concerns and may be due to inconsistencies in the data (see data quality section below), but some will be significant. Aside from highlighting on the bar charts your force and the relevant most similar forces, we use three methods to help the user identify the most important areas for attention:

- the use of chevrons (<<) to highlight outliers in the comparisons (see below for the criteria we apply),
- by showing the impact of differences, such as the additional cost of expenditure being higher than the average force, the additional number of offences as a result of higher than average crime rates.
- by providing a list of all the outliers identified in the profiles – on the last page.

The profiles have done their job if they enable managers, inspectors, PCCs, Deputy Mayors and others interested parties to ask the right questions in the right areas indicated by the analysis. The profiles do not provide the answers to these questions and jumping to conclusions should be avoided. Further investigation or inspection is needed to arrive at the right conclusions and make the right decisions. High costs are not necessarily a sign of poor value for money and the cheapest is not always the best.

### **Data quality**

Data quality is an important limitation to the correct interpretation of the data. HMICFRS applies a systematic and well developed approach to validating the data working with the Home Office, CIPFA and forces. However, data quality needs to be balanced by practical limitations, in particular the need to publish and the other priorities placed on analytical staff in forces. Furthermore, differences in recording systems mean that some forces must shoehorn their data into national categories. Inevitably some forces take more care in carrying out this tricky task than others.

In this section we draw your attention to two important data quality issues.

### **Crime data integrity**

In 2014 HMICFRS completed an inspection into the way police forces in England and Wales record crime data. This report identified serious concerns about the crime recording process and HMICFRS has since undertaken a programme of inspecting crime data recording across police forces in England and Wales. In response to the findings of both the 2014 report and our follow up inspections, many forces have or are in the process of improving their crime recording practices.

These improvements have clearly affected the recorded crime trends shown in the profiles. The effect is likely to vary by force and type of crime.

### **Quality of incident data**

The quality of incident data provided by some forces has been of concern for some years because of implausibly large year on year fluctuations. Forces which provide such data are asked to check and re-submit their data to the Home Office.

More recently we have been able to compare this incident data with operational command and control data provided by forces involved in HMICFRS's big data project. This has revealed that some forces have not complied with the national definitions which require the exclusion of non-incident calls, such as 'admin' calls from their incident count; while others have included 'scheduled' calls within the 'priority' calls category.

We hope to address this issue next year, in the meantime, treat obvious outlier data from some forces with caution. However, some incident data is less affected by these problems: emergency incident data is more consistent than the priority incident data, which should be treated with extreme caution.

### **Changes we have made to some pages**

To improve comparability we have made two minor changes to the analysis and presentation in this year's profile. Page 16 in last year's profile presented total funding trends and compared each force's funding trends with their MSG's funding trends. Page 41 in last year's profiles compared total staffing levels by type of staff. Both produce a flawed comparison because they do not take into account the mix of national and local funding or staffing. To avoid the wrong conclusions being drawn, we have removed information showing MSG funding trends. Workforce numbers recorded against national functions are removed from the totals, so that only local policing workforce numbers are compared.

As Police and Crime Commissioners do not fall under the inspection remit of the HMICFRS, we have also removed the page comparing NRE spend on PCC/local policing bodies.

### **Where does this information come from?**

Data is from the police submitted to the Chartered Institute of Public Finance and Accountancy (CIPFA) through the Police Objective Analysis (POA) or to the Home Office through the Annual Data Requirement (ADR).

Please note, that the data used within the profiles are sourced from data available at the time of publication and may have subsequently been amended and updated.

### Have there been any changes in definitions?

There have not been any major changes to the POA definitions and categories. However, two new sub-categories have been added to the Public Protection category, “Joint Teams” for forces who operate joint child and adult protection teams, and “Public Protection Command Team and Support Overheads” has been added to bring in line with other categories.

Under the category of Operational Support, the sub-categories “Events” and “Civil Contingencies” have been merged.

For the second year, the profiles include data covering outcomes associated with recorded crime. The profiles present the data on principal outcomes for each crime category.

### Feedback

Many forces worked with us throughout the development of the VfM profiles, and we are grateful to those that provided us with feedback and comments. HMICFRS is always keen to hear from users on how the profiles can be improved. If you have any suggestions, or any analysis which you think might be useful to include, please contact [lawrenceroymorris33@hmic.gsi.gov.uk](mailto:lawrenceroymorris33@hmic.gsi.gov.uk) or [HMICProfiles@hmic.gsi.gov.uk](mailto:HMICProfiles@hmic.gsi.gov.uk)

### How do I use the profiles?

Most of the data are presented as bar charts so you can see how your force compares with others. Your force is highlighted in black with forces in your ‘most similar group’ (MSG) shown in teal. MSG forces share similar demographics. More details about MSG forces can be found on page 7. Finally, a horizontal line runs across each bar chart representing the average value across all forces in England and Wales (excluding the Metropolitan Police Service and City of London Police) unless stated otherwise.

The profiles are presented as ‘logic trees’ with the data broken down progressively from left to right. By following the branches of the logic tree, you can identify the reason(s) for differences between your force and others. To illustrate, in the example given on page 6 a force could be spending more on police officers because there are more of them (officers per head of population), or because they are more expensive (cost per officer), or because it is spending more on overtime. Most pages also include tables which lay out the main data presented in the charts as well as some additional comparisons. Typically, from left to right they show:

- a short description of the relevant volumes (e.g. staff numbers/total costs/numbers of crimes)
- a ratio for comparison (e.g. staff per head of population)
- the average costs per volumes
- the ‘difference’ which shows the absolute cost of the difference between a force and an “expected value”. Expected values are what would be expected of the force should they be reflective of either the national or MSG average. The difference will then show:
  - o for costs shows how much more, or less, it is costing your force than the average;
  - o for crimes/outcomes shows how many more, or fewer, crimes/outcomes your force is recording as a result of the difference from the average; and
  - o for workforce shows how much larger, or smaller, your force's workforce is as a result of the difference from the average.
- chevrons (<<) against the data highlight whether your force is an outlier for this item (whether the force is in the top or bottom 10 percent of forces and the effect of the difference is greater than £1 per head of population).

*An illustrative example is shown on the following page*

## Guidance page - How to read the profiles

How much do officers in the force cost compared with others? How much overtime do they receive?

1. The profiles use 'logic trees' to break each policing function down (from left to right) into component parts. For each breakdown, you can see how the force (labelled 'a') compares to other forces in its most similar group of forces (labelled 'b - f'), as well as all forces in England and Wales.

2. The force (a) has some of the highest officer costs per head of population nationally...

| Officer costs         | £/head | Averages |       | Diff* £m |      |
|-----------------------|--------|----------|-------|----------|------|
|                       |        | All      | MSG   | All      | MSG  |
| All pay exc. overtime | 127.7  | 99.0     | 121.0 | 16.0     | 3.7  |
| Overtime              | 2.2    | 3.0      | 3.4   | -0.4     | -0.7 |
| Total                 | 129.8  | 102.0    | 124.4 | 15.5     | 3.0  |

| Officer overtime as a % of total salary costs | % sal | Averages |      | Diff* £m |      |
|---|-------|----------|------|----------|------|
|   |       | All      | MSG  | All      | MSG  |
| Total   | 1.7%  | 3.0%     | 2.9% | -0.9     | -0.8 |

| Number of officers and cost per officer |      | Averages |      | Diff* £m |      |
|---|------|----------|------|----------|------|
|   |      | All      | MSG  | All      | MSG  |
| FTE per 1,000 population                | 2.54 | 1.93     | 2.40 | 17.2     | 3.8  |
| Cost per FTE (£000s)                    | 50.3 | 51.3     | 50.4 | -1.4     | -0.1 |

\* Absolute cost of the difference in spend to the average per head of all/MSG forces.

4. This chart shows a breakdown of the previous branch of the logic tree, the bottom charts revealing that overtime has little bearing on high officer costs.

3. ...equating to a difference of £15.5m when compared to the national (all) average.

5. The force spends little (as a proportion) on overtime.

N.B Outliers are highlighted with blue chevrons, and represent the values that are in the highest and lowest 10% of values across all force and, where appropriate, have a value of more than £1 per head.

6. The force has more officers per 1,000 population than the national average, equating to a difference in cost of £17.2m (see table).

7. The cost of individual officers in the force is relatively low.

## Explanatory notes and caveats

### What is the purpose of the most similar group (MSG) comparison?

The MSG was designed to offer a fairer comparison of levels of crime between forces as they group forces with similar demographics. While MSG comparisons do not take account of the fact that some areas have higher costs than others; they are used here to compare costs since forces in a high crime MSG (such as large urban forces) are likely to have greater resources such as more officers, staff and PCSOs. While most forces share similar demographics with the rest of their group, there are a few that are less closely aligned (the Metropolitan Police Service, Dyfed-Powys Police, Surrey Police and City of London Police). Apart from City of London Police, the remaining forces are still included with a most similar group, but their appearance as an outlier means they should be treated with caution. MSGs were last updated for the 2013 VfM profiles using data from the 2011 Census; this grouping remains the most recent update.

### What checks have been applied to the data?

The data presented in the profiles are subject to a systematic checking process:

- The Chartered Institute of Public Finance and Accountancy (CIPFA) applies arithmetic and reconciliation checks to the financial data from forces.
  - Each force is asked to check its statistical outliers (where its costs are significantly different from average and/or from its return for the previous year).
  - Each force receives a draft profile to check the figures before publication.
- Each year forces identify anomalies or inconsistencies which HMICFRS attempts to resolve. Forces are able to resubmit data to correct any errors.

### Which workforce figures are used?

The profiles include staff numbers drawn from two data sets: the Home Office annual data return (ADR), which is a snapshot at 31 March each year of full-time equivalent staff in post and the Police Objective Analysis (POA) which counts the average, budgeted, full-time equivalent staff for the financial year. Given the differences between the two, these figures in some cases will not align completely. In general, the profiles use POA budgeted staff numbers to make detailed financial comparisons between forces. However, POA is a relatively recent invention and, prior to 2011/12, it was not validated by HMICFRS. Consequently, it cannot provide a series long enough to show changing trends over time. In contrast, ADR has been validated over several years so is used to present trends on police officers, PCSO and police staff numbers. It is also used where equivalent data are not available from POA.

### Which population figures are used?

The profiles use mid-2016 population estimates, which are the latest available from the ONS. Please note that the ONS police recorded crime data publication, 12 months to 31 March 2017 (published in July 2017) used mid-2015 population estimates so numbers will not match exactly.

### Which crime figures are used?

The VfM profiles include the crime statistics published by the ONS in for the data for the 12 months to 31 March 2017. The Home Office introduced a new framework to measure outcomes associated with crimes in 2013. Data covering outcomes associated with crimes recorded in the 12 months to 31 March 2017 for all forces are published by the Home Office and updated on 19 October 2017.

### How are averages calculated?

Unless stated otherwise, the simple average of all forces and MSG forces are used. Except for their own profiles, City of London Police and the Metropolitan Police Service are omitted from the averages and the charts because they are outliers in most categories.

### What rule is used to highlight outliers?

The difference is highlighted if the indicator puts the force in the top or bottom 10 percent of forces and the effect of the difference is greater than £1 per head of population.

### Where can I find further contextual information to help me understand the data?

Further contextual information can be provided by HMICFRS, for example the definitions used by CIPFA in constructing the POA dataset.

## Section one – Costs, workforce and demand/performance

This section looks at how a force deploys its workforce and the associated costs, for the headline categories of activities within the Police Objective Analysis (POA). POA subcategory information on costs is also presented.

POA estimates are used for all cost and workforce data unless stated otherwise. These data are force estimates for 2017/18 collated by CIPFA. Any updates to the data made after this time will not be reflected in the profile. Home Office Annual Data Requirement (ADR) data are used where relevant and POA data are not available. Examples include officers by rank, sickness rates, recuperative and restricted/adjusted duty rates, officers' length of service and leavers/joiners.

With the exception of special constables, workforce data comprises full-time equivalent (FTE) figures. In POA estimates these are calculated as the number of staff budgeted for each staff type. Police workforce figures published by the Home Office are based on those in-post as of 31 March each year. The two sets of figures are not, therefore, directly comparable.

### Key to the data and calculations

- Net revenue expenditure: The profiles use a different calculation for net revenue expenditure to the Chartered Institute of Public Finance and Accountancy (CIPFA); it is calculated as total expenditure (GRE) minus earned income to show the total cost of policing to the taxpayer.
- Earned income: Where earned income is referred to, this covers partnership income, sales fees charges and rents, special police services, reimbursed income and interest.
- Averages: All averages in this section (unless otherwise stated) are simple, unweighted England and Wales averages, including the force in question. As the Metropolitan Police Service and City of London Police data distort the chart scales, they have been excluded from all charts and averages except for those in their own profiles.
- Difference to most similar group (MSG) / All force: Differences are presented as absolute cost of difference. They are calculated using the most appropriate method for the data presented and explained in footnotes. An example calculation is as follows: (Force cost per head minus MSG cost per head) multiplied by force population = absolute cost of difference from the MSG.

- Police officer spend as % of gross expenditure: The profiles show the proportion of spend on officers (including overtime) by function. Calculation is as follows: (Police officer salary + Police officer overtime) / Gross Revenue Expenditure (GRE) = police officer spend as % of GRE.
- National policing: To more accurately compare forces, national policing functions (such as counter terrorism/special branch) are not included in totals of spend and workforce (unless stated otherwise).
- Operational frontline, frontline support and business support: POA data is mapped onto these categories. Since counter-terrorism/special branch is a national policing function, we do not include this as a frontline role (for the reason given above). Due to this, and the previously described differences between the ADR and POA workforce data, the totals and proportions may not match those published elsewhere. The list of POA categories and their classifications are given in annex 3 and 4.

Please note that, throughout the profiles, rounding may cause apparent discrepancies between totals and the sums of the parts.

### How to use this section

Users may wish to focus on those areas where the force is an outlier, i.e. where the force is different from the average. Outliers are highlighted with blue chevrons and indicate that the force falls within the highest or lowest 10 percent of forces and the effect of the difference is greater than £1 per head of population. Alternatively users may wish to examine where the force of interest is positioned relative to other forces they think are similarly performing or where they expect that force to be.

Users should consider exploring the reasons for any differences by looking at the force as a whole, using relevant local knowledge. Workforce levels should also be considered in the context of workforce modernisation, collaboration efforts and the outsourcing of services. Please note that in some cases, charts are not given for all breakdowns.

Throughout the profiles the chart scales vary and as a result the differences shown may not be as significant as they first appear.

## Income and expenditure - Overview

How much does the force spend compared with others on workforce and non staff costs? How much does it earn in income?

### Cost per head of population

The profiles calculate net revenue expenditure (NRE) as total expenditure minus earned income to show the total cost of policing to the taxpayer. Note that this is different from NRE as reported in the raw POA data.

To improve comparability between forces, national policing functions (such as counter-terrorism/special branch) are excluded from the data analysis and charts.

**NRE (excluding national functions) per head**

**Workforce costs per head (PO, PCSO, PS only)**

**Police officer costs per head (inc OT)**

**Police staff costs per head (inc OT)**

**Non-staff costs per head**

**PCSO costs per head (inc OT)**

**Earned income per head**

| Population               |              | 2,300k       |  |              |              |             |             |
|--------------------------|--------------|--------------|--|--------------|--------------|-------------|-------------|
|                          |              |              |  | Averages     |              | Diff* £m    |             |
|                          | £m           | £/head       |  | All          | MSG          | All         | MSG         |
| Police officers          | 242.6        | 105.5        |  | 94.4         | 106.3        | 25.4        | -1.8        |
| Police staff             | 108.4        | 47.2         |  | 40.1         | 40.0         | 16.3        | 16.4        |
| PCSOs                    | 19.2         | 8.4          |  | 6.2          | 6.5          | 5.0         | 4.2         |
| Workforce                | 370.2        | 161.0        |  | 140.7        | 152.8        | 46.7        | 18.8        |
|                          |              |              |  |              |              |             |             |

## Income and expenditure - Spend by category

What proportion of spend is on front line policing or in business support compared with others?

### Proportion of net revenue expenditure

Police workforce roles are split into three categories: operational front line, frontline support and business support. The front line is further broken down into visible and non-visible roles (see Annex 3 & 4 for a breakdown by POA category). These charts show the proportion of NRE spend in each category. To improve comparability between forces, national policing functions are excluded.

Collaboration and partnership can artificially inflate or reduce the number of workforce FTE in a particular force. To avoid this distortion, costs of the workforce are used here to better represent how forces prioritise their resources.

Note that in *PEEL: Police efficiency 2015 (October 2015)* HMIC define frontline support as *operational support*. Since this is the name of a POA category, *frontline support* is used here to avoid confusion.

**NRE (excluding national functions)**

|                        | NRE £m       | Force breakdown | Averages      |               | MSG Diff** |

## Income and expenditure - Workforce costs - Officers

How much do officers in the force cost compared with others? How much of the extra cost comes from having more officers and how much is because they spend more on their officers? How much overtime do they receive?

### Cost per head of population

Police officer costs are split into salary and overtime (OT). OT costs are also shown as a percentage of the overall salary costs (including OT).

Collaboration and partnership can artificially inflate or reduce the number of workforce in a particular force to avoid this distortion costs of the workforce are used here to better represent how forces prioritise their resources.

To improve comparability between forces, national policing functions are excluded.

**FTE police officers** 4,542 (exc national policing functions)

## Income and expenditure - Non-staff costs

Apart from on the workforce, where else is the force spending money compared with other forces?

### Non-staff costs as a percentage of workforce costs

Non-staff costs are broken down into specific types of running costs.

As non-staff costs are largely dependent on the size of the workforce, they are presented here as a proportion of the workforce costs to improve comparability.

For the same reason of improved comparability between forces, national policing functions are excluded.

Note that collaboration, outsourcing and partnership arrangements will affect the data for some forces.

| Force workforce costs                |       | £370m              |          |       |          |      |
|--------------------------------------|-------|--------------------|----------|-------|----------|------|

## Income and expenditure - Financing

How much money does the local policing body receive in funding compared with others and from where? What is the level of council tax in the force and how does that compare with others?

### Funding per head of population

Central funding is broken down into formula-based funding\*, and government grants that are not formula based. Local funding is comprised of council tax, and use of reserves.

The total funding on this page includes the specific funding received by forces for national policing functions. Some forces will receive national policing funding on behalf of other forces, the grants received for these national policing functions are shown separately to allow the reader to compare the financing of local policing.

To show a typical council tax payment in the force, Band D tax rates are provided (from CIPFA estimates).

| Population                | 2,300k       |              |              |              |              |

## Income and expenditure - Earned income

How much income does the force earn compared with others and from where does it receive it?

### Income per head of population

Earned income is removed from Gross Revenue Expenditure (GRE) in order to calculate NRE and does not include government grants.

To improve comparability between forces national policing functions have been excluded.

Different operating models across forces for collaboration and partnership between forces, and other agencies, give a range in levels of income under the headings of partnerships and reimbursed income.

Some forces have high earned income related to special functions such as policing large events (sports, festivals etc.).

| Population                     | 2,300k      |             | Averages   |            | Diff* £m    |                      |

## Income and expenditure - Funding trends

How has the local policing body's income changed over time?

### Funding trends per head

Please note these figures are not adjusted for inflation. The change overtime is therefore a nominal and not a real change.

Please note that the figures on this page are inclusive of specific government grants for national policing functions, therefore they represent all publicly funded income received by a force. A breakdown of the grants received by the force are presented on page 13. Note that change over time for reserves has not been given due to negative and positive values cancelling each other out and therefore misrepresenting the actual change in reserves. Furthermore, please note that estimates of reserves are unreliable as they often bare little relationship compared with actual levels off reserves and should be treated with caution.

The Band D council tax rates are from CIPFA estimates.

Note that value for previous years have been adjusted using mid-2016 pop figures.

West Yorkshire

## Income and expenditure - NRE by function - Summary

What does the force spend across the different functions compared with others?

The charts on this page show spend per head by function.

National policing functions have been excluded to improve comparability between forces. Note that collaboration/outsourcing arrangements will affect costs for certain forces.

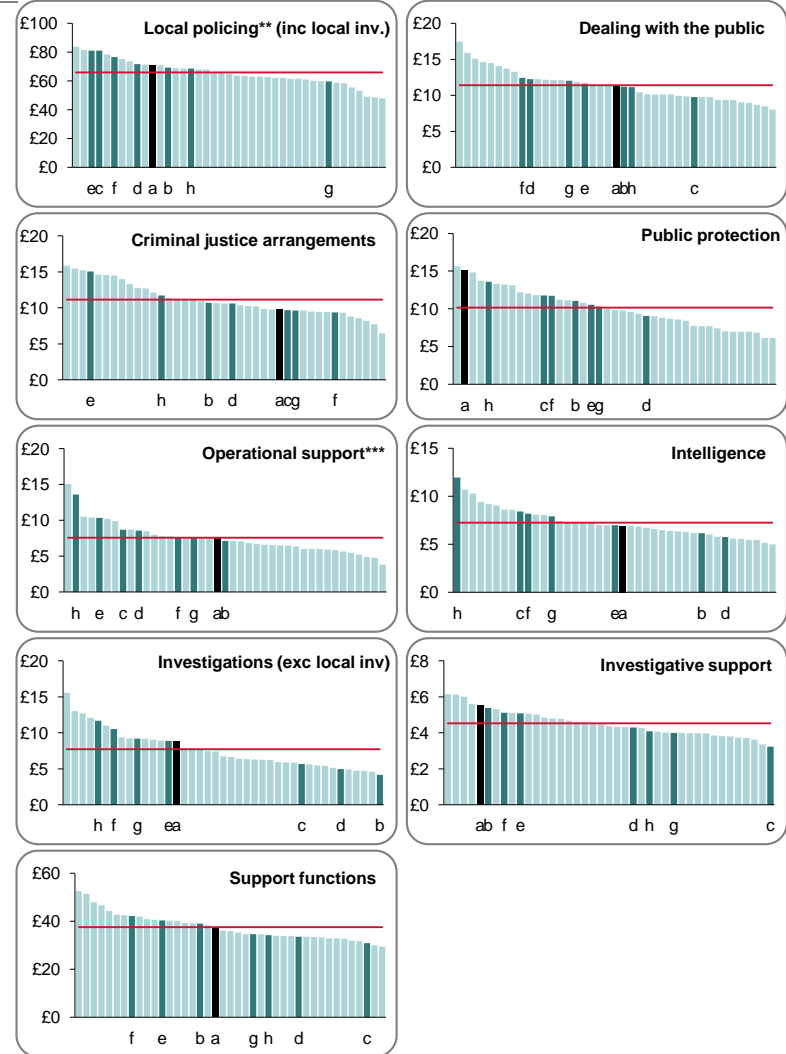

| Population  | 2,300k       |              |              |              |             |             |

## Income and expenditure - NRE by function - Local policing (including local investigation/prisoner processing)

What does the force spend on the different areas within local policing compared with others?

The charts on this page show spend per head.

As some force's operating models either combined the roles of neighbourhood policing and incident (response) management, or cannot distinguish between staff in either role, a chart showing the combined costs are presented here to ensure comparability across forces.

| Population                                 |              | 2,300k      |             |             |             |             |                |            |            |  |  |

## Income and expenditure - NRE by function - Road policing - Use of resources

How does the force spend its money within road policing compared with other forces?

The charts on this page show spend per head.

Note that collaboration, outsourcing and other partnership arrangements will affect costs and earned income for some forces.

Earned income will include driver awareness courses and Casualty Reduction Partnerships.

## Income and expenditure - NRE by function - Support functions - Use of resources

What does the force spend on the different areas within support functions compared with other forces?

These charts provide a detailed breakdown of support service functions as a cost per FTE and a percentage of total NRE.

Note that collaboration/outsourcing will affect costs for certain forces.

### POA 2017/18 estimates

(including national policing functions)

|                |       |

## Income and expenditure - Criminal justice costs

How much does the force spend per charge compared with others? What is the size of its workforce that deals with criminal justice?

These charts show the NRE cost of the criminal justice sub category (as opposed to criminal justice arrangements headline category) per 100 charges.

FTE within the criminal justice function is then shown per 100 charges.

Note that charges data is from 2016/17 whereas FTE and cost figures are from 2017/18 estimates.

Note that collaboration/outsourcing will affect costs for certain forces.

| Charges               |       | 22,943          |          |      |           |          |  |
|-----------------------|-------|-----------------|----------|------|-----------|----------|--|

## Workforce - Summary (excluding national policing)

How large is the force's workforce relative to it's population compared with other forces? How many officers, staff, PCSOs and special constables do they employ per 1,000 population?

Figures in the charts give the total number of FTEs (or head count for special constables) per 1,000 population. All data is from POA. Special constables data is average head count across the year.

Note that collaboration/outsourcing arrangements will have an effect on the staffing FTE for a force. For example a lead force in a collaboration may report all staff within their FTE rather than split across the forces taking part in the collaboration. For this reason NRE spend may give a more comparable indicator of a forces priorities and resourcing.

Please note, national policing functions are excluded from these totals.

## Workforce - Officers/PCSOs by rank

How are officers in the force split amongst the ranks compared with other forces? What is the supervisory ratio of sergeants to constables (and PCSOs) compared with others?

Charts show the proportion of the total officer/PCSO workforce at each rank. The chart for superintendents includes chief superintendents, and the chart for inspectors includes chief inspectors. National Police Chiefs Council (NPCC) are officers above the rank of chief superintendents.

Two further charts show numbers of constables (and PCSOs) per sergeant giving an indication of the average supervision requirement for each sergeant.

Note that this is ADR data for all officers and so totals will not match the POA data given elsewhere.

| % of total officers/PCSOs |              |               |               |
|---------------------------|--------------|---------------|---------------|
| Officers and PCSOs        | FTE          | %             | All Avg       |

## Workforce - Officers/staff by back office function

In functions where officers and staff can fulfil similar roles, what proportion of these functions are made up of police staff compared with other forces? How has that changed in the last five years?

HMICFRS split police workforce roles into three categories using the ADR601 functions: operational front line (including visible and non-visible), frontline support\* and business support.

ADR601 categories are mapped to the POA data for use here. For consistency to elsewhere in the profile, counter terrorism/special branch (a national policing function) has been removed from the front line. Due to this, and the fact that ADR601 data deals with officers in post as of 31 March whereas POA data is of budgeted posts for the whole financial year, proportions will not necessarily match to other published figures. Annex 4 shows a list of POA functions and their classification.

Note that PCSOs are not included here as they, almost exclusively, work in visible frontline roles.

\* In PEEL Police efficiency 2015, HMICFRS define this role as operational support. Since this is the name of a POA category, frontline support is used here to avoid confusion.

## Workforce - Leavers

What proportion of the workforce left the force last year and how does that compare with other forces?

These charts show the number and percentage of the workforce (FTEs) that left the force between 31 March 2016 and 2017 (using 31 March 2016 totals figures to calculate percentage of workforce).

Officers are broken down into those who transferred or left the service. We have costed the salary impact of the workforce leaving the service to give context.

Note that PCSOs leaving forces may return as police officers.

Note that ADR data is used and workforce totals will not match the POA data given elsewhere.

Note that data for some forces may not match published data sources due to data resubmissions.

## Workforce - Sickness and recuperative/restricted duty

What proportion of the force's workforce are absent due to sickness and what proportion of officers are on restricted/recuperative duty? How do these proportions compare with other forces?

These charts show sickness as a proportion of the workforce broken down into short and medium term (28 days and less) and long term (more than 28 days).

Officers on restricted duties (i.e. officers who, because of a disability or other factors, are unable to undertake the full range of operational duties) and recuperative duties (officers returning to work in a phased way after injury or illness) are included separately.

Note that gaps towards the left of some charts indicate that data is not available or has not been included; zero absence levels have been excluded as it is likely to be due to data inaccuracies.

Note that ADR data is used and workforce totals will not match the POA data given elsewhere.

|                       | Strength | FTE | % of total | All Avg |

## Workforce - Officers' length of service

What is the age profile of officers in the force compared with other forces? How many officers are projected to retire over the next few years and what are the estimated savings from them doing so?

The projected number of retirees is shown for officers with 25-30 years' service.\* The estimated saving of them retiring is also provided, calculated from the average cost of a police officer. This does not take into account replacements. Data is given as headcount.

### All officers

|                      |     |     |       |     |     |     |       |
|----------------------|-----|-----|-------|-----|-----|-----|-------|
| March 2017 headcount | 903 | 979 | 1,555 | 471 | 524 | 414 | Total |
|                      |     |     |       |     |     |     | 4,846 |

### Projected retirement - projected number of officers who will reach 30 years of service within the next six years

|                      |       |       |       |       |       |       |        |
|----------------------|-------|-------|-------|-------|-------|-------|--------|
| March 2017 headcount | 11    | 6     | 79    | 115   | 107   | 96    | Total  |
| Salary cost**        | £0.6m | £0.3m | £4.1m | £5.9m | £5.5m | £5.0m | £21.4m |

\* Please note that typically officers cannot retire until they have completed 30 years service. The above chart shows the current number of officers who currently have 25 years or more of service, broken down by the year they are expected to reach 30 years of service.

\*\* Headcount multiplied by average salary cost per FTE excluding overtime.

Source (officer head count): ADR582 (as at 31 March 2017); Source (salary): POA estimates 2017/18

West Yorkshire

## Demand - Crime trends

How is the number of crimes and charges per officer changing over time in the force and how does this compare with others?

Total crime (excluding fraud) is included but not broken down into the different crime-types to ensure there is sufficient data to show a robust series.

Note that PCSOs are not included and officer/staff numbers are given in FTEs. This data is from ADR (as at 31 March) and so will not match the POA data (estimates) given elsewhere.

Note that recorded crime data on this page represents all offences excluding fraud. The figures will differ from those displayed in section two of this profile where offences with the outcome is "action taken by another body/agency", outcome 20 are excluded.

The trends for this force chart has been plotted as indices to enable comparison of the change over time in each series.

## Demand - Recorded crimes per visible officers

How does the number of crimes per visible police officer in the force compare with others?

While police officers are not just dealing with crime, the numbers of offences per visible police officer gives some indication of how the measurable crime workload for this force's visible officers compares with other forces.

Note that PCSOs are not included. Visible roles are defined in Annex 4.

|                         |       |

## Demand - Crime outcomes per visible officer

How does the force respond to crimes compared with others?

What are the number of offences with suspect identified, action taken and charges per visible police officer?

Please refer to 'Offences and outcomes introduction' section for the definition of 'suspect identified' and 'action taken'.

This page includes aggregated figures for both victim-based crime and other crimes against society.

|                         |         |

## Demand - 999 calls

What is the level of demands on the force from 999 calls compared with other forces? How much does dealing with these calls cost compared with others and what is the level of workforce required to deal with them?

Costs and workforce levels are calculated for central communications units (CCU) and also for CCU and front desk combined to account for differences in force structure.

Note that

- for consistency with elsewhere in this section, the horizontal lines in the bar charts represent the average of all forces, not the MSG average.
- staff in CCU and front desk perform a range of functions and may spend differing amounts of their time dealing with emergency calls.
- Collaboration/outourcing will affect costs for certain forces.

West Yorkshire

## Demand - Emergency incidents

What is the level of emergency calls in the force compared with others? How have these levels changed?

An emergency response occurs when the police call handler assesses that there is a degree of importance or urgency associated with the incident and an emergency response is required.

All police forces record incidents in accordance with the provisions of the National Standard for Incident Recording (NSIR). These figures are not subject to the same level of quality assurance as recorded crime data.

Incident counts should be interpreted only as incidents recorded by the police, and may under estimate the true level of incidents.

Incidents are separated into anti-social behaviour (ASB) incidents, crimes (notifiable, classified command and control) incidents and other command and control (C&C) incidents.

The charts on the right side of the page show the percentage change in each type of incident over the past 12 months.

Population 2,300k

|                                  | Force          | Incidents<br>per 1,000 pop | Averages  |           |
|----------------------------------|----------------|----------------------------|-----------|-----------|
|                                  |                |                            | All       | MSG       |

West Yorkshire

## Demand - Priority incidents

What is the level of priority calls in the force compared with others? How have these levels changed?

A priority response occurs when the police call handler assesses that there is a degree of importance or urgency associated with the incident but an emergency response is not required.

All police forces record incidents in accordance with the provisions of the National Standard for Incident Recording (NSIR). These figures are not subject to the same level of quality assurance as recorded crime data.

Incident counts should be interpreted only as incidents recorded by the police, and may under estimate the true level of incidents.

Incidents are separated into anti-social behaviour (ASB) incidents, crimes (notifiable, classified command and control) incidents and other command and control (C&C) incidents.

The charts on the right side of the page show the percentage change in each type of incident over the past 12 months.

West Yorkshire

## Demand - All incidents

How has the categorisation of incidents changed over time and how does the most recent year compare to the MSG?

All police forces record incidents in accordance with the provisions of the National Standard for Incident Recording (NSIR). These figures are not subject to the same level of quality assurance as recorded crime data.

Incident counts should be interpreted only as incidents recorded by the police, and may underestimate the true level of incidents.

Large changes between years may be due to the force changing their internal recording categories

Scheduled category are appointments where a contact does not require an immediate or priority response but still requires police attendance, it will result in a scheduled response.

Resolution without deployment can occur where the needs of the caller can be adequately met through provision of advice, information, helpdesk or telephone investigation function or signposting to another lead agency/service.

## Section two – offences and outcomes

This section uses the ONS published data on police recorded crime alongside Home Office data on outcome types.

The following pages present the volumes and changes in recorded crime for top-level crime categories. They also focus on the resulting outcomes from offences recorded over the 12 months to 31 March 2017, presenting the proportion of recorded crimes where a suspect was identified and where action was taken.

These categories taken from Home Office outcome framework and are summarised as follows:

- **Suspect Identified** is defined as an outcome where an offender is identified enabling actions such as a charge, formal or informal sanction or an offence to be taken into consideration by the court. Also included are outcomes where a suspect is identified but evidential difficulties prevent prosecution or prosecution is not in the public interest.
- **Action Taken** defined as an outcome where an offender receives a charge or summons, an out-of-court formal outcome, an out-of-court informal outcome or who asks the offence to be taken into consideration.

Further analysis on pages 80 to 85 provides the volume of key outcomes for more detailed crime categories and presents the difference from the expected volume of that outcome based on the England and Wales average. Users may want to question why there are differences from the expected volumes, why a force might have higher than expected outcomes for some crimes, or lower than expected outcomes in others.

Definitions of offences in each crime category can be found in annex 1. This publication uses the outcomes groups on page 59 below to analyse outcomes. How these groups map to the Home Office outcome types and full definitions can be found in annex 2.

## Also to Note

- Outcome 20 "action undertaken by another body/agency" was introduced from April 2015. As this outcome does not relate to police activity, offences with this outcome have been excluded from pages 60 to 85 of the profiles. These outcomes account for 0.8% of total offences. For this reason some overall offence figures may appear different to the offences stated in section 1 and those published by the Home Office and HMICFRS' PEEL reports.
- Pages 60-85 report on the outcomes for offences recorded during the period to 31 March 2017 and will differ from page 49 data on charges, which presents all charges recorded during the period, even if the offence to which it relates was not recorded in the period.
- On pages 80-85 England and Wales percent of outcomes is not provided for broad offence categories (violence against person, sexual offences etc) as the profile of component offence subcategories will differ by forces and comparison would be unreliable.
- Changes over time for crimes are measured against a baseline of 2015/16.
- Crimes against children are included in overall crime data.
- Fraud is excluded from all crime to make comparisons between forces more meaningful. Fraud offences are now recorded by the National Fraud Intelligence Bureau.
- For recorded crime and outcomes, MSG (simple, unweighted) averages are used. With the exception of pages 80 to 85, horizontal lines in the plots show the MSG.
- Outcomes data for Avon and Somerset has been removed from these profiles due to concerns around accuracy caused by issues reconciling data on Home Office Systems. They continue to work with the Home Office to resolve these issues.
- Outcomes data for Suffolk are not available. They are working with the Home Office to resolve this.

- Due to an issue in the original publication of the outcomes data for the year to 31 March 2017, published in July 2017, the Home Office have reissued the open data tables for this period in October 2017. The value for money profiles use the open data tables for the year to 31 March 2017 as published in October 2017.  
Figures may therefore differ from the Home Office publication referring to the outcomes data for the year ending 31 March 2017 as well as the ONS publication on recorded crimes figures for the year ending 31 March 2017. The Home Office regularly update the crimes and outcomes data so users should always refer to open data tables for the most up to data.
- This year's profiles use the outcomes data for the year to 31 March 2017 published in October, whereas the VFM profiles in 2016 use the outcomes data for the year to 31 March 2016, published in July. Subsequently there is a larger time lag in this data between the recording period and extraction from the administrative database in this publication than in previous years VFM profiles. The larger time lag results in additional time for investigations to be advanced and therefore to record an outcome against offences. This is particularly relevant for those offences where an outcome has yet to be recorded. Therefore any time series using the year ending March may not be appropriate in this case.

□

## Section two - Offences and outcomes

### Introduction

The offences described in this section are presented as a crime tree as shown below. The tree distinguishes between victim based crimes and other crimes against society where there is no victim but a criminal offence has been committed. Fraud is shown separately with a dotted line because a practical and reliable method for collecting force-level data has not been developed. Nevertheless, this profile provides the latest ONS information.

### The ONS crime tree

Note: Definitions of offences in each category can be found in Annex 1.

### Crime committed against children

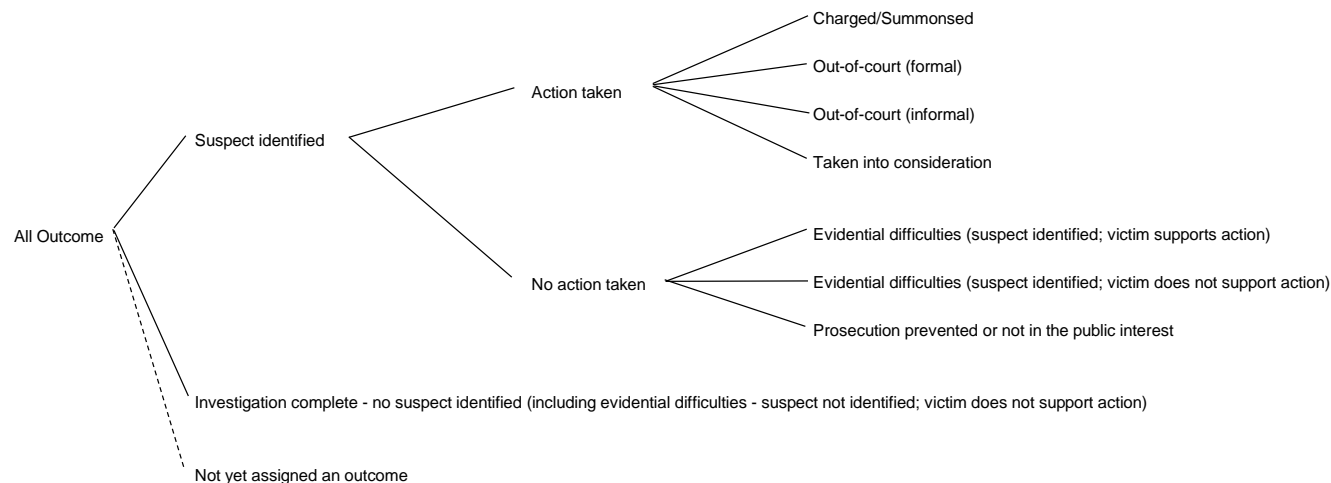

This year, the profiles include a section on crime committed against children and the resulting outcomes. This includes crimes where the victims are specifically stated as children or victims are highly likely to be children (see crime tree below) There are other crime categories that may include child victims, but it is not possible to distinguish between adult and child victims (e.g. theft). These categories are not included in this section. Although not a perfect measure, these crimes give a good indication of the scale of crimes committed specifically against children within the force.

Note: Definitions of offences in each category can be found in Annex 1.

### Outcome terminology

The Home Office introduced a new way of classifying the results of police investigations in April 2013. New classifications called 'outcomes' are associated with all recorded crimes, providing a more detailed picture of how the police deal with investigations. The following outcome groups are used in this section:

Note

Definitions of outcome types in each category can be found in Annex 2.

Outcome 20 "action undertaken by another body/agency" was introduced from April 2015. As this outcome does not relate to police activity, offences with this outcome have been excluded from pages 60 to 85 of the profiles. These outcomes account for 0.8% of total offences. For this reason some overall offence figures may appear different to the offences stated in section 1 and those published by the Home Office and HMICFRS' PEEL reports.

## Offences and outcomes - Crimes - Recorded offences

What is the recorded offence rate for crimes (excluding fraud) in the force and how does this compare with other forces?

How does the recorded offence rate compare with last year and how does the change compare with others?

| Fraud    |                  |         |            |  |
|----------|------------------|---------|------------|--|
| Offences | per 1,000 pop*** | MSG Avg | Difference |  |
| 6,942    | 3.02             | 3.76    | -1714      |  |

### Fraud

Fraud data are experimental statistics published as part of ONS crime statistics and are in the testing phase and not yet fully developed.

The figures presented here for police force areas are based on victims' address information. This is in contrast with how other crimes are recorded, which is based on where the offence took place (in the case of fraud is often hard to define).

Offences where the victim's police force area is unknown relate to cases where it has not been possible to attribute offences to a police force area, for example, due to missing address information, or where the offence occurred outside the UK. There were 34,206 such unknown offences nationally.

Source: ONS Crime Statistics 2016/17, 2015/16

### Recorded offence rate

Population 2,300k

|                              | Offences | per 1,000 pop | MSG Avg | Difference* |     |

|------------------------------|----------|------------|---------|
| <b>2015/16</b>               |          | Force      | MSG Avg |
| Victim-based crime           | 180,858  | 15%        | 14%     |
| Other crimes against society | 20,214   | 43%        | 33%     |
| <b>Crime (excl fraud)</b>    | 201,072  | 18%        | 16%     |

\* Absolute and proportional differences in the number of offences compared to if the force had the MSG average number of offences per 1,000 population. A negative difference means the force has a lower recorded offence rate than the MSG average.

\*\*Percentage change from 2015/16 to 2016/17

\*\*\* Please note that this figure will differ from that presented on page 49 as offences with outcome 21 have been excluded

West Yorkshire

## Offences and outcomes - Crimes (excluding fraud) - Outcome

What are the outcomes for crimes (excluding fraud) and how does this compare with others?

The charts show the proportion of crimes recorded in 2016/17 that have a resulting outcome showing that a suspect has been identified and that an action has been taken. Please see 'Offences and outcomes introduction' (from pages 56) for definitions.

Other crimes against society include those with no identifiable victim, such as drug offences.

## Offences and outcomes - Violence against the person - Recorded offences

What is the recorded offence rate for violence against the person in the force and how does this compare with others? How does the rate compare with last year?

As homicide numbers are so small, care should be taken when making comparisons between forces. For this reason, a plot has not been included for homicide.

Recorded offence rate

## Offences and outcomes - Sexual offences - Recorded offences

What is the recorded offence rate for sexual offences in the force and how does this compare with other forces? How does the rate for sexual offences change compared to last year and how does it compare with other forces?

Note that due to the complex nature of these crimes, particularly rape, care should be taken when comparing crime rates across forces as there are many factors which can affect the level of recorded crime. For example, victims being encouraged to report historical crimes or cultural differences.

| Population             | 2,300k       |               |             |             |            |
|------------------------|--------------|---------------|-------------|-------------|------------|
| 2016/17                | Offences     | per 1,000 pop | MSG Avg     | Difference* |            |

## Offences and outcomes - Outcome percentage - Victim-based crime

What proportion of offences result in each outcome for victim-based crime and how does this compare with other forces?

Please see 'Offences and outcomes introduction' (from pages 56) for definitions.

Note that

- Out of court (formal) includes caution and penalty notices for disorder.
- Out of court (informal) includes cannabis/khat warning and community resolution.
- Suspect identified - no action includes evidential difficulties (victim supports action and victim does not support action) and prosecution prevented or not in the public interest.

Source: Home Office Crime Outcome Statistics for year ending March 2017

West Yorkshire

## Offences and outcomes - Outcome percentage - Other crimes against society

What proportion of offences result in each outcome for crimes against society and how does this compare with the other forces?

Please see 'Offences and outcomes introduction' (from pages 56) for definitions.

Crimes against society include those with no identifiable victim, such as drug offences.

Note that

- Out of court (formal) includes caution and penalty notices for disorder.
- Out of court (informal) includes cannabis/khat warning and community resolution.

A full breakdown of outcomes is available from page 80.

West Yorkshire

## Offences and outcomes - Charged/summonsed

What proportion of offences result in charges/summons and how does this compare with the other forces?

These charts and tables show the charge rates for all crime types compared with the England and Wales force average.

The first chart shows the proportion of all offences where the outcome was a charge or summons.

The actual percentage expected chart shows the force's actual charges compared with what would be expected if it were performing in line with all forces for each crime type. The expected value for the force would show as 100% if it were performing in line with all forces, so if the force's value is above 100%, this indicates that more offences are resulting in charges/summons for this force than the average.

|                                     | Offences       | Outcomes      | %          | % E&W      | Expected      | Difference    |
|-------------------------------------|----------------|---------------|------------|------------|---------------|---------------|

## Offences and outcomes - Out-of-court (formal)

What proportion of offences result in out-of-court (formal) outcomes and how does this compare with the other forces?

These charts and tables show the rates of out of court (formal) outcomes for all crime types compared with the England and Wales force average.

The first chart shows the proportion of all offences where there was an out of court (formal) outcome.

The actual percentage expected chart shows the force's actual out of court (formal) outcomes compared with what would be expected if it were performing in line with all forces for each crime type. The expected value for the force would show as 100% if it were performing in line with all forces, so if the force's value is above 100%, this indicates that more offences are resulting in out of court (formal) outcomes for this force than the average.

|                                     | Offences       | Outcomes     | %         | % E&W     | Expected     | Difference    |

## Offences and outcomes - Suspect identified - no action taken

What proportion of offences have not had any action taken and how does this compare with the other forces?

These charts and tables show the rates of offences for which a suspect has been identified but no action has been taken for all crime types compared with the England and Wales force average.

The first chart shows the proportion of all offences where a suspect has been identified but no action had been taken.

The actual percentage expected chart shows the force's actual offences where a suspect has been identified but no action had been taken compared with what would be expected if it were performing in line with all forces for each crime type. The expected value for the force would show as 100% if it were performing in line with all forces, so if the force's value is above 100%, this indicates that more offences are resulting in a suspect being identified but no action taken for this force than the average.

## Offences and outcomes - Investigation complete – no suspect identified

What proportion of offences result in no suspect being identified and how does this compare with the other forces?

These charts and tables show the rates of offences for which have no suspect identified for all crime types compared with the England and Wales force average.

The first chart shows the proportion of all offences where no suspect has been identified.

The actual percentage expected chart shows the force's actual offences where no suspect has been identified compared with what would be expected if it were performing in line with all forces for each crime type. The expected value for the force would show as 100% if it were performing in line with all forces, so if the force's value is above 100%, this indicates that more offences are resulting in no suspect being identified for this force than the average.

|                                     | Offences       | Outcomes       | %          | % E&W      | Expected       | Difference    |

## Offences and outcomes - Not yet assigned an outcome

What is the difference between recorded crime and the number of outcomes assigned in the period?

The table below show the number of offences which have not yet been assigned an outcome within the period. The figure below is a sum of  
1) offences for which the investigation has not reached a point to assign an outcome, and  
2) any differences between total outcomes and total offences recorded due to forces submitting crime and outcomes data, or the data being extracted, at different times. This may occasionally result in a negative number being displayed for some crime types.

Figures are presented here to illustrate to some degree the level of recorded crime for which the outcome is not known at this time but are indicative only. Inferences should not be drawn about forces' performance from this table.

|                                     | Offences       | Outcomes      | % of offences |
|-------------------------------------|----------------|---------------|---------------|
| Homicide                            | 38             | 20            | 52.6%         |
| Violence with injury                | 21,796         | 1,350         | 6.2%          |
| Violence without injury             | 43,133         | 3,210         | 7.4%          |
| Violence against the person         | 64,967         | 4,580         | 7.0%          |
| Rape                                | 2,128          | 712           | 33.5%         |
| Other sexual offences               | 3,781          | 923           | 24.4%         |

## HMIC Value for Money Profile 2017 - Annexes 1 - 4

|   | page |
|---|------|
| <b>Annex 1 - Crime codes</b>              | 87   |
| <b>Annex 2 - Outcome types</b>            | 91   |
| <b>Annex 3 - POA categories</b>           | 93   |
| <b>Annex 4 - Coding of POA categories</b> | 94   |

## Annex 1 - Crime Codes

Offences included in each category

### 1. Victim-based crime

#### 1.1. Violence against the person

##### 1.1.1. Homicide

- 1 Murder
- 4.1 Manslaughter

- 4.10 Corporate manslaughter
- 4.2 Infanticide

##### 1.1.2. Violence with injury

- 2 Attempted murder
- 4.3 Intentional destruction of a viable unborn child
- 4.4 Causing death by dangerous driving
- 4.6 Causing death by careless driving under influence of drink or drugs
- 4.7 Causing or allowing death of child or vulnerable person
- 4.8 Causing death by careless or inconsiderate driving
- 4.9 Causing death or serious injury by driving: unlicensed drivers etc.
- 5A Wounding or carrying out an act endangering life (outcomes only)
- 5B Use of substance or object to endanger life (outcomes only)
- 5C Possession of items to endanger life(outcomes only)
- 5D Assault with intent to cause serious harm

- 5E Endangering life
- 6 Endangering railway passengers (outcomes only)
- 7 Endangering life at sea (outcomes only)
- 8F Inflicting grievous bodily harm without intent (outcomes only)
- 8G Actually bodily harm and other injury(outcomes only)
- 8H Racially or religiously aggravated inflicting grievous bodily harm without intent (outcomes only)
- 8J Racially or religiously aggravated actual bodily harm and other injury (outcomes only)
- 8K Poisoning or female genital mutilation (outcomes only)
- 8N Assault with injury
- 8P Racially or religiously aggravated assault with injury
- 37.1 Causing death by aggravated vehicle taking

##### 1.1.3. Violence without injury

- 3A Conspiracy to murder
- 3B Threats to kill
- 8L Harassment
- 8M Racially or religiously aggravated harassment
- 8Q Stalking
- 11 Cruelty to and neglect of children (outcomes only)
- 11A Cruelty to children/young persons
- 12 Abandoning child under two years (outcomes only)

- 13 Child abduction
- 14 Procuring illegal abortion
- 36 Kidnapping
- 104 Assault without injury on a constable
- 105A Assault without injury
- 105B Racially or religiously aggravated assault without injury
- 106 Modern slavery

#### 1.2. Sexual offences

##### 1.2.1. Rape

- 19C Rape of a female aged 16 and over
- 19D Rape of a female child under 16
- 19E Rape of a female child under 13

- 19F Rape of a male aged 16 and over
- 19G Rape of a male child under 16
- 19H Rape of a male child under 13

(cont.)

|                                    |   |   |
|------------------------------------|---|---|
| 1.2.2. Other sexual offences       |   |   |
| 17A                                | Sexual assault on a male aged 13 and over                         | 70 Sexual activity etc with a person with a mental disorder |
| 17B                                | Sexual assault on a male child under 13                           | 71 Abuse of children through sexual exploitation            |
| 20A                                | Sexual assault on a female aged 13 and over                       | 72 Trafficking for sexual exploitation                      |
| 20B                                | Sexual assault on a female child under 13                         | 73 Abuse of position of trust of a sexual nature            |
| 21                                 | Sexual activity involving a child under 13                        | 88A Sexual grooming   |
| 22A                                | Causing sexual activity without consent                           | 88C Other miscellaneous sexual offences                     |
| 22B                                | Sexual activity involving child under 16                          | 88D Unnatural sexual offences                               |
| 23                                 | Incest or familial sexual offences                                | 88E Exposure and voyeurism                                  |
| 1.3. Robbery                       |   |   |
| 1.3.1 Robbery of business property |   |   |
| 34A                                | Robbery of business property                                      |   |
| 1.3.2 Robbery of personal property |   |   |
| 34B                                | Robbery of personal property                                      |   |
| 1.4. Theft offences                |   |   |
| 1.4.1. Burglary                    |   |   |
| 1.4.1.1. Domestic burglary         |   |   |
| 28A                                | Burglary in a dwelling  | 28D Attempted distraction burglary in a dwelling            |
| 28B                                | Attempted burglary in a dwelling                                  | 29 Aggravated burglary in a dwelling                        |
| 28C                                | Distraction burglary in a dwelling                                |   |
| 1.4.1.2 Non-domestic burglary      |   |   |
| 30A                                | Burglary in a building other than a dwelling                      | 31 Aggravated burglary in a building other than a dwelling  |
| 30B                                | Attempted burglary in a building other than a dwelling            |   |
| 1.4.2. Vehicle offences            |   |   |
| 126                                | Interfering with a motor vehicle                                  | 45 Theft from vehicle                                       |
| 37.2                               | Aggravated vehicle taking   | 48 Theft or unauthorised taking of motor vehicle            |
| 1.4.3. Theft from the person       |   |   |
| 39                                 | Theft from the person   |   |
| 1.4.4. Bicycle theft               |   |   |
| 44                                 | Theft or unauthorised taking of a pedal cycle                     |   |
| 1.4.5. Shoplifting                 |   |   |
| 46                                 | Shoplifting   |   |
| 1.4.6. Other theft offences        |   |   |
| 35                                 | Blackmail   | 43 Dishonest use of electricity                             |
| 40                                 | Theft in a dwelling other than from an automatic machine or meter | 47 Theft from automatic machine or meter                    |
| 41                                 | Theft by an employee  | 49 Other theft  |
| 42                                 | Theft of mail   | 49A Making off without payment                              |

(cont.)

|                                     |  |  |     |  |
|-------------------------------------|--|--|-----|--|
| 1.5. Criminal damage and arson      |  |  |     |  |
| 1.5.1. Criminal damage              |  |  |     |  |
| 58A                                 | Criminal damage to a dwelling  |  | 58F | Racially or religiously aggravated criminal damage to a building other than a dwelling (outcomes only) |
| 58B                                 | Criminal damage to a building other than a dwelling                              |  | 58G | Racially or religiously aggravated criminal damage to a vehicle (outcomes only)                        |

\* At March 2013 ONS publication crime code 53B was categorised under fraud offences.

## Crime committed against children

### Offences included in each category

#### Crime against children

##### Rape

|     |                                 |
|-----|---------------------------------|
| 19D | Rape of a female child under 16 |
| 19E | Rape of a female child under 13 |
| 19G | Rape of a male child under 16   |
| 19H | Rape of a male child under 13   |

##### Sexual offences / abuse

|     |   |
|-----|---|
| 17B | Sexual assault on a male child under 13       |
| 20B | Sexual assault on a female child under 13     |
| 21  | Sexual activity involving a child under 13    |
| 22B | Sexual activity involving child under 16      |
| 71  | Abuse of children through sexual exploitation |
| 73  | Abuse of position of trust of a sexual nature |
| 88A | Sexual grooming                               |

##### Cruelty / other

|     |   |
|-----|---|
| 11  | Cruelty to and neglect of children (outcomes only)      |
| 11A | Cruelty to children/young persons                       |
| 4.3 | Intentional destruction of a viable unborn child        |
| 4.7 | Causing or allowing death of child or vulnerable person |
| 12  | Abandoning child under two years (outcomes only)        |
| 13  | Child abduction   |
| 15  | Concealing an infant death close to birth               |

### Other offences against children not included

(It is not possible to distinguish between adult and child victims within these crime types.)

|    |                                    |
|----|------------------------------------|
| 23 | Incest or familial sexual offences |
| 86 | Obscene publications etc           |
| 99 | Other notifiable offences          |

## Annex 2 - Outcome types

The outcome groups are used in this section two are noted below with their corresponding outcome type from the Home Office outcome framework.

### Note

Definitions of outcome types are on the following page

Outcome 20 "action undertaken by another body/agency" was introduced from April 2015. As this outcome does not relate to police activity, offences with this outcome have been excluded from pages 60 to 85 of the profiles. These outcomes account for 0.8% of total offences. For this reason some overall offence figures may appear different to the offences stated in section 1 and those published by the Home Office and HMICFRS' PEEL reports.

## Outcome Types

|                   |  |
|-------------------|--|
| <b>Outcome 1</b>  | Charge / Summons: A person has been charged or summonsed for the crime (irrespective of any subsequent acquittal at Court).  |
| <b>Outcome 2</b>  | Caution – youths: A youth offender has been cautioned by the police.   |
| <b>Outcome 3</b>  | Caution – adults: An adult offender has been cautioned by the police.  |
| <b>Outcome 4</b>  | Taken into Consideration (TIC): The offender admits the crime by way of a formal police interview and asks for it to be taken into consideration by the court. There must be an interview where the suspect has made a clear and reliable admission of the offence and which is corroborated with additional verifiable auditable information connecting the suspect to the crime.   |
| <b>Outcome 5</b>  | Offender died: The offender has died before proceeding could be initiated.   |
| <b>Outcome 6</b>  | Penalty Notices for Disorder: A Penalty Notice for Disorder (or other relevant notifiable offence) has been lawfully issued under Section 1 – 11 of the Criminal Justice and Police Act 2001.  |
| <b>Outcome 7</b>  | Cannabis/Khat Warning: A warning for cannabis or khat possession has been issued in accordance with College of Policing guidance. Note: Khat warnings were introduced from 24 June 2014 and numbers are likely to be small.  |
| <b>Outcome 8</b>  | Community Resolution: A Community Resolution (with or without formal (Restorative Justice) has been applied in accordance with College of Policing guidance.   |
| <b>Outcome 9</b>  | Not in public interest (CPS): Prosecution not in the public interest (CPS decision). The Crown Prosecution Service (CPS) by virtue of their powers under the Criminal Justice Act 2003 decides not to prosecute or authorise any other formal action.  |
| <b>Outcome 10</b> | Not in public interest (Police) (from April 2014): Formal action against the offender is not in the public interest (Police decision).   |
| <b>Outcome 11</b> | Prosecution prevented – suspect under age (from April 2014): Prosecution prevented – named suspect identified but is below the age of criminal responsibility.   |
| <b>Outcome 12</b> | Prosecution prevented – suspect too ill (from April 2014): Prosecution prevented – Named suspect identified but is too ill (physical or mental health) to prosecute.   |
| <b>Outcome 13</b> | Prosecution prevented – victim/key witness dead/too ill (from April 2014): Named suspect identified but victim or key witness is dead or too ill to give evidence.   |
| <b>Outcome 14</b> | Evidential difficulties: suspect not identified; victim does not support further action (from April 2014): Evidential difficulties victim based – named suspect not identified. The crime is confirmed but the victim declines or is unable to support further police action to identify the offender.   |
| <b>Outcome 15</b> | Evidential difficulties (suspect identified; victim supports action) (from April 2014): Evidential difficulties named suspect identified – the crime is confirmed and the victim supports police action but evidential difficulties prevent further action. This includes cases where the suspect has been identified, the victim supports action, the suspect has been circulated as wanted but cannot be traced and the crime is finalised pending further action. |
| <b>Outcome 16</b> | Evidential difficulties: suspect identified; victim does not support further action (from April 2014): Evidential difficulties victim based – named suspect identified. The victim does not support (or has withdrawn support from) police action.   |
| <b>Outcome 17</b> | Prosecution time limit expired (from April 2014): Suspect identified but prosecution time limit has expired (from April 2014).   |
| <b>Outcome 18</b> | Investigation complete –no suspect identified (from April 2014): The crime has been investigated as far as reasonably possible – case closed pending further investigative opportunities becoming available.   |
| <b>Outcome 19</b> | National Fraud Intelligence Bureau filed (NFIB only) (from April 2014): A crime of fraud has been recorded but has not been allocated for investigation because the assessment process at the NFIB has determined there are insufficient lines of enquiry to warrant such dissemination.   |
| <b>Outcome 20</b> | Action undertaken by another body/agency (from April 2015): Further action resulting from the crime report will be undertaken by another body or agency other than the police, subject to the victim (or person acting on their behalf) being made aware of the action being taken. Note: during 2014/15 (and therefore in this publication), these were included within outcome 18.   |
| <b>Outcome 21</b> | Not in the public interest – suspect identified (from January 2016) Further investigation resulting from the crime report that could provide evidence sufficient to support formal action being taken against the suspect is not in the public interest – police decision.   |

### Annex 3 – POA Categories

POA data are split into 12 categories, which sub-divide into headings as follows:

POA estimates are used for all cost and workforce data unless stated otherwise. These data are taken from:

- a. Neighbourhood policing
  - b. Incident (response) management
  - c. Local investigation \*
  - d. Specialist community liaison
  - e. Local policing command team and support overheads
- 2) Dealing with the public
- a. Front desk
  - b. Central communications unit
  - c. Dealing with the public command team and support overheads
- 3) Criminal justice arrangements
- a. Custody
  - b. Police doctors/nurses and surgeons
  - c. Criminal justice
  - d. Police national computer
  - e. Criminal record bureau
  - f. Coroner assistance
  - g. Fixed penalty schemes (central ticket office)
  - h. Property officer / stores
  - i. Criminal justice arrangements command team and support overheads
- 4) Road policing
- a. Traffic units
  - b. Traffic wardens / police community support officers - traffic
  - c. Vehicle recovery
  - d. Casualty reduction partnership
  - e. Road policing command team and support overheads
- 9) National policing
- a. Secondments (out of force)
  - b. Counter terrorism / special branch
  - c. NPCC projects / initiatives
  - d. Hosting national services
  - e. Other national policing requirements
- 10) Support functions
- a. Human resources
  - b. Finance
  - c. Legal
  - d. Fleet services
  - e. Estates / central building costs
  - f. Information communication technology
  - g. Professional standards
  - h. Press and media
  - i. Performance review / corporate development
  - j. Procurement
  - k. Training
  - l. Administration support
  - m. Force command
  - n. Support to associations and trade unions
  - o. Social club support and force band
  - p. Insurance / risk management
  - q. Catering

- 5) Operational support
- a. Operational Support Command Team and Support Overheads
  - b. Air operations
  - c. Mounted police
  - d. Specialist terrain
  - e. Dogs section
  - f. Advanced public order
  - g. Airport and ports policing unit
  - h. Firearms unit

  - e. Public protection command team and support overheads

\* Local investigation is included under local policing rather than investigations

## Annex 4 - Coding of POA categories

### Local policing

- V Neighbourhood policing
- V Incident (response) management
- V Specialist community liaison
- V Local command team and support overheads

### Dealing with the public

- F Front desk
- F Central communications unit
- F Command team and support overheads

### Road policing

- V Traffic units
- V Traffic wardens / PCSOs - traffic
- F Vehicle recovery
- F Casualty reduction partnership
- F Command team and support overheads

### Operational support

- F Command team and support overheads
- F Air operations
- V Mounted police
- F Specialist terrain
- V Dogs section
- F Advanced public order
- F Airports and ports policing unit
- V Firearms unit
- O Civil contingencies and events

### Intelligence

- O Command team and support overheads
- O Intelligence analysis / threat assessments
- F Intelligence gathering

### Public protection

- F Witness protection
- F Child protection
- F Adult protection
- F Joint teams
- F Command team and support overheads

### Investigations

- F Command team and support overheads
- F Major investigations unit
- F Economic crime (including regional asset recovery team)
- F Specialist investigation units
- F Serious and organised crime unit
- F Local investigation/ prisoner processing\*
- F Cyber crime

### Investigative support

- F Scenes of crime officers
- O External forensic costs
- O Fingerprint / internal forensic costs
- O Photographic image recovery
- O Other forensic services
- O Command team and support overheads

### Criminal justice arrangements

- F Custody
- F Police doctors / nurses and surgeons
- O Criminal justice
- O Police national computer
- O Criminal records bureau
- O Coroner assistance
- O Fixed penalty schemes (central ticket office)
- B Property officer / stores
- O Command team and support overheads

### Support functions

- B Human resources
- B Finance
- B Legal services
- B Fleet services
- B Estates / central building costs
- B Information communication technology
- O Professional standards
- B Press and media
- B Performance review / corporate development
- B Procurement
- B Training
- B Administration support
- O Force command
- B Support to associations and trade unions
- B Social club support and force band
- B Insurance / risk management
- B Catering

### Police and Crime Commissioner

- X Cost of the democratic process
- X Cost of police crime commissioner
- X Office of police crime commissioner
- X Other costs

### Central costs

- X Revenue contribution to capital
- X Capital financing

### National policing

- X Secondments (out of force)
- X Counter terrorism / special branch
- X ACPO projects / initiatives
- X Hosting national services
- X Other national policing requirements

V = Visible operational front line  
 F = Non-visible front line  
 O = Frontline support  
 B = Business support  
 X = Excluded (not coded)

\* Local investigation is included here under local policing rather than investigations

## Outliers

This page provides the areas in which the force is an outlier in costs. The force's figures are compared to the spend of other forces. To be flagged as an outlier, the spend must be one of the highest 10% or lowest 10% of forces and the effect of the difference is greater than £1 per head of population. The difference (Diff) calculations are the net cost of the difference in spend to the average per head of all forces.

|                               | £m        | £/head        | Avg        | Diff £m        |
|-------------------------------|-----------|---------------|------------|----------------|
| <b>OVERALL COSTS</b>          |           |               |            |                |
